APPROPRIATION WANTS ARE HUGE

Almost \$125,000,000 Asked of House With Revenue Less Than \$90,000,000 Now

Appropriation bills listed by the House appropriations committee have reached the stupendous total of \$124,423,315.01. This breaks all records for requests and the figures have been double-checked to make sure that they are correct.

Estimates of the revenue available for appropriation range anywhere from \$86,000,000 to \$90,000,000 and Governor William C. Sproul has given \$90,000,000 as the outside figure, this being contingent upon the Auditor General being able to demonstrate that he can raise that amount of money.

Members of the legislature in charge of appropriations are planning to see Governor Sproul as soon as possible so that they can start reducing the bills and in order to make reports for the legislature.

Tuesday and it is expected that they will be disposed of in the House along with other Philadelphia bills the following week.

During the week a convention of men interested in revision of the Constitution will be held here and committees will visit the Legislature.

The Senate calendar contains a large number of third reading bills, including those to regulate dwelling construction, forbidding offering of state eggs as fresh, authorizing condemnation of land for State forests, reorganizing State Compensation Bureau, new public printing bill, authorizing counties to erect memorials to men who fought in the war with Germany and Constitutional amendment forbidding appointment of persons rejected by the Senate after Senate has adjourned.

In the House the calendar contains dozens of postponed bills, including the prohibition enforcement and alcohol content bills fishermen's license, requiring all vehicles to carry lights on roads after dark, branch bank and physical education bills. The new bureau of markets bill is on third reading. On second reading is the new contagious disease drafted by the State Department of Health.

Many people have asked the meaning of the word "pogram." In vain will the Americans look for it in their dictionaries. It is a strictly Russian product, adopted now by the reborn Poland, and evidently concocted by the majority of the "Peace Conference." We Americans have heard of lynching. Well, a pogram is a wholesale and incomparably more brutalized form of lynching.

Poland had become the fondled child, the pet of those Allies who went into the war for agrarization and material gain. Why? Because by Poland's geographical position the majority of the Allies expect her to hem and hedge in Germany. (What guarantee they take from Poland that she will just cater to the interests of the Allies, I do not know.) So Poland is allowed to cloak her cowardice under the pretense that she is killing "lawless" Jews

while pogroms are being carried on by the people higher up. You will ask "why do they do that?" Just for a pastime. Some newspapers expressed themselves that Poland declared war against six million Jews. We scout such a war against non-combatants. We scorn a war with cowards who attack defenseless women and children, who first disarm our self-protesting young men under peacelike pretenses, then kill them from behind their backs.

Poland wants honorable warfare, we accept the challenge. In fact, we will throw down the gauntlet first. Let the Allied nations for whom our sons bled so freely, let the nations who sorrow as deep as the sea and a pain as silent as the night.

The real protest, however, is coming from the victims themselves, from the outraged and then killed widows of fallen soldiers, from the torn from the torn babies, from the wild shrieks of despair of the mothers which are only silenced by the death blow of the club wielded by the murderer from the wrecked homes, from the desecrated synagogues, from the defiled holy scrolls, from the ruined cemeteries, from the blood of the son which is made to mingle with the blood of the aged father, etc., etc.

American Jews' Day of Mourning

To the Editor of the Telegraph:

It has been decided by the spiritual and temporal leaders of American Jewry that a day of mourning, fasting and praying be set and observed by all Jewish communities of this country, as a protest against the wholesale massacres of and pogroms on their six million brethren at the hands of the newly liberated poles.

The coming Thursday, May 29, our Christian friends may be surprised to see Jews closing their stores and shops for a few hours to repair to the synagogues. Well, it will be the day of mourning observed by the Harrisburg Jewish community.

On all the Jewish faces will be read a sorrow as deep as the sea and a pain as silent as the night.

The real protest, however, is coming from the victims themselves, from the outraged and then killed widows of fallen soldiers, from the torn from the torn babies, from the wild shrieks of despair of the mothers which are only silenced by the death blow of the club wielded by the murderer from the wrecked homes, from the desecrated synagogues, from the defiled holy scrolls, from the ruined cemeteries, from the blood of the son which is made to mingle with the blood of the aged father, etc., etc.

Borah Again Pleads For Peace League To Be Party Issue

Washington, May 26.—A plea that the Republican party accept the question of a peace league as a party issue and oppose as a unit the league covenant was reiterated by Senator Borah, Republican of Idaho, in a letter he made public here.

The communication, addressed to D. E. Dunne, Wichita, Kans., commending the Sedgwick Republican Club for its resolutions denouncing the league covenant, was similar in content to the letter recently sent by the Idaho Senator to the Boston Transcript.
