HUN TRIES TO DODGE

JUST now the German government is endeavoring to get out from under the definite charge that the German General Staff was responsible for the Bolshevik revolution in Russia.

Notwithstanding this cumulative testimony of the infernal work of the German military leaders and the support of the Berlin government of the impossible group which almost destroyed Russia, there are those in this country who would lessen the efforts of the properly constituted authorities to run down and run out of the country the infamous groups of anarchists who have been conducting a campaign of terrorism throughout the United States.

A WISE COURSE

SURPLUS government property, the overhang of the war supplies, is now being disposed of at auction in all parts of the country.

There is also to be disposed of large quantities of leather, electric motors and all kinds of foodstuffs, including 45,000,000 pounds of bacon, partly in crates, but more largely in twelve-pound cans.

With the sudden cessation of hostilities enormous supplies for the army in France were stopped at the great government depots near the Atlantic seaboard.

Notwithstanding the strong sentiment which prevailed at the beginning of the present session of the Legislature against the requirement for German tins in official advertising and in other ways in Pennsylvania there has been a distinct failure to properly consider a number of bills now pending in the House and Senate which would repeal the

mandatory provisions of laws compelling sheriffs and other officials to use German newspapers in their official advertising. With the constant testimony regarding German activities through the printed word and the insidious propaganda engineered from Berlin in this country it would seem to be about time for the legislators of this State to get awake to their duty and cease their coddling of the so-called German influence in politics.

OUR STATE IN THE WAR

NOW that the war is over, albeit the vanquished Hun seems to still have the obsession that he is the victor and entitled to dictate the terms of peace, it is interesting to note that the War History Commission appointed by the State Council of National Defense and of which Governor William C. Sproul is chairman, is proceeding along intelligent lines in the preparation of the real history of Pennsylvania's part in the great war.

In a circular just issued by the War History Commission from its offices in Philadelphia, the purposes and scope of the work is outlined and we are given to understand that arrangements are now under way for the making of a permanent record of the military, economic and civic participation of the State in the great war.

Elsewhere in the Telegraph this evening is given an outline of the purposes of the commission in the preparation of the war history which should be read by all interested in this work.

RIGHT, MR. PALMER

THE Telegraph has not always been in accord with Mitchell Palmer and his political views, but it is in perfect harmony with his attitude as Attorney General on the suppression of anarchy in this country.

A FAMILY AFFAIR

AT EVERY turn in the study of the League of Nations one comes face to face with some member of the House family. We have seen how the son-in-law of Colonel House, Gordon Auchincloss, was given a place as the Colonel's secretary at Paris, and that Professor Mezes, president of the College of the City of New York, and brother-in-law of the Colonel, was placed at the head of a commission to collect data for the use of the Peace Commission, and has been in Paris during all the negotiations.

OH, MAN!

Pennsylvania's Opportunity

[Pittsburgh Gazette-Times] Senator John Sharp Williams, of Mississippi, anti-suffragist, has frequently voiced his impatience with continued opposition to the passage through Congress of the Susan B. Anthony amendment resolution.

Value of Advertising

Francis H. Sisson, vice-president of the Guaranty Trust Company, in a speech at Chicago this week, discussed the commanding influence of its value to the Nation during the war.

Contrast in Belgium

"M. H." in the Manchester, Eng., Guardian. The bitter cry of Belgium for financial help is in tragic contrast to conditions in the little country before the war.

Chinese Boycott Japan

[From the Philadelphia Inquirer.] Chinese resentment against the surrender of Japan of the Kiaochow territory and of the railroad and other concessions in the Peking government twenty years ago is said to have assumed the form of a boycott on Japanese products which has already extended to a number of the principal cities in the country and which threatens to become universal.

Love

Love is such a strange thing, It comes in homely guise; And yet into a simple maid It gives both tongue and eyes.

Evening Chat

The recent ceremonial session of Zembo Temple, Ancient Arabic Order Nobles of the Mystic Shrine, has resulted in many encomiums for the ability of the Shriner's Patrol, of which Frank H. Hoy, Jr., is the captain.

It is probable that the appropriation bill carrying funds for the start of the big plans for improvement of Capitol Park will be reported to the House next week.

The Telegraph has received a copy of a Memorial Ode sung at the Decoration Day exercises at Taneytown, N. Y., last Friday.

If there is any one problem which is giving men in charge of highways real concern nowadays it is detours or routes to go around an improvement.
