Will Test Wireless Must Cease to Bring on Industrial Rest

Schenectady, N. Y., June 12.—
There are probably betwene 300,000 and 500,000 men and women living in New York City who believe in and advocate the unlawful and forcible seizure of property and the revolutionary overthrow of the established government. This estimate was given by State Senator Clayton R. Lusk, chairman of the joint legislative committee investigating seditious activities in this State, in an address before the State Conference of Mayors and other city officials.

"A few years ago," Senator Lusk St. Johns, N. F., June 12.-Vice an address before the State Conference of Mayors and other city officials.

"A few years ago," Senator Lusk said, "these doctrines were systematically advocated by a few socalled 'crack pots,' To-day, in the city of New York, this propaganda is being systematically handled by shrewd, experienced men and women who seem to be systematically co-ordinating their efforts and who apparently have no lack of funds with which to operate. In New York City alone over fifty publications are regularly circulated advocating this radical doctrine.

Regarding a permanent remedy Senator Lusk said that practically the only remedy suggested so far is a class of legislation which when analyzed amounts to little more than a wage-raising program. "Something constructive," he said, "must be done to do away with profiteering and to do away with capital's making excessive and unreasonable profits on the necessities and luxuries of life before the real permanent remedy for this industrial unrest will be reached."

Birthday Cakes Inspire

Soldiers to Poetry

Chamonix, France, June 12.—
Every soldier visiting this leave area and fortunate enough to have a birthday arrive while sojourning in this magnificent mountain resort, is presented with a regulation American cake, lighted candles and all the Y. M. C. A. girls officiate at the ceremony, after making the toothsome reminder of home and mother. Recently a doughboy from Texas, who in stocking feet measures six feet and five inches, received his cake from the hands of a "Y" girl a little under five feet in height.

There is apparently something in the Chamonix air that stirs the soldier and inspires him to poetic expression. The verses are not always scholarly in construction, but they get there just the same.
