Now Is The Time To Have That Suit Refurbished At Cost

During May and June my alteration room will be less busy than usual. My business will be done in items that demand little work of this sort. But I want to keep my tailors occupied. So I am offering special inducements to women who want their old suits refurbished.

A little new trimming—a few alterations in the lines—a change in the skirt length -and thorough pressing; and there you have a practically new suit. I shall be glad to have you consult with my experts regarding remodeling. Their ideas should be of value.

I intend to make no profit in this work. My motive is to keep my shop busy. During May and June the work will be done
