

SUPERVISOR OF SCHOOLS ON WEST SHORE IS PLAN

Directors Favor Proposition to Employ Educator at \$2,500

At a meeting of the school directors of the districts of East Pennsylvania, West Fairview, Wormleysburg, Lemoyne, Camp Hill and New Cumberland last night at the Capitol, it was decided to employ a supervisor for the West Shore schools. He would be an educator of experience and be able to outline courses of study that would bring the West Shore schools up to a higher rating. All districts voted in favor of the proposition with the exception of

New Cumberland. Directors of Lower Allegheny township and Shiremanstown were not present at the meeting, but it is believed they would favor the proposition as advanced. The movement was started some weeks ago when High School Inspector Denison and Kelo Green, superintendent for Cumberland county, called the directors together to consider the matter. A permanent organization was formed by the election of H. L. Hoffman, of Knola, president; Harry G. Knier, Wormleysburg, secretary, and Dr. W. F. Kendall, of Camp Hill, treasurer. A committee was appointed to consider applications and recommend for election. The minimum salary decided upon by the joint boards was placed at \$2,500 per year.

The action of the boards marks the beginning of a concerted movement upon the part of the people of the West Shore towns for better schools.

Pure, Maine Grown, Fancy SEED POTATOES

They Grow Better—They Yield Better
My Seed Potatoes are grown especially for me in the State of Maine by one of the most widely known Seed Potato specialists in the country. Every year we receive many carloads of this high-yielding stock direct from his Seed Potato Farms in sealed cars. Not a hand touches them until they reach us. By actual test made by many potato growers in every section of Pennsylvania, these high-yielding Seed Potatoes have produced from two to three times as many bushels to the acre or baskets to the row as home-grown stock will produce under the same conditions. WE PAY MORE FOR THEM than ordinary planting potatoes would cost—they are worth more—and it will PAY YOU WELL, as it does hundreds of others in bigger crops, to plant

Shell's High Yielding Seed Potatoes

Mr. George Smith, Harrisburg R. D. 4, market gardener, says: "Never again will I plant my own potatoes. I planted what I got from you alongside of my own of the same variety and gave them the same attention, yet the plants of yours were much stronger and healthier, and produced THREE times as many potatoes." Denison Bros., Dauphin, said: "I honestly believed that our own potatoes, very carefully selected, would yield as many bushels to the acre as your Maine seed potatoes, and two years ago we planted them side by side to prove them—we must acknowledge yours produced two bushels to every one bushel our own produced. Now we plant all yours." George Davis, market gardener, says: "I am convinced by actual test that it pays to pay the price and plant your MAINE GROWN SEED POTATOES. Planted side by side, in the same field on the same day, cultivated and sprayed in the same way, yours produced nine baskets to the row and mine only three." Don't save at the wrong end, when to do so means a loss. Plant Shell's Bigger Crop Maine Grown Seed Potatoes and double your crop.
