

HOPE TO AVERT WINNIPEG STRIKE

Three Agencies Work to Bring Capital and Labor Together

By Associated Press. Winnipeg, Man., May 20.—Three agencies were working to-day to bring about a settlement of the deadlock between capital and labor of Winnipeg. Peace feelers were sent to the heads of organized labor and to the employers, but failure of the conciliatory agencies to announce any results caused the general impression that no definite concessions have been made by either side.

Union leaders and members of the citizens' committee yesterday denied reports that a Soviet government had been declared. The question of providing better facilities for transmission of press dispatches was considered at a meeting of commercial telegraphers.

Says Japanese and Korean Races Cannot Be United

Seoul, Korea, May 20.—Unification of the Japanese and Korean races is impossible, asserts the Organizing Committee of the independence movement in Korea in a statement which it has issued setting forth the reasons of the Korean people against the Japanese.

What are described as "five conspicuous injustices on the part of Japan toward Korea" are summarized in the statement. The committee asserts that although Korea aided Japan in the war against Russia, "the dog has bitten the hand of him who fed it." It is alleged that Japan has broken her promise to pay honor to the formerly Imperial family of Korea; that it is impossible for a Korean to obtain fair treatment in the courts when opposed by the Japanese; that liberty of speech does not exist and that the Japanese arrested thirty-three men who signed the manifesto of independence on March 1 last.

Woman Is Exonerated in the McLean Death

Washington, May 20.—Miss Elizabeth Moore, driver of the automobile which struck and fatally injured Vinson Walsh McLean, was yesterday exonerated by a court after an investigation of the accident. The coroner held that an inquest was unnecessary in view of the unanimous testimony of witnesses that the accident was unavoidable.

Miss Moore was at Bethesda, Md., ten miles from Washington. She is the daughter of C. Frank Moore, of Charles Town. With her in the car at the time of the accident were her sister, Miss Hilda Moore, and Miss Emma Riley. The women removed to Bethesda from Charles Town about ten days ago.

It developed yesterday that Miss Moore left her telephone number at the McLean home following the accident, but that fact was not communicated to the police until yesterday. The nature of the boy's injuries until they read yesterday's newspapers and learned of the accident. Mrs. Edward Beale McLean, parents of the boy, reached Washington yesterday on a special train. Mrs. McLean was prostrated, and the McLean country house, Friendship, was closed to visitors. Funeral services will be held this afternoon.

Cuban Sugar Mills Waste Much Molasses

Havana, May 20.—Great quantities of molasses are wasted by the sugar mills of Cuba. Attempts have been made to utilize this waste product as fuel for the boilers of the sugar mills and now a Cuban inventor claims he has invented an apparatus which will permit the use of the molasses as fuel without choking the furnaces.

All the sugar mills produce more molasses than can be marketed and, it is asserted, twice the amount needed to furnish fuel for steam power.

Mexican Indians Superstitious Over Death of Zapata

Chautla, Mexico, May 20.—Legends already are beginning to spring up among the superstitious and ignorant Indians of this state regarding Emiliano Zapata, the rebel chief who met death near here on April 10. In an attempt to preserve the bandit's body as long as possible in order to give the greatest number of his former followers a chance to see it, it was packed in ice, in the absence of embalming fluids. The ice burst the sides and top of the flimsy coffin and gave rise to superstitious tales that the "Attila of the South," as Zapata was called, was not really dead, but had burst his coffin and escaped.

Renters Resort to Key Money in England

London, May 20.—In many districts, and particularly in Yorkshire, where the dearth of houses is acute, the practice of paying "key money" is growing. So keen are prospective tenants to get into a house directly it is vacated, that as much as \$50 to \$100 is offered to the occupier for the key, this transaction generally carrying with it the understanding that the landlord will accept the succeeding tenant.

Philadelphia, May 20.—The Baptist Ministers' Conference desires to know what percentage of alcohol will put beer in the class of "intoxicating beverages." Acting on the recommendation of the committee on civic righteousness, the conference at its meeting in the First Baptist church yesterday voted to petition Congress to answer the question. Clergymen said that the provisions of the prohibition amendment are "indefinite" upon the subject and that much confusion will result when the law goes into effect.

JURY IN FORD CASE DISMISSED

Judge Listens to Argument on Scope of the Evidence

By Associated Press. Mount Clemens, Mich., May 20.—The jury in the libel suit of Henry Ford against the Chicago Tribune was released until Wednesday morning to-day while Judge Tucker listened to arguments of counsel on what scope is to be allowed in the introduction of evidence. The forenoon session was devoted to the conclusion of the opening statement of Weymouth Kirkland, of counsel for the Tribune. Coal Warning

The householder who gets his winter's supply of anthracite coal in his cellar within the next few weeks need have no fear of repetition of the severe winter of 1917-18.

To hold off ordering until fall means a rush at that time which the mines and railroads will not be able to handle.

If coal is not kept moving into the cellars of the houses now, there will be a curtailment of production which cannot be made up in the fall. This is likely to create a serious condition for the householder which will be difficult to remedy.

The price of coal cannot be reduced. On the contrary, the high cost of mining, transportation and local delivery to your home makes an increase in price absolutely necessary. The costs are steadily advancing, and how far they will go cannot now be foreseen.

We are daily receiving excellent quality coal at our three yards, located at Forster & Cowden Sts., 15th & Chestnut Sts. and 7th & Woodbine Sts. Phone us your order while quantity is highest and prices lowest.
