

### RUMANIA EATS AMERICAN FLOUR

#### Without United States Aid Starvation Would Have Become General

Belgrade, Serbia, June 4. — "All Rumania is eating flour from America to-day. The people realize where the aid has come from and are exceedingly grateful. Without American help starvation certainly would have become very general." These are the words of Lieutenant Colonel H. Gideon Wells, American Red Cross Commissioner to Rumania, who recently arrived at Belgrade from Bucharest.

Colonel Wells said the great bulk

of the Rumanian food supply, including about twenty thousand tons of flour monthly, is furnished by the American Food Administration. It is sold in wholesale quantities to the government, which attends to all details of transport and distribution. Flour trains run continually from the ports to the interior and have the right-of-way over all other transport. The supply is being well handled and there is no longer danger of starvation except in isolated areas, particularly in the Dolbrudja region, where local transport is excessively difficult.

Supplementary to the Food Administration program the American Red Cross Commission to Rumania has already developed a nation-wide food and clothing relief program which aims particularly at the relief of the destitute, the welfare of orphans, the organization of sewing-rooms and the general amelioration of conditions. This effort has had the hearty co-operation of the Rumanian government. From King Ferdinand and Queen Marie to the lowest official, the Rumanian people are very grateful, and "to be an American is to be honored."

#### WORKED BOTH WAYS

A novelist said at a Bar Harbor tea: "It is incredible what some women will spend to get into society. A western millionaire's wife came to New York, took a house in Fifth Avenue and gave a ball of great magnificence. "When her husband totted up the bills he winced and said: "My Maria, these here bills tot up to \$30,000!" "I don't seem to me that we're gettin' into society as much as you are," said the millionaire. "Humph!" said the millionaire. #### What Is the Cause of Backache?

BY DOCTOR CORNELL  
Backache is perhaps the most common ailment from which women suffer. Rarely do you find anybody free from it. Sometimes the cause is obscure, but Dr. Pierce, of Buffalo, N. Y., a high medical authority, says the cause is very often a form of catarrh that settles in the delicate membranes of the feminine organs. When these organs are inflamed, the first symptom is backache, accompanied by bearing-down sensations, weakness, unhealthy discharges, irregularity, painful periods, irritation, headache and a general run-down condition. Any woman in this condition is to be pitied, but pity does not cure. The trouble calls for Dr. Pierce's Favorite Prescription, which is a separate and distinct medicine for women. It is made of roots and herbs put up without alcohol or opiate of any kind, for Dr. Pierce uses nothing else in his prescription. Favorite Prescription is a natural remedy for women, for the vegetable growths of which it is made seem to have been intended by Nature for that very purpose. Thousands of girls and women, young and old, have taken it, and thousands have written grateful letters to Dr. Pierce, saying it made them well. In taking Favorite Prescription it is reassuring to know that it goes straight to the cause of the trouble. There is but one way to overcome sickness, and that is to overcome the cause. That is precisely what Favorite Prescription is intended to do. Send 10c for trial pkg. of Tablets. Address Invalids' Hotel, Buffalo, N. Y.  
Constituted women, as well as men, are advised by Dr. Pierce to take his Pleasant Pellets. They are just splendid for constiveness.

### STATE ROADS ARE NOT BOUNDED

#### County Lines Have No Significance on State Highways

Allegheny county officials have been informed by Highway Commissioner Lewis S. Sadler that when a primary system of highways was planned for Pennsylvania it became necessary immediately to wipe out all divisional lines, such as county boundaries, and consider the proposition from the sole angle of "the greatest good to the greatest number." The Allegheny county officials had expressed the opinion that their county, with its great population and varied industries, had not received as many miles of primary highway as might be possible. The Highway Commissioner pointed out that the primary road system includes mileage of lasting construction which will give Pittsburgh and Allegheny county 18-foot ribbons of thoroughfare connecting them with Erie and northeastern Pennsylvania, the Ohio boundary, through Beaver, Beaver Falls, New Castle and Washington; the West Virginia boundary, through Washington and Waynesburg; the Butler-Clarion region, the entire Lincoln highway territory through the southern tier of Pennsylvania counties by way of the William Penn highway. The primary road map shows Pittsburgh the center of a very extensive cobweb of good roads. In the Allegheny county delegation were County Commissioners A. C. Gumbert, Frank J. Harris and G. F. Meyer, Chief Clerk W. S. McClatchey, the county engineer and others. Commissioner Sadler advised a delegation from Armstrong county that many counties are laying out road systems which will "tie" with the State's primary system; and he suggested something of this sort for Armstrong county, which recently voted 8 to 1 for a big bond issue for road construction. This delegation included Milo Shaw and Frank Meyers, of Apollo, and Representatives Charles F. Armstrong and Albert E. Curry, with State Senator W. Fred Turner, Representative Armstrong told the Commissioners that the Armstrong County Good Roads Association, of which L. Todd Owens, of Apollo, is president, and which has a membership of 1,000, does not favor piecemeal construction—or the "here and there a strip" construction, as Mr. Armstrong put it, but asks that a system of roads be laid out which will link up the entire county. This association will hold a meeting next Saturday.

#### ABLE DEFENDER

"Grandpa, did you fight in the great war?"  
"Yes, my boy."  
"Did you carry a gun, grandpa?"  
"No. I carried a check book and a fountain pen, and whenever the chairman of a finance committee called my name I answered, 'Here.'"

### CONFERENCE PUTS GLOOM IN JAPS

#### Failure of Racial Clause Causes Bitter Disappointment

Tokio, June 4. — Failure of the Japanese delegates to secure the introduction of an "equality of races" clause in the League of Nations covenant caused deep disappointment throughout the Japanese nation and has led to a serious self-examination on the part of the Japanese people. The disappointment was all the more bitter because at first a dispatch came from Paris announcing the adoption of the racial clause. Japanese who frankly discussed the problem said they could not understand on what standards Japan was judged to be a first class power. If it were merely because Japan was strong in a naval and military sense, this was not flattering to the Japanese amour-propre, who would much rather have it based on standards of civilization, capacity and culture. Yet small countries like Holland and Belgium, they said are placed on a footing equal with the United States, France and England.

"We are keenly disappointed," wrote the editor of one paper. "It is as if we had tumbled from a very high precipice. We must look into our hearts, examine ourselves rigidly and see why we are not permitted to join the other nations of the world on a footing of real equality." The Osaka Mainichi said: "The adoption of the American amendment for the Monroe Doctrine and the failure of the racial amendment affords a most glaring contrast between a great success for the United States and a great failure for Japan."

The Tokio Asahi says, "part of the blame should be placed at the door of European and American statesmen whose political conscience has been so besotted that they do not understand or respect the principle of justice and humanity except when it is politically used to their advantage."

#### WHAT IS INCONVENIENCE?

The tall bookkeeper who about three yards of lower limb around the leg of the table and remarked as he gazed off into space: "I would like to know what some people's idea of inconvenience is. For people's idea of inconvenience is a small child instance that other day a small child belonging to one of our neighbors knocked at our back door. "What can I do for you, little girl?" I asked. "Well," she said, "my papa says he hopes it won't inconvenience you any, but he has sent our icebox downtown to have a new lining put down and he wants to know if you will lend us your refrigerator for three or four days until ours gets fixed." "Can you beat that?"—Pittsburgh Leader.
