Essex Popularity Grows Note Their Increasing Number On the Streets and Ask Their Owners Sells at \$1395 f. o. b. Detroit Hailed as a New Leader All who have seen the Essex will understand how difficult it is to appear temperate in our claims for it. People are saying the most enthusiastic things about it. They like its light weight and the way in which it combines the economy of the cheap car with the quality, endurance, comfort and performance of the large costly automobile. Motorists in every section are praising the Essex. Tens of thousands have ridden in it. A million have seen the Essex. All hail it a new leader. "It Is THE Light Car" That in a sentence expresses a view of practically everyone. It describes their feelings as to its type, its value and its distinctive performance. Motorists have long talked of the car that would be enduring and comfortable to ride in and of great performance ability and still that would be neither heavy nor costly to buy or operate. They describe the Essex as being "the car" that fills that field. And they have long wanted a light car that they would not have to apologize for because of its appearance. So their expression, "That is THE Light Car," describes their feelings concerning the Essex. When Can I Get an Essex? That is the question all are asking. Thousands of course have already been shipped. They are going out from the factory in increasing numbers every day. But orders are also piling up and from the first we have had waiting lists. It is not a question of selling the Essex during the next several months. The question will be "Who will get them?" If you are to be an Essex owner you must not delay ordering. Everyone who knows the Essex is enthusiastic for it. All are talking about it. You can understand something of Essex popularity if you will listen to what motorists are saying. Ask any owner. If you haven't ridden in an Essex there is a pleasant experience in store for you.
