M. E. CHURCHES AID BIG FUND

Thirty-Three Churches Report Total of \$64,678 For Centenary

Thirty-three churches have reported a total of \$64,678 up to noon today, it was announced as the result of a survey of the Methodist Episcopal Centenary Campaign. "We are moving along splendidly in the Harrisburg district," said Dr. Edgar R. Heckman, district superintendent, when he viewed the totals.

Summersdale surprised the Centenary headquarters to-day by reporting a subscription of more than \$100 for each of the 29 members of the congregation, and the canvass is not complete. This little church also pays more than \$10 per member for pastor's salary, and last year raised \$400 to wipe out the church debt.

Churches of the city and Carlisle do not begin their campaign until June 1, and the \$56,000 they are expected to subscribe will be in addition to the \$117,000 campaign being conducted in the Harrisburg district this week. The apportionment of local churches is as follows:

DAILY HEALTH TALKS

The Many Mysteries of Nature BY L. W. BOWER, M. D.

You can take an onion seed and a pansy seed, and plant them side by side in the same spot of ground. In one case, you get an onion, with its peculiar strong odor, and in the other you get a flower of rare beauty. You can plant a poppy seed and get opium (a dangerous, habit-forming drug), or you can plant a rhubarb seed, and get something that helps constipation. No scientist living or dead, can explain these mysteries of Nature. Behind the invisible life germ in each seed is hidden the deep secret that nobody understands. Everything growing out of the ground seems intended for some use in establishing natural conditions. Dr. Pierce, of Buffalo, N. Y., long since found out what is naturally best for women's diseases. He learned it all through treating thousands of cases. The result of his studies was a medicine called Dr. Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature surely intended for backache, headache, weakening drains, bearing-down pains, periodical irregularities, pelvic inflammations and for the many disorders common to women in all ages of life. Dr. Pierce's Favorite Prescription is made of lady's slipper root, black cohosh root, unicorn root, blue cohosh root and Oregon grape root. Women who have taken this standard remedy know that in Dr. Pierce's Favorite Prescription they are getting a safe woman's tonic so good that druggists everywhere sell it. Favorite Prescription should have the full confidence of every woman in America because it contains no alcohol and no narcotic. Dr. Pierce knew, when he first made this standard medicine, that whiskey and morphine are injurious, and so he has always kept them out of his remedies. Send 10c to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial pkg. Tablets.

AUDIENCE SEE FALSE TEETH DROP IN THEATRE

Man Laughing, in Upper Box, Drops Them on Naval Officer

The treasurer at the Central Theatre has a set of teeth he'd like to return to the man who owns them. The owner sat in an upper box at a performance of "Somebody's Sweetheart." Saturday night, and when William Kent began cutting up on the stage, laughed so hard his teeth fell out and struck a naval officer in the second row on the arm. The naval man subdued them and turned them in at the box office. It is believed they belong to a white-haired man who went to the box office later and tried to say something. However, all he could do was whistle, and the treasurer never did learn what he wanted.—N. Y. World, 5-31-19.

RELEASES NOT SIGNED
