CITY MAY BUY ASH EQUIPMENT

(Continued From First Page)

It would be assured, but some of the Commissioners said they did not believe funds could be found this year to purchase necessary wagons and horses.

Up to Burnett Whether the city will have band concerts paid for by an appropriation by Council this year will depend on Commissioner C. W. Burnett, superintendent of the finance department, other Councilmen said today in discussing the bill signed by Governor Sproul yesterday permitting cities to appropriate money for such purposes.

Mr. Burnett is in charge of the finances, on Commissioner said. If he says that they will have sufficient money to make the appropriation I am sure no member of Council will oppose it.

Commissioner Burnett when asked whether he thought sufficient funds could be found to pay for concerts said he was unable to make a definite report until he had gone over city expenditures for the last few months and determined just how much remained in the various budget funds.

Commissioner E. Z. Gross said that if the Councilmen can find money to pay for the concerts there will be no difficulty in arranging for them at once. He also mentioned that a number of free concerts had been provided by arrangements made between bands and local business houses.

AN UNUSUAL ACCIDENT Arthur H. Hull, the well-known lawyer of 2133 North Second street, was motoring with his family last evening and turning from Second street westward on the corner of the little daughter, Elizabeth Ann, who was sitting beside him on the front seat, was thrown out of the car into the gutter when the automobile made the turn. John C. Herman, who witnessed the accident from his front porch, rushed to the assistance of the little one who was stunned by the fall and picking her up in his arms handed the child to her parents. Immediately the child was taken to a physician who made an examination and relieved the anxiety of the parents with the assurance that outside of slight laceration of the scalp and some bruises the little girl was not seriously injured. She was all right this morning and chipped at usual.

Toledo, O., June 7. — If Jess Willard, who is to meet Jack Dempsey here on July 4 for the heavyweight championship of the world, is to get into trim for the contest, he must work hard every one of the remaining days until the men are ready to step into the ring. This is what boxing experts said here today. Furthermore, they said he must do some of the most strenuous work of his training career to train down to perfect condition.

growing in America. He said in part: "So far there is no American rose growing in the sense the word would imply. Most of the roses are of foreign origin and up to this time grown near Philadelphia and in America. In 588 varieties listed at the show of the National Rose Society of England, only twenty-six varieties originated in this country. This situation should be changed so that it would be American roses grown by Americans, and in America for Americans, and the American rose would soon predominate.

of bond holders at a figure said to approximate \$40,000. During the last week a number of other big transactions have been reported. Among these was the purchase of the plot at Cameron and State streets by the Moorhead Knitting Company, containing about 350,000; and the sale of the ground at Front and Boa street for a new apartment house to be built.

Andrew Redmond a few days ago purchased the three-story brick apartment and store at 1701 North Third street, from J. H. Franz. The consideration was about \$10,000, it was said. Another three-story brick property sold recently was the one at 1213 North Second street, for \$10,000, transferred by Estella D. Mackenson to Minerva Wolfe.

Building operations, according to Mr. Thompson, are going on particularly in undeveloped parts of the city where few properties have been erected. Some of the dwellings being erected are in outlying sections of the thirteenth and first wards and in the western district.

Since June 1 about 12 permits have been issued for building work which will cost \$180,000 to complete. This includes the permit for the new apartment at Front and Boa, and the building operations planned at the Moffitt property in North Front street.

COMMISSION TO REPORT MONDAY

expert and is attending the meetings of the reparations commission. The Italians are showing great uneasiness over the unsettled Adriatic problem, which is insisted that it must be settled before the Italian Parliament meets on June 18. The Council of Four considered the Adriatic problem yesterday, but no decision was reached.

Many Loose Ends There are still many loose ends to the determinations which must be made before the reply of the Allies to the German proposals can be submitted to Count von Brockdorff-Rantzau, head of the German plenipotentiaries, and even the question of principle regarding changes in the Treaty has not been definitely settled.

The reply will be submitted as an ultimatum with a short time limit, probably about four days, in which the Allies will have either to take or leave the conditions as offered them.

No Big Change Expected The most important modification under consideration, namely, the question of reparations, probably will not involve any material changes in the Treaty as originally presented. The concessions will, instead, be presented in the form of a supplementary agreement, defining the procedure for the reparations commission and prescribing certain instructions for that body.

This new solution which is expected to emerge from the deliberations of the experts will dodge fixation of a definite monetary total for reparations, to which the French object on the ground that announcement of any sum which it is considered possible to exact in payment would so disappoint the expectations of the French public as to produce a political upheaval.

It is understood that the question of a plebiscite in Upper Silesia practically has been decided affirmatively. No change with regard to responsibility, punishment of the former Emperor or the disposition of the German colonies is regarded as probable.

Paris, June 7. — Within the last few months at least ten citizens have been killed in Ireland by soldiers or constables under circumstances found by coroners' juries to have been wilful murder. This charge is made in the report on an observation made in Ireland by Frank P. Walsh, Michael J. Ryan and Edward F. Dunne, delegates of the Irish societies in the United States. The report, which was made public last night, was sent to President Wilson along with the demand that the Peace Conference investigate the Irish question.

Numerous and specific charges of atrocities committed in Irish jails are contained in the document. Charges are made that hundreds of men and women were put in prison without any special accusations being made against them. The document says that at least five men died as a result of atrocities in prisons and that many prisoners are confined in cells of inadequate size and given insufficient and unwholesome food.

WARM WEATHER MEETING PLAN OF RAILROADERS

Friendship and Co-operative Committee Prepares For a Big Night June 25

Reports from the committee in charge of arrangements for the next meeting of the Friendship and Co-operative Club, indicate one of the best warm weather meetings in the history of the organization. No matter how warm the atmosphere may be outside once the hall is reached it will be found one of the coolest places in the city. It will be "Keep Cool" night, said one member yesterday.

Aside from the plans to make the hall inviting the meeting, which is scheduled to be held on Thursday night, June 25, there will be some things that all who attend will forget. These things are: One speaker has already accepted an invitation to be present. He is H. H. Russell, superintendent of the Williamsburg division of the Pennsylvania Railroad.

Close to the Men There is no official on the Pennsylvania system who is closer to such with the men than Superintendent Russell. He is well-known here, having been supervisor at Middletown for several years, and was a member of the Philadelphia division for some time. His subject will be one that meets with strong approval and interest. "The Area Covered by Co-operative Work" will be the subject of the address. It will be James Linn, popular throughout railroad circles, who has been with the Pennsylvania Railroad for many years.

Refreshments will be served and in this respect the committee wants it understood that the member who remains away will miss a treat. A complete program will be announced next week. Other speakers will have a regular schedule to follow and there will be no delays.

Drop Women Gate Tenders After Crossing Fatality

(Continued From First Page)

Elmira, N. Y., June 7. — Seven women employed by the Delaware, Lackawanna and Western Railroad in this city as gate tenders on grade crossings have been relieved of their duties. The reason given is that the law does not allow them to work so long hours a week as the company requires.

It is thought probable that the real reason for the change is an accident at the Prospect street crossing, in which a passenger train struck a driver waiting for a troop train to pass and after it went by he drove on to the tracks. While in the center of the crossing keeper saw a fast train approaching and lowered the gates, imprisoning the truck on the tracks. The driver was killed.

Harry C. Hunter Shows Will Open Here Monday

With the coming of the idea of June comes also the Harry C. Hunter Greater Shows. These combinations of circus and menagerie—of something which are considered desirable to exact in payment would so disappoint the expectations of the French public as to produce a political upheaval.

The slight tone of optimism which has projected itself into the Berlin estimates of the situation are born of the conviction that a basis for verbal negotiations is gradually being created.

Political observers here believe that Count Vor Brockdorff-Rantzau at present holds a slight strategic advantage for reasons those that might be contained in his counter-proposals. These factors are to be found in the Paris strike, French machinations in Rhenish Prussia and the reported American and British opposition to the Entente terms, all of which it is believed in Berlin, are conspiring to bring the Entente's alleged adamant front into immediate jeopardy.

BERLIN REMAINS HOPEFUL FOR BETTER TERMS

Official Circles Are More Optimistic Regarding the Trend of Events

By Associated Press. Berlin, Thursday, June 5. — While the German correspondents at Versailles continue to take a gloomy view of the forthcoming answer to the German counter-proposals, official circles in Berlin, judged wholly by surface indications, appear more hopeful regarding the further trend of events.
