COUNTY JOINS IN FIGHT TO KEEP HIGHWAY OPEN

Commissioners Tell Viewers Clark Valley Road Is Most Important

THE RAILROAD IS BLAMED

Upper End Men Say Scheme Is to Enclose Vast Game Preserve

Declaring that by closing the road through Clark's Valley in Rush township the only highway from that district leading to the county seat will not be available to residents, that such action would tend to decrease property values from 20 to 50 per cent., and would also close large fishing and hunting grounds, were statements made by the county commissioners to-day in objecting to the move to shut off about 11½ miles of the road.

The board of viewers held a special meeting this morning in the city council chamber at which the county officials voiced their protects. C. C. Cumbler, president of the board of commissioners, said it had taken action opposing the move to close the road for these reasons: "We feel that as it is the only road in that valley it should remain open. It is the only means of access to the county seat unless the people go into arother county, and if they do that they must travel a much greater distance. Not only that, but thousands of acres of territory will be cut off from the county seat, and will have no public road running through it. We believe it is our duty to protect our interests and to look to the future."

WILSON CABLES HIS MEMORIAL DAY **ADDRESS**

Washington, May 29.—President Wilson has cabled the fol-owing Memorial Day message to the American people:
"My Fellow Countrymen-

'Memorial Day wears this year "Memorial Day wears this year an added significance and I wish, if only by message, to take part with you in its observation and in expressing the sentiments which it inevitably suggests. In observing the day we commemorate not only the reunion of our own country but also now the liberation of the world from one of the most serious dangers to which free government and the free life of men were ever expressions." Though the Good Shape control and the control of the stand of the control of the lant and now immortal men who died in this great war of libera

Rally Against Daylight Repealer

New York, May 29.—Marcus M. Marks, president of the National Daylight Association, to-day sent appeals to Chambers of Commerce throughout the nation to join in a protest against the repeal of the daylight saving law.

"The repeal of the daylight saving law, without giving the representatives of daylight saving law, without giving the representatives of daylight saving a hearing, will be pernicious class legislation," says Mr. Marks. "It has been said a few farmers are opposed to the act, but, on the other hand, millions are in favor of the extra hour of sunlight. In a year it has saved more than 1,000,000 tons of coal, minimized eye strain by obviating work under the glare of gas and electricity, has promoted general health by giving the workers time in the sunshine after their day's duties, has increased amateur gardening, thereby reducing the abnormally high expenses for food, and has lowered the gas and electric light bills.
"A concerted protest by all living in the cities by letter and telegram to their Senators and Representatives will make Congress realize that millions favor daylight saving where a few thousands oppose."

BREED, CLUB LEARNS

School Children Engaged to Wipe Out Breeding Places of

Pests Show What Is Wrong

The scope of the Civic Club fly contest this year has been enlarged to meet with some of the requests made by Colonel Edward Martin, State Health Commissioner, in his campaign to make the city a model one from health and sanitary standpoints, Mrs. William Henderson, president of the Civic Club, announced to-day.

Efforts this year will be directed to a large extent to bring about the extermination of the breeding places of the flies, Mrs. Henderson explained. And to do this, the work is being carried into the city public schools by the approval of the Harrisburg School Board with Mrs. Henderson and Dr. F. E. Downes, superintendent of city schools, in charge of the work.

The man worked throughout this district using the appeal which had district using the appeal whi We shall not sleep, the poppies blow
In Flanders' fields."
The speaker charged the audience with the responsibility of "keeping the faith" for the sake of democracy. Continuing, he spoke of his experience abroad, meeting the English, French and Italian soldiers. While he expressed admiration for all of them, he stated that the American doughboy possessed something that none of the others had. "Spirit and initiative were two things that carried the American soldier over the top," was his statement.

The man worked throughout this district using the appeal which had been written on Y. M. C. A. letter dubous and after learning from the Y. M. C. A. that the letter was spurious, police officials were notified.
