#### Member of Mexican Embassy Says Patience Is Only Needed

Washington, June 6.—Mexico will protect all foreign investments in that country and if other countries only are patient Mexico will pay all of her debts, Dr. Juan B. Rojo, counselor and charge d'affaires ad interim of the Mexican embassy yesterday told the Pan-American Commercial Congress. His words, "I assure you all foreign investments in Mexico are safe and will be protected," brought a storm of applause from the large gathering of representatives of the Latin American countries and the United States. "Mexico is now in the reconstruction period," Dr. Rojo said. "All that she wants is that, rather than handicapping her at every moment, outsiders may be a little patient."

### Undertaker Mauk Held Under \$600 Bail to Answer Fraud Charges

Charged with burying two bodies in pasteboard boxes and rough boxes after he had been paid for caskets and with failing to embalm them though he had charged for the work, Charles H. Mauk, undertaker of Sixth and Keller streets, was arrested last evening. The charge against Mauk in both cases is false pretense. The charge was lodged after an investigation into two alleged cases of shoddy burial had been made by County Detective James Walters. Mauk will be given a hearing before Alderman C. E. Murray tomorrow afternoon at 3 o'clock. He was given a preliminary hearing before Murray last evening, after which he was released under \$600 bail. The warrant for Mauk's arrest had been issued by Alderman Murray on information of Detective Walters. The arrest was made by Constable Grove.

### Hines Is Optimistic on Railroad Revenues

Washington, June 6.—Substantial increase of railroad revenues because of the growing volume of general business was predicted by Director General Hines, of the railroad administration, in concluding his testimony at the House appropriations committee hearing on his request for \$1,200,000,000 for use in operating the government-controlled lines for the remainder of the calendar year. The increased volume of business, he said, would tend to eliminate further government loss from operation of the roads, because the operating costs would not be advanced correspondingly. Mr. Hines said that the biggest crops in the history of the country would be moved during the summer, and that an increased coal movement was apparent, industries having resumed purchases stopped after the signing of the armistice. He said the factories had accumulated large reserve stocks. "In all probability we are going to have a great increase in the volume of business," Mr. Hines declared, "and this ought to produce a net profit that will go far toward wiping out the railroad deficit." Director General Hines left later on the last of a series of inspection trips covering virtually every main line railroad in the United States. He will visit Boston, Omaha, Denver and Birmingham.

### King of Hoboes Abdicates; Will Try to Make Fortune

New York, June 6.—Jeff Davis has brought his long reign as king of the hoboes to an end. In a proclamation he made known to his 500,000 subjects his decision to abandon the throne. The ex-king says he is going back to his home in Cincinnati to be with his 16-year-old daughter Cora and his 14-year-old son Ellery, and to try to make his fortune. King Jeff has ruled the knights of the road for many years. He has been a traveler himself for twenty-two years. For the last two years he says he has been doing secret service for the government in rounding up bomb plotters, spies and drug sellers. This work, he says, has taken him into Germany. He says he has covered 710,000 miles and made four trips around the world in his twenty-two years of hoboeing. He was born in Cincinnati thirty-five years ago.

### Letter to the Editor

**ATHLETICS BENEFICIAL**  
To the Editor of the Telegraph:  
Christianity is far to the front in the development of human character and its influence has made this world the power it is today. The stronger character of people rule the earth. Now there is nothing that helps more to develop Christianity among races of men than athletics. Athletics develop moral courage, strengthen minds, harden muscles and also afford pleasure to those who take part in the sports. Away back in the day of the Spartans and Greeks, athletics abounded, and never before were there any more real men than in those days of old. Let us carry on this line of activity among our people and encourage our boys and girls to take part in athletic sports. Every colored man and woman of the borough can help to keep this line of activity moving by encouraging the boys with their attendance at some of their games and also by purchasing tickets from the Dolphin girls for the fair to be held Thursday, June 12.
