

COST OF MOVING POLICE AND FIRE ALARM IS HEAVY

Mayor Keister May Ask For Use of Old Fager School

New quarters for the Mayor's office and police department must be found immediately, Mayor Keister told other members of City Council this morning just before the business session. The Mayor has received notice that Henry C. Claster, owner of the old of Trade building, intends to start remodeling and other building operations in the near future and will expect the department to move from the basement and first floor by January 1 next year.

The Mayor told the commissioners he does not intend to have the department remain in the building until that time if other quarters can be found. To-day C. O. Backenstoss, secretary to the Mayor, began a search for a suitable place.

It is likely that school board officials may be requested to delay the remodeling of the Fager building, in Walnut street, for continuation school purposes, if possible, so that city offices could remove to it until space is provided in the new city-county building. A school board meeting is scheduled for Friday and the question may be taken up at that time.

According to city officials the cost of removing the police telegraph and fire alarm from the present location will be the most expensive part of the work, as it

may cost thousands of dollars and will take much time to relocate.

None of the commissioners could suggest a suitable building in which offices could be located for the department. Mayor Keister said he would probably make a report next Tuesday to Council.

The only official action taken by the councilmen was the passage of two ordinances on final reading. These provided for the paving of Chestnut street, from Nineteenth to Twentieth, and the location of new lights in Riverside.

Commissioner E. Z. Gross announced that a letter from the Central Labor Union asking what provision could be made to stop foreclosing in the city markets had been referred to City Solicitor John E. Fox for an opinion.

The commissioners were petitioned to place a light in North Third street, between Maclay and Woodbine streets. Following the business session the councilmen studied the provisions of an act regulating housing conditions now pending in the State Legislature.

Dinner in Honor of Fellows in Service

The staff of the Harrisburg Dispensary, No. 13, of the State Health Department will entertain at dinner at the Penn-Harris this evening in honor of members who served the nation during the war. The guests of honor will be Lieutenant J. W. MacMullen, Miss Elida Graybill, Miss Anna Hitchcock, Miss Rona Kerstetter, and Miss Rose Pendergast.

The hosts and hostesses will be: Dr. W. Tyler Douglas, M. W. Emerick, Dr. H. H. Farnsler, Dr. L. Page, Mrs. Katherine Du Pont, Miss Susan Hoofnagle, Miss Frank Lewis, Mrs. Sara B. Menger and Mrs. Pearl Whelan, nurses; and Miss Annie E. Miller and Miss Katherine A. Miller, secretaries. The physicians will be accompanied by their wives.

HUNDREDS MARCH IN BROILING SUN

[Continued from First Page.]

children of the parochial school, and many visiting friends. Undoubtedly it was the largest funeral held in Steelton for many years. The great number of people attending the services and following in the long procession in the walk of five miles to the cemetery was eloquent testimony to the great reverence and respect in which the departed priest was held by his people and friends.

Father Anthony Zuvich died Monday, May 26, at the rectory, after an illness of a number of weeks following a paralytic stroke. The Divine Office was omitted from the services this morning, having been said last evening at 8 o'clock. The celebrant at the Solemn Requiem Mass this morning was the Right Rev. Philip R. McDevitt, Bishop of the Roman Catholic Diocese of Harrisburg. Father Lukas was deacon and Father Ambrose was subdeacon. The deacons of honor were the Rev. Fathers Stephonovitz and Judnitz.

Father Shuster was assistant priest at the mass. The funeral sermon was preached by the Rev. Dr. Knicker of Phoenixville. The Rev. Frank Pohl was master of ceremonies. The Bishop gave the absolution.

Long before the appointed time the church was crowded and people lined the streets in the vicinity of the church for hours. More than sixty priests, most of them fellow-countrymen and close friends of the deceased, were in attendance. The priests came from all sections of the country, with a large number from the diocese.

Members of six organizations attended the service in a body and followed in procession to the cemetery. St. Lawrence Croatian Society, St. Aloysius and St. Nicholas Sloven and the societies of St. John the Baptist and St. Mark. Members of the Ladies' Society of St. Ann also attended. Several hundred children of St. Mary's Croatian parochial school followed the procession, the girls dressed in white with black sashes.

The body of Father Zuvich was viewed by many thousands of people before the services this morning. The body reposed in a beautiful metallic casket, covered with black broadcloth, with an airtight plate glass top. The funeral was in charge of the H. Witt's Sons, undertakers. There is a possibility of the remains being later taken to Dalmatia.

Father Zuvich was a Dalmatian by birth. He was educated in Zadar in America. He first took charge of a parish in Calumet, Mich. Later he built the church of St. Anthony in Los Angeles. He took charge of St. Mary's, Steelton, in 1911, and was instrumental in building the present beautiful church building at Second and Hoffer streets.

MERCURY CLIMBS TO NEW RECORD

[Continued from First Page.]

was somewhat higher to-day than it was yesterday. Fair and continued warm with no indication in sight of an early drop in the temperature, is the dismal forecast held out to-day by E. R. Demain, Harrisburg's official weatherman. The cool area that has overspread the western part of the country is dissipating and there is little indication that any relief will be brought to Harrisburg by it. Forecaster Demain explains to Harrisburg people, who have been rendered somewhat uncomfortable by the unreasonable weather.

The temperature over the entire Middle Atlantic States is rising, moderately, the weather report says, while in the upper Missouri Valley, the northern Rocky Mountains and the plateau region, the rise has been a decided one. Texas and lower Louisiana report cooler temperatures while other changes have been relatively unimportant.

Encouraged by the warm weather of yesterday, scores of persons swarmed in the various suitable bathing places in this vicinity. All gladly received the welcome announcement by Assistant Park Commissioner V. Grant Forrer, that the city bathhouses and bathing beaches at Seneca street and the Island will be ready to be used within the next several days. The bathhouses will be open only in the afternoon until there is sufficient demand to warrant their being opened in the evening.

W. G. Lee Re-elected Head of the Trainmen

[Continued from First Page.]

Mr. Lee is well known among railroad men in this city. He has made a number of visits here, and was president of the trainmen's brotherhood when it met in convention in Harrisburg in 1911.

BOMBS PLANTED BY REDS KILL TWO

[Continued from First Page.]

The cities in which explosions occurred were New York, Washington, Cleveland, Pittsburgh, two; Philadelphia, two; Boston, Paterson and Newtonville, Mass.

The attempt on the life of Attorney General Palmer has literally brought home to Congress the seriousness of the menace and members to-day showed marked increase in their desire to eliminate the radical element, which they charge is largely made up of foreigners who could be disposed of by deportation.

WATCHMAN BLOWN TO FRAGMENTS

William Boehner, a private watchman, was blown to pieces, parts of his body being found half a block from the scene of the explosion. He was identified by his two sons from particles of his clothing and a ring of keys. For the last ten years Boehner has been employed as a watchman for a number of private dwellings in the neighborhood of Judge Nott's home. The exact time of the explosion was learned when it was discovered that a large clock in the hallway had stopped at 12:55 a. m.

The police expressed the opinion that the explosion at the Nott residence was part of a nation-wide plot by radicals to assassinate prominent men throughout the country.

The bomb, according to Inspector Owen Egan of the Bureau of Combustibles, was most powerful. Experts differed as to whether the bomb was loaded with dynamite or trinitrotoluol.

Judge Nott at Summer Home Judge Nott with three daughters was at his summer home near New London, Conn. With Mrs. Nott in the house were the caretaker and his family. They sustained no serious shock and minor injuries received when they were thrown from their beds.

The homes of Richard D. Lydon, a lawyer, and Dr. John C. McKewen, adjoining the Nott residence, were badly damaged. All glass was broken and doors broken in by the concussion. No one in these houses was injured.

Directly across the street, army men, guests at an officers' club, maintained by the War Camp Community League, were in the building when windows crashing in. Portions of a body was found in the club. Officers who served overseas said that the force of the explosion equaled anything they had heard in France during the war.

Immediately following the explosion and the receipt of news dispatches telling of similar outrages in other cities, the police detailed strong forces to guard the homes of prominent men in New York.

Pittsburgh, Pa., June 3.—A cordon of policemen and detectives was thrown around Pittsburgh to-day, in an effort to catch the perpetrators of two bomb explosions in different sections of the city shortly before last midnight. The outrages were directed against United States district Judge W. H. S. Thompson, and W. W. Sibray, chief inspector of the bureau of immigration. That the explosions were in connection with a plot of radical agitators to kill men who have been active in different sections of the city is indicated by the fact that local authorities found handbills signed by "the anarchistic fighters" and similar to those discovered in Washington.

Terrorists Make Mistakes The bombs were placed on the porches of residences near the home of the public officials and police authorities today expressed the opinion that the terrorists made mistakes in planting the infernal machines. The first explosion occurred next to Judge Thompson's home. It wrecked one house and damaged other residences, including that of the jurist.

Shortly after this outrage, a bomb was exploded in the west end district on the porch of a house directly across the street from the residence of

ray's home. Mr. Sibray was thrown from his bed by the force of the explosion.

Boston, June 3.—The home of Justice Albert F. Hayden, of the Roxbury Municipal Court, was severely damaged by an explosion of unknown origin shortly before midnight. No one was in the house at the time, the Judge and his family being at their summer home.

The police said that if a bomb had been planted it probably was done as a result of Judge Hayden's decisions in the recent Roxbury riot cases.

Justice Hayden presided at the hearings in the cases of more than a hundred men and women who were arrested in connection with a radical demonstration which developed into a riot in the Roxbury district on May Day. He took a hand in questioning some of the defendants and imposed sentences ranging from fines to imprisonment for a year and a half. Appeals were taken and most of the defendants furnished bonds.

Newtonville, Mass., June 3.—The house of Representative Leland W. Powers, a son of ex-Congressman Samuel L. Powers, was partly wrecked by a bomb soon after midnight this morning. Mr. Powers with his family was on the second floor and no one was injured.

Mr. Powers said the only reason he could assign for the attempt against him was his activity in support of the anti-anarchy bill that was recently passed by the Legislature.

The bomb was placed against the outside of the house to the rear and tore through the walls, wrecking the first floor interior and smashing windows.

Paterson, N. J., June 3.—An explosion, which the police believe to have been caused by a bomb, wrecked the house of Max Gold, silk manufacturer, 331 East Thirty-first

street, at 12.30 o'clock this morning, partially wrecked an adjoining house and broke the front door and windows of a residence across the street. Most of the houses within a radius of 200 feet had windows broken. Captain Ryan, of the police, declares it his belief that a bomb was planted in a driveway close to Gold's residence. No one was injured.

Cleveland, Ohio, June 3.—An attempt was made to blow up the home of Mayor Harry L. Davis here last night. No one was injured, but a part of the house was wrecked. First reports were that it was a gas explosion, but police later declared a bomb or infernal machine had been planted.

Strike in Opposition to New Republic

Berlin, June 3.—The inhabitants of Mayence and Wiesbaden began yesterday a 24-hour strike in protest against the attempted coup in proclaiming an independent Dalmatian republic.

DOROTHY E. ENSMINGER Dorothy E. Ensminger, aged 4 years, died to-day. She is a daughter of Mr. and Mrs. Alexander H. Ensminger, 2154 North Fourth street. The funeral will be privately held Thursday afternoon and will be in charge of the Rev. John Henry Miller, of the Holy Communion Lutheran Church. Burial will be made at Paxtang cemetery.

The inside story of a Teapot

So long as Tetley's is inside of the tea pot, it makes little difference whether the pot is china or earthenware. It's what's *inside* the tea pot that counts!

Particular people insist on Tetley's Tea. That is because it's the *different* tea.

Different because of the delightful flavor, an expert blend of teas from 15 or more tea gardens.

Different because of the refreshing fragrance—it's thoroughly delicious.

Try a cup of Tetley's clear amber colored Orange Pekoe Tea.

A Clear Head is needed to cope with the complex conditions of modern life. A steady brain and a far-seeing eye are the first things needed to progress. Many lag behind in the race because of their physical condition. Male or female, you cannot do your work properly if your digestive organs are in bad condition or your system run down. Your food will not assimilate and your blood does not nourish.

A Healthy Body is the result of sound digestion and active liver. As soon as the digestive organs get out of order the general health declines. The joy of living vanishes, and all seems dark. It is a simple matter to keep the liver and stomach in good condition. Why suffer when a resort to Beecham's Pills will relieve you and a sensible use of them will avoid trouble? Thousands have learned that they can trust them. Why not start at once? Clear the head, stimulate the mind, by toning your digestive system.

Teeth Cannot Last
If You Let That Film Remain

All Statements Approved by High Dental Authorities

Why Brushed Teeth Now You Can End It.
Discolor and Decay In a Pleasant Way

Millions of people find that teeth brushed daily still discolor and decay. Tartar forms on them. And most people, soon or late, suffer pyorrhea.

Old methods of tooth brushing have proved sadly inadequate. Statistics show that tooth troubles have constantly increased.

Now dentists know the reason. It lies in a film—that slimy film which you feel on your teeth with your tongue. It clings and stays in certain places, particularly in crevices.

That is what discolors—not your teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. "Bacterial plaque" is the dental name for film. Those germs, with tartar, are the chief cause of pyorrhea. Thus most tooth troubles are now traced to that film.

The tooth brush used in the old ways leaves much of this film intact. The ordinary dentifrice cannot dissolve it. Soapy tooth pastes even help it to cling.

So much of this film—the great tooth destroyer—has been left to do its damage. Nearly everybody has had teeth wrecked by it, despite the daily brushing.

Dental science has long sought a way to end that film. It has now evolved an efficient film combatant. Able authorities have proved this by many clinical tests. Now, for general use, the method is embodied in a dentifrice called Pepsodent. Leading dentists everywhere are urging its adoption.

And we offer you a 10-Day Tube to show its effects.
