A Cool, Delicious Drink

Easy to Make — Costs Less Than 1c a Glass

Root Beer! Doesn't the very name suggest all sorts of woody fragrant things? And think of having it on hand all the time—a refreshing, invigorating glass when you're feeling tired; wholesome, sparkling glasses when the children come home; a cool, tempting glass for the guest who drops in.

The nice part of it is that in addition to its bottling white and wholesome, it is surprisingly easy to make. All you need is a 25c bottle of Hires Household Extract sugar, and a yeast cake. Makes 40 pints or 80 glasses, too—less than 1c a glass. You may drink just as much of it as you want, because home-made root beer made from Hires Household Extract is pure. It is made from the juices of pure bark, berries, herbs and roots—16 all-including birch bark, ginger and spikenard. When you buy Hires Household Extract you know that it is pure, and that it does not contain substitutes nor artificial flavors.

Go down cellar and hunt up all those old bottles which have been accumulating. You can use them all—short necked, long necked, quart and pint! If you haven't corks for them, you can purchase from the grocer when you buy Hires Household Extract, a supply of Hires especially designed air-tight bottle stoppers.

Once you make some home-made root beer, you will never again be without it!
