TRAINMEN'S HEAD PLAYS LABOR MEN WHO SEEK TO FLY THE RED FLAG

W. G. Lee Declares Brotherhood of Railroad Trainmen Is 100 Per Cent. American and Has Faith in Government

Columbus, O., May 16.—That the Brotherhood of Railroad Trainmen has "no part of sympathy in any of the plans that pretend the hope of the world is only to be found in its destruction," that the organization is "one hundred per cent. American," and that it does not subscribe to any theory that proposes experimenting in the hope that out of this general mental and physical misery an average may come that will benefit the world, was declared by W. G. Lee, president of the Brotherhood of Railroad Trainmen, in his address before the convention here yesterday.

"We stand for no such doctrine of destruction and ruin, we believe in the Government of our representative nations and stand as 100 per cent. Americans ready to defend our principles and our faith," he declared.

16,000 Saw Service—As proof of the brotherhood's loyalty to the United States, 16,000 members of the organization took their places willingly in the ranks of armies and almost 200 of them were in the front lines in France in proof of their loyalty and devotion to the land they called their own.

Referring to the brotherhood, Mr. Lee at all times included the members in Canada as well as in the United States.

"There are labor organizations," Mr. Lee continued, "that seek refuge under the banner of labor organization that properly have no right to claim affiliation with labor organizations. I want to see proof of their readiness to raise the red flag of anarchy and declare for the revolution of every opportunity."

He declared the organization, which comprises 136,000 members, has been largely responsible for many of the labor laws enacted by the Federal and State Governments.
