

HUNGARIANS PRAY FOR NO RULE AGAIN LIKE THAT OF THE "RED" SOVIETS

Apparent Last Days of the Republic Are Fraught With Terror, Hunger and Mental Misery

Budapest, June 9.—What may be the last days of the "Red" Soviet republic here are fraught with such terror, hunger, mental misery, uprooting of family ties, heartbreaking partings, fights, arrests, and legal proceedings that the majority of Hungarians are praying that such days may never come again.

When the correspondent of the Associated Press has had occasion to explain Red guard, peasant, or civilian, has remarked with envy: "What a fortunate man you are, to be an American."

One way out may possibly be provided by the Czech and Rumanian armies, who, though national enemies of the Magyars, are now hailed as saviors. The atmosphere is charged with fears and alarms worse than those felt on any battle front.

The city of Budapest which a few weeks ago had a plentiful supply of eggs—people almost lived upon them and potatoes—is now without eggs, because of the obstinacy of the peasants.

When fathers and sons see the country to evade arrest or to join the counter-revolutionists, their wives and mothers whisper at the parting: "Let us hope we may meet in happier times."

The most saddening impression the visitor receives is that of a country in dissolution, being stripped day by day, mercilessly and inexorably, of its riches, to benefit nobody.

WOMEN Suffering from Nervousness and Sick Headache

Use Famo Every Day For Healthy New Hair

Faithful daily use of Famo is as necessary to keep your hair healthy as thrice-daily brushing is to keep your teeth good.

If you have dandruff, Famo will destroy it by stopping seborrhea, the disease that causes dandruff. Famo gives the hair health and vigor.

Used each day it keeps the hair soft, silky and glossy; the scalp as clean and sweet as a baby's.

Famo contains no alcohol to cause scalp and hair dryness. It postpones grayness by making and keeping the hair healthy.

You will enjoy using Famo every day of your life.

It requires no rubbing; it does feed and nourish the hair roots.

It stops itching and makes the whole head healthy.

Famo is sold at all toilet goods counters in two sizes—35 cents for the small size and an extra large bottle at \$1.00 guaranteed.

Seborrhea is a morbidity increased from the sebaceous glands of the scalp. The seborrheal excretion forms in scales and flakes and is commonly known as dandruff.

WHY DO WOMEN SUFFER

When There is Such a Remedy for Their Ills as Lydia E. Pinkham's Vegetable Compound?

Mishawaka, Ind.—"I had such a severe female weakness that I could not do my work and I could not get anything to relieve me.

and it cured me. I keep house and am able to do my work now. I certainly praise your medicine."

Women who suffer from such ailments should not continue to drag around and do their work under such conditions, but profit by the experience of Mrs. Oldfather and thousands of others who have tried this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound (tablet form) and found relief from such suffering.

Electric Railway Association Welcomes New Federal Board

Washington, June 9.—The American Electric Railway Association today made public at its national headquarters here a statement strongly endorsing the action of President Wilson in creating by cablegram from Paris a few days ago the new Federal Commission which is to investigate the problems of the street railway industry, and the relations of the public, the users of the street railways, to the industry.

The election by the new commission of Charles E. Elmquist, a State public service commission expert, is welcomed by the national railway association, and the street car patrons of the United States are promised, through the commission, every assistance possible by the national railway association in the investigations that are to be made.

"At a time when fifty or more of the large urban electric railway systems were in the hands of receivers, the creation of this board came as a welcome surprise. If its work, as outlined in the letter addressed to the president by Secretaries Redfield and Wilson is any criterion of its performance, the commission is destined to be a constructive agency of the greatest importance, not only to the public, but to the electric railway industry, to collateral industries, to the national financial institutions and to labor. In fact, it was the reflex effect upon industry, finance and labor of the bankrupt transportation companies that played a leading part in the minds of Secretary Redfield and Secretary Wilson, the members of the President's Cabinet, who recommended the establishment of this Federal Commission."

Rates of Exchange in German Money Far From Stable

Seven, June 9.—Rates of exchange in German money transactions noted in the mails under American censorship show that the exchange early in May was far from stable.

Beginning May 1, the United States disbursing office at the army headquarters in Coblenz began paying 222 marks for 100 francs, an increase of twenty-two marks over the exchange rate which had been in effect several months.

Letters to the United States continue to indicate a desire to re-establish business relations. One firm in the American occupied zone, writing to a watch manufacturing company in the United States, says that Germany will soon be in the market for a great many watches for shipment by parcel post.

England Bootmakers Buy Much Leather From U. S. Firms

London, June 9.—The War Time Re-Department of the Government having produced over 20,000,000 pairs of boots has now come to an end. The director, F. J. Marquis, says manufacturers are now in a position to produce as many boots as are required at a reasonable rate.

MILLION SCOUTS OBJECT OF DRIVE

Real Program For Boys' Work in United States, Says R. H. Lyon, Local Chairman

"The question 'What is Boy Scout Week?' has been asked me during the last week, and I have had great pleasure in enlightening people on the subject," said R. H. Lyon, the campaign director for Boy Scout week in an interview this morning.

"In Boy Scout Week which we are going to observe here on June 15-18 the National Committee hopes to obtain at least one million asso-

ciate members, each member contributing a minimum of one dollar. But 1,100 members at one dollar in Harrisburg is not the main object of the drive. The National quota of one million dollars will enable the National organization to enlarge its field force and to increase the number of scouts to a million, or over double what it is to-day.

Mr. Lyon, then went on to say that the local committee, in view of the splendid work done here by the scouts in the past year, expected to go well over the top within the time set.

WHEAT RUST IS FOUND NEAR HERE

State Agricultural Experts Discover It in Cumberland County

Serious outbreaks of the disease known as wheat rust have been reported to the State Department of Agriculture from farms in the State's biggest wheat producing belt, including parts of York, Lancaster, Berks, Dauphin, Cumberland and Franklin counties. These are among the largest producers of wheat and their acreage this year is greater than ever.

made by Dr. J. G. Sanders, the zoologist of the Department of Agriculture following in the order named. Adams following in the order named. In the Cumberland valley have shown danger of reduction of the expected wheat crop through the rust and that some loose smut has also been found, but that the situation in York and Lancaster is not so bad.

Berks, Franklin, Cumberland and Adams following in the order named. Each with over a million bushels. Reports from western counties where wheat acreage has been increased, due to the demand for grain, indicate that the production in a number of counties will break records, but that farmers are nervous over what prices they will get.

HAVE YOUR Lawn Mowers Sharpened AT THE FEDERAL MACHINE SHOP Court and Cranberry Sts.
