

BIG SOCIAL WORK, METHODIST PLAN

American Methods Will Be Taught All Over the World

New York, May 19.—The Methodist Missionary Centenary have announced broad plans for a movement along social lines for world betterment which includes the adoption of twelve French towns on the Chateau Thierry battlefield for reconstruction, the creation of recreation centers in many war-worn cities of France and Italy, the building of hospitals in darkest Africa and establishments of agricultural stations to teach American methods in southern Italy, Chile and other countries. Methodists everywhere are being urged to help in the work.

This vast sociological and industrial enterprise is to be carried on by a department of 53,000 young men and women from the schools and colleges. More than 20,000 Methodist Episcopal churches, including both the Northern and Southern branches, are behind the Centenary movement, which is inspired by the belief of the church leaders that the world is confronted by the dangerous specter of Bolshevism which should be met by religious influence.

DEPENDS Y. M. C. A. Much of the criticism of the Y. M. C. A. is unjust, Chaplain Winfield S. Booth told the congregation in the First Baptist Church last night, narrating his experiences overseas. Chaplain Booth was former pastor of the local church.

THIS WEEK, NERVOUS MOTHER

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Philadelphia, Pa.—"I was very weak, always tired, my back ached, and I felt sickly most of the time. I went to a doctor and he said I had nervous indigestion, which added to my wisk condition kept me worrying most of the time—and he said if I could not stop that, I could not get well. I heard so much about Lydia E. Pinkham's Vegetable Compound my husband wanted me to try it. I took it for a week and it is a little better. I kept it up for three months, and I feel fine and can eat anything now without distress or nervousness." Mrs. J. Worthline, 284 North Taylor St., Philadelphia, Pa.

The majority of mothers nowadays over there are so many demands upon their time and strength; the result is invariably a weakened, run-down, nervous condition with headaches, backache, irritability and depression—and soon more serious ailments develop. It is at such periods in life that Lydia E. Pinkham's Vegetable Compound will restore a normal healthy condition, as it did to Mrs. Worthline.

Senator Watson Pleads For Support at Philadelphia Meeting

Philadelphia, May 19.—The Salvation Army campaign for \$13,000,000 for home service fund, of which \$2,000,000 is to be raised in Pennsylvania, was inaugurated here last night with a mass meeting at which United States Senator James E. Japs to Open Door to Alien Subjects

Tokio, May 19.—The Asahi reports that the Japanese government has decided on abolishing the barrier placed against alien subjects in Japan by granting foreigners the right of ownership of landed estate and by permitting Chinese laborers to enter the Empire for the purpose of engaging in labor in Japan. The newspaper regards these changes as an inauguration of the principle of the open door of the Empire preparatory to insisting on the abolition of world racial discrimination.

The enforcement of the law granting alien subjects the right to own land in fee simple, which was passed several years ago but which was withheld from operation, will be proclaimed by imperial ordinance shortly, it is said.

"Yes, dear, I know," whispered Caroline. "So what did you say?" "I said," replied Angelica, plausibly, pressing her friend's hand, "Oh, Raymond, how could you ask me such a question?" — Pearson's Weekly.
