FAYOLLE CALLED TO COBLENZ FOR **EMERGENCY TALK**

Activity Among Troops Within Bridgehead Area Marked Within Last Few Days

By Associated Press.

Coblenz, May 27.—General Fayolle, group commander of two French armies of occupation, arrived here yesterday for a hurried conference with Lieutenant General Hunter Ligsett regarding the emergency plans of the Allies if the Germans refuse to sign the terms of peace. The activity among the troops within the bridgehead area has been more marked during the last few days than at any time since they reached the Rhine. The American doughboys are preparing for action, some of them stating that in the near future "they will probably be moving in the direction of Brandenburg gate, Berlin, or toward the Statue of Liberty in New York harbor." armies of occupation, arrived here

Washington. May 27.—Senator, penrose, of Pennsylvania, believes there should be congressional investigation at this session into the "deplorable conditions existing in the plorable conditions existing in the postal service."

Furthermore, he says, he personally will urge such action, and when it is taken into consideration that he is a member of the Senate committee on post offices and post roads, it is probable some thing will be accomplished.

Senator Penrose expressed himself, and the situation when interviewed. Mr. Penrose said he had read with personal interest the complaints of business men throughout the State for some time.

Democrats Also Angry

It was also found, in discussing the matter with other national lawmakers, the opposition to Burleson, and his economy methods, which have thrown the postal service into chaos, is assuming a nonpartisan character. Democrats are found who denounce his methods quite as strongly as do Republicans, and they say they have been constrained from openly fighting him simply because he is a member of the Democratic administration.

It would not be unlikely, in case of congress should start an investigation, that these men would join the complaints against him are not actuated by politics, and they feel has become a liability to their party.

Senator Penrose feels that Contoners provided in the post of the conducted at all, at least certain kinds of business, anyhow. Last week, for instance, I had several included of delivery and all traces were lost. Telegrams making inquiry of rail-road administration or the Post office pepartment either were not received, remained unanswered or the reply was unsatisfactory or indefinite.
