48th ANNIVERSARY SALE

Although the first three days of the sale surpassed the records of preceding Anniversary Sales we bought in ample quantities to supply this week's demands. Everyone who has profited by this great annual event at Bowman's store expects great values in quantities sufficient to meet the demand of the eight days. And, as we make due allowance for the percentage of increase expected, you may rest assured that, even though you were unable to be here the first three days, you can find unexcelled values in the various departments. And new bargain supplies are introduced daily to take the place of those that have been sold. A careful reading of the items below will readily convince you that many of them are as low in price as they can be bought for to-day in the wholesale market, and some even lower in price. For this reason we reserve the privilege of restricting the quantities, providing there should be any attempt to purchase more than individual requirements seem to warrant.
