From the Shop that has Always closed Saturdays at six An Open Letter to Retail Merchants Bureau of the Chamber of Commerce MEMBERS: First a word of indorsement for the plan of closing the shops of Harrisburg Saturday evenings. A step in the right direction; it deserves the support of every forward-looking citizen. But why stop there? Why not close the shops Saturday afternoons during the summer? What valid objection can be advanced to this suggestion? In distribution, to shorten the hours results in no loss of business. It means merely that buying is concentrated into fewer hours. In production, the case is different, although even here personnel experts in the great industrial plants are finding that within certain limits shorter hours increase rather than decrease the unit output. To close Saturday evenings during the summer months should result in several advantages to those engaged in selling apparel. It enables the salespeople, for example, to get out and study the well-dressed throng in the streets and in the resorts. It keeps them up to date in their chosen work. They can better serve the public as clothing counselors. As to the altruistic phase of the question: the fact that it gives these salespeople more leisure—more time for innocent pleasure, and very distinctly enriches their lives—for fear of seeming to pose as a philanthropist, I shall not stress this factor. But I will say that, beginning Saturday, July 5th, this shop will be closed Saturday afternoons during July and August. I feel confident that my patrons will appreciate my motives and will co-operate with me in this step. Members of the Retail Merchants Bureau of the Chamber of Commerce, let us all have a summer holiday Saturday afternoons. Why not incorporate this suggestion in your movement and place Harrisburg in the van of progress? Very truly yours, Mary Sachs North Third Street at No 210
