

HARRISBURG TELEGRAPH

Published evenings except Sunday by THE TELEGRAPH PRINTING CO.

E. J. STACKPOLE President and Editor-in-Chief

Members of the Associated Press—The Associated Press is exclusively entitled to the use for republication of its news dispatches credited to it or not otherwise credited to this paper.

Member American Newspaper Publishers Association, The Audit Bureau of Circulation and Pennsylvania Associated Dailies.

Entered at the Post Office in Harrisburg, Pa., as second class matter.

By carrier, ten cents a week; by mail, \$3.00 a year in advance.

WEDNESDAY, JUNE 4, 1919

Idleness is only the refuge of weak minds, the holiday of fools. — Lord Chesterfield.

GOOD NEWS, INDEED

THE people of Pennsylvania will hail as good news, indeed, that Governor Sprout and Auditor General Snyder have been able to work out a plan whereby much needed revenues...

A POPULAR BILL

HOUSE BILL NO. 1060, which would permit hunting and fishing on wild, unimproved, unenclosed mountain lands, whether publicly or privately owned, is a popular measure.

YOUR UNCLE SAM

ALL the world must largely depend for some years for its rehabilitation upon the United States. We are already shipping enormous quantities of food and most soon send abroad stupendous quantities of raw materials.

FAITH

THE interesting publication of The National City Bank of New York, The Americas, there is an encouraging and optimistic editorial based on the capitalization of faith.

CLEANING UP THE U. S.

ALMOST before anyone realized just what was happening, one of the most remarkable achievements in preventive health measures in America's history was well on the way to realization.

people are just beginning to appreciate, because they have not yet fully grasped the magnitude or merit of the undertaking. It is pleasing to note, however, that opposition existing is rapidly dwindling to insignificance.

Nothing short of an alarming situation could have worked such wonders in so short a while. And it might be well stated again that any disease affecting as high as twenty per cent of the young men of a community is alarming.

Old laws governing preventable diseases were revived or extended to include the highly communicable diseases of the kind. Millions of dollars were appropriated. New and more effective measures were considered urgent in many States.

Anyone who can read the signs of the times must realize now that any community which calls itself progressive cannot longer permit this menace to public health to stalk unbridled through society.

Those who are ignorant and can't comprehend the crying necessity for cleaning up the situation must be taught. Those who are capable of comprehension, but still hide behind an antiquated modesty and prudery, must get out of the way and let the work go on.

JAIL LOCATION

THERE is little difference of opinion among thoughtful citizens regarding the desirability of relocating the county prison outside the city limits. Most intelligent persons believe the present location of the jail is unfortunate and out of harmony with the progressive development of Harrisburg.

UNDERSIDE OF A POPULAR BILL

HOUSE BILL NO. 1060, which would permit hunting and fishing on wild, unimproved, unenclosed mountain lands, whether publicly or privately owned, is a popular measure.

As an illustration of our wonderful expansion in exports, we shipped alone in April meat and dairy products in amount equal to the whole of these products exported during all of 1914. Bread stuffs and meat shipped in the ten months to May first amounted in value to \$1,640,000,000—as much as the total shipments during five and a half years previous to the war.

ROMANCE OF BUSINESS

Platinum worth \$2,415,000 and weighing 23,000 ounces was recently brought into this country. It traveled from Russia as the personal baggage of a Massachusetts business man who had undertaken on his own responsibility to secure it for the Government.

WOMEN FOR PRIESTHOOD?

The Church of England's custom of confining the priesthood to men is about to be "challenged definitely" by the organization calling itself now the General Council of the League of the Church Militant.

A NEW NON-ESSENTIAL

Though there isn't any governmental regulation concerning it now, it is known as the Church League for Women's Suffrage, did effective work, and it will be interesting to see what form this "definite challenge" is to take.

WHEN A FELLER NEEDS A FRIEND

ONE DAY LAST SUMMER

A REPUDIATED SPOKESMAN

It does not require a long memory to remind us how little foundation in fact or reason there is for the President's vainglorious pretensions of speaking in the mind of the American people, and of being the voice of the American spirit.

UNDESIRABLE ALIENS, THEIR RESTRAINT OR DEPORTATION

It is a course entirely in accord with justice and fair dealing that the people came to the United States of their own accord, and for their own interests.

THE NAVAL PROGRAM

The chairman of the House Committee on Naval Affairs announces that the naval appropriation bill which failed at the last session will be completely rewritten.

I THOUGHT OF ROOSEVELT

Richard Washburn Child in Collier's Weekly. President Wilson has been a great, and a truly great, apostle of the rights of mankind—of the benefits the individual deserves from the state, of the benefits one nation derives from all.

LLOYD GEORGE IS LENIENT

Lloyd George is willing to make one concession to the Germans; they can sign it in the more appropriate place of Potsdam, where the Emperor had a conference on July 5, 1914, at which Austria was authorized to go ahead and precipitate war.

TRADE BRIEFS

There is only one cream separator in use in Foochow, China. This is owned by the Foochow Dairy and is a small hand operated machine installed by the local British physician, who started the dairy.

co-operative factory for milk products of 1918, compared with the corresponding period of 1917 decreased from 827,000 to 604,000 cubic meters. The reduction was mainly due to lack of tonnage.

Railway construction is being pressed forward in the district of Mozambique, Malindi and Biera, Portuguese East Africa.

Considerable importance is attached to the recent purchase of twenty-five German submarines in the G. G. Cotton & Sons Company, of London and Swansea, who will undertake to break up these vessels and dispose of the scrap metal.

The Bureau of Fisheries reports that during the month of March a total of 405,127 eggs, 912,464,390 fry and 17,811,020 fingerlings were distributed by that bureau.

The German toy industry has been able to retain a hold on the toy trade in Switzerland as well as in other neutral countries, although the German price on an average has been raised 100 per cent.

APPREHENSION

Oh, does the fairy feel the happy Of June upon her fragile, upturned cheek? And is the hardy laurel quite content To stay alone on some far mountain peak?

WHY ARE THEY THERE?

Major General William S. Graves, commanding the American troops in Siberia, has made a heroic attempt to explain what to most of his fellow-countrymen will still seem inexplicable.

WELL KNOWN PEOPLE

Representative James A. Walker, who leads the House on a number of bills presented, is a Philadelphia lawyer.

DO YOU KNOW

That Harrisburg steel is used for bolts and nuts for merchant shipbuilding?

Evening Chat

Major Frank C. Mahin, who recently came to Harrisburg to serve with Colonel James B. Kemper in administering the greatest army recruiting district in the United States, is an all around man who is the backbone of the active list of officers of the regular army. And incidentally, he has knowledge of the world and its people from within.

The importation of chemicals into Taiwan during 1918 amounted in value to 1,455 yen, or about \$887,217. All but 52,703 yen (\$26,351) worth of these came from other parts of Japan.

Norway's timber export the first ten months of 1918 compared with the corresponding period of 1917 decreased from 827,000 to 604,000 cubic meters. The reduction was mainly due to lack of tonnage.

From 100,000 to 400,000 pounds of pig intestines are exported from China annually for use as sausage casings.

Considerable importance is attached to the recent purchase of twenty-five German submarines in the G. G. Cotton & Sons Company, of London and Swansea, who will undertake to break up these vessels and dispose of the scrap metal.

The German toy industry has been able to retain a hold on the toy trade in Switzerland as well as in other neutral countries, although the German price on an average has been raised 100 per cent.

THE DRAMA IN TENNESSEE

Some of the elements of this community went to the show last week to see the "Good for Nothing Husband" played. Others had to stay at home with the ones they married.
