Don't think WHISTLE is a health drink, for it isn't. But it has in it just the things that make for health---sugar and pure fruit juices. It is a drink for summer or Winter, Spring or Fall---palatable, nourishing, satisfying and mighty good to the taste.

**It's Cloudy in the Bottle**

because it is rich in fruit juices and heavy cane sugar. That cloudiness is its strength---none of the goodness has been refined out of it merely so it looks clear. All the strength and energy is there---so it's cloudy!
