Badge of Honor Awarded to Roberta Disbrow Lloyd Sunshine Society

The social meeting of the Roberta Disbrow Lloyd Sunshine Society was held this afternoon at 2:30 o'clock at the Civic Club. Following a brief business session, when plans for the summer's work were completed, Miss Glenn Gottschall, secretary of the Associated Aids Society spoke on the work among children and told how the Sunshine Society could co-operate with the Associated Aids Society in assisting along that line. Mrs. Lee sang several solos and Mrs. Harry G. Keffer told those entertaining stories: "The Garden of Truth," "The Little Rabbit Who Wanted Red Wings," and "The Shut-Up Posy."

Mrs. F. E. Downes, president, exhibited a badge of honor which she received, just this morning, from National Headquarters, as an award to the society for the best work done among crippled children by any society in the National organization. Last year this chapter received honorable mention for the same cause. The medal was presented by the International Sunshine Society.

Plans for the play, to be held next autumn, were briefly discussed.

Soda Served Quickly

Gorgas' Penn-Harris drug store has adopted a progressive method of serving soda water. The idea is new in Harrisburg, but has been tried out in a number of stores in other cities, where the advantages have been appreciated very much by people who wish to be served promptly. There are no stools, chairs or tables about the fountain—this avoids congestion. Patrons are served promptly and no one is kept waiting. The new system is in effect at the Penn-Harris drug store exclusively in Harrisburg and is growing in popularity.

UNIVERSITY CLUB HOLDS OUTING

Members Spend Saturday at Country Home of Henderson Gilbert

The big picnic of college men, which was held at Henderson Gilbert's country home near Bowman's Park on Saturday, was exceeded in the greatness of the committee in charge. Doctors, Engineers, Clergymen and Lawyers joined in the frolic, business cares and responsibilities being relegated to remote parts for the time being.

Many colleges were represented at the outing and there was much rivalry between them. Athletic contests, golf and college games kept the men of each institution on the alert to do the other college men one better. There was much opportunity for competition when the single men met the married men in an exciting baseball game.

The beefsteak supper which followed the athletic activities was delicious and the men did justice to the festive board in manner becoming to an active and healthy aggregation of real men. This part of the afternoon's treat was in charge of George Phillips, the Club Steward.

This event adds another success to the University Club's past activities and plans are even now under way for more and interesting programs for the coming season.

An Advertisement Directed to Husbands

Men are more accustomed to figures and percentages than women; hence my desire that they read this advertisement. I have constantly asserted that values considered my prices were extremely low. Here is some convincing evidence to show why I can afford to quote such reasonable prices.

A questionnaire submitted by System magazine to thousands of retailers some four years ago, developed the following facts:

The average costs of doing business in relation to sales are:

| | |
|------------------|--------|
| Dry Goods Stores | 23.05% |
| Groceries | 17.91% |
| Variety Stores | 17.76% |
| Hardware Stores | 20.41% |
| Clothing Stores | 23.27% |
| Drug Stores | 24.65% |
| Furniture Stores | 26.51% |
| Jewelry Stores | 26.81% |
| Shoe Stores | 23.22% |

In other words to stand even these stores must make the profit percentage indicated on every dollar received. To make a profit they must charge more. Costs today are much higher than in 1915, the year these figures were gathered.

To date my total cost of doing business figured in relation to sales is only 14.35%.

What holds my costs down to this record-breaking level? Volume—that's the answer. I do a relatively immense volume in a small space. My salespeople sell relatively large amounts during a day's business. It follows, logically, that I can afford to sell my goods at very low prices and still make a fair profit. And that is exactly what I do. It works in a circle. The lower my prices—the greater my volume—the lower my costs.

Talk this over with your wife. Show her why it will save money to buy here. She will not find cheap, shoddy merchandise which will yield but a few weeks' wear. She will find goods of high quality, priced very low, value considered.
