selling and convenient handling.

all the agencies at work running down the radicals responsible for the explosion, it is announced at po-

the explosion, it is announced at police headquarters here.

The statement came at the close of a conference between federal agente and representatives of the municipal police departments of various cities. It was stated that detachments of the New York bomb squad have been sent to Pittsburgh, Washington, Philadelphia, Boston and other cities to round up anarchists and other radicals who are familiar figures in the exclusive Red Society of New York. Officers connected with the police departments of several of the cities in which there were bomb outrages Monday night will come to New York to give the police here whatever help they can. The belief was expressed that anarchists in several of the cities have fled to New York in an effort to avoid arrest. Charles Himes, 17, Quickly Taken From River but

For Sour Acid Stomach, Nervous Indigestion, Constipation, Heart Palpitation, Dizziness, Heartburn,

WHILE WADING

Mag Rhu contains no harmful drugs, no alcohol.

Prompt results in cases of long standing, when everything else you have tried has failed. One box will convince you of its merits. Price of box refunded, if, after a thorough trial according to directions, you do not get results.

War-Time Activities Within the

War-Time Activities Within the State

"It is impracticable to list here all the war-time activities of which the Commission desires facts, illustrations and narratives. The following topics are only suggestive, but they will give some idea of the field to be covered.

"I. Agriculture and Food Supply Under this topic are included the work of Granges, Farmers' Clubs, Farm Councils, the Rural Progress Association and similar bodies; the activities of county food administrators; the question of farm labor and ways of solving it; the use of farm tractors; the control of prices; educational means of promoting agriculture; methods of disseminating ideas of cooking and food conservation; statistics of agricultural production: personal narratives of farmers who met and solved new problems.

"2. Manufactures and Shipbuilding—In the manufacturing field Pennsylvania contributed more to win the war than any other State. Information is desired upon the war activities of individual plants and establishments as well as organizations of manufacturers. Valuable information can be obtained concerning plant extensions and adaptations for war work, ihe character and amount of the product and the problems faced and solved. The in-

ty branches touched almost every subject mentioned in these pages. The War History Commission is the citical custodian of the records of the council and committee and of its county branches. The Commission also desires individual narratives from persons who co-operated with the council and committee in the capacity.

ticles and books about Pennsylva-nia; (4) personal narratives of all kinds of war activity, whether in the service, or in individual, finan-cial or welfare work at home; (5) manuscript minutes and reports of war organizations; (6) compilations showing the war work of cities, boroughs and counties, of chambers of commerce, of educational insti-tutions and of industrial establish-ments.

Compilation of War History Compilation of War History

"After the gathering of war records is completed, the Commission
will undertake the compilation of a
history of the deeds, records and
achievements of soldiers, sailors,
marines and of citizens and organizations of the Commonwealth active during the war with Germany
and Austria.

"The Commission trusts that per-
