**PLAN CAUCUS TOMORROW FOR SENATE MAKEUP**

**Republican Leaders Are Undecided as to Heads of Big Committees**  
 Washington, May 13.—Republican senators continued today to discuss plans for organization of the new Senate preparatory to the meeting of the party caucus tomorrow. The conferences, of which there were a number yesterday centered about the organization of the progressive group of senators to the selection of Senators Penrose, of Pennsylvania, and Warren, of Wyoming, as chairmen of the finance and appropriations committees, respectively.  
 Leaders of both the regular and the progressive groups to-day said the situation apparently was unchanged except to the number of the latter group willing to carry the opposition to Senators Penrose and Warren to the floor of the Senate.  
 Several senators considered as belonging to the regular group asserted that but two or three progressives would carry their attack to the floor, while the progressives said they did not know how many of them "would go the limit." Senator Borah, of Idaho, leader of the forces opposing Senators Penrose and Warren, said he would never vote for Penrose, but added that he was unable to speak for the others, who declined to say whether they would go beyond the party conference.  
 The progressives were said to have admitted their willingness to support Senator Smoot, of Utah, for the appropriations committee, but refused to favor him as president pro tem. The Utah senator as understood among both groups as willing not to seek election as president pro tem. Senator Johnson, of California, and Lenroot, of Wisconsin, were mentioned by the progressives as acceptable to them for president pro tem, but neither has signified a willingness to seek the office.

**You Can't Brush or Wash Out Dandruff**  
 The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.  
 Do this to-night, and by morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.  
 You will find, too, that all itching and itching of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.  
 You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

**Cumberland County Soldiers Send Out Petition For Success of Drive For Funds**  
 Carlisle, Pa., May 13.—Cumberland county soldiers just home from France have given their indorsement to the Salvation Army Home Service campaign, which opens next Monday. The returning soldiers have subscribed to the following petition and urged the success of the drive:  
 "We desire personally to testify that the Salvation Army during the war was splendidly generous giving us comfort and aid on every occasion, both at the front and behind it. We cannot say too much in praise of their great work.  
 "We most emphatically urge that this organization, which has so steadfastly befriended us, be given instant support on their Home Service Fund campaign, May 19 to 26, by our relatives and friends and all citizens of Cumberland county.  
 "During the above-mentioned week the Salvation Army will make a nation-wide appeal for funds to carry forward their great aim—help those who need help, and to make this world a better, more comfortable and happier place in which to live."  
 Plans are being made for the drive. The county's quota is \$10,000, a large part of which is for county work and it is hoped that it will be subscribed in a few days.

**GOVERNMENT TO BACK BANKERS IN CHINESE LOANS**

**New Consortium Appears to Be Strong Enough to Get Federal Aid**  
 Washington, May 13.—Organization of a new consortium for financing of Chinese loans, announced in Paris dispatches is regarded in official circles here as a historic step toward the new American principle of extension of the scope of participation in international financial arrangements.  
 At the State Department it was said officially that under the conditions which are to govern the new consortium the government practically, if not in specific terms, guarantees the investments of the banking group interested.  
 If the terms of the loan are just and the conditions fair, and if China agrees to the terms under which the loans are made, it was stated officially that this government would assure the bankers, after the matter had been submitted to the State Department; that the United States would protect all the interests secured in good faith.  
 Thirty-seven American banks, it was learned, are interested in the loans that will be made to China by the international group. This is understood to have been one of the points contended for by the State Department after the United States withdrew from the former consortium which expires by limitation on next June 18. In the old consortium the American representation was limited to four large New York banks.
