

Convalescent Soldiers at Carlisle Hospital

Carlisle, Pa., June 14.—Among the overseas convalescent soldiers who have recently arrived from military hospitals at the Army hospital here are William E. Brown, Middletown; Frank Constantine, Lemoyne; James Armstrong, Harrisburg; Elliot Morgan, Sunbury;

Claude Worthington, Chambersburg; Harry Dewey, Columbia; Owen Barlow, New Kingston.

WILLS ADOPTED DAUGHTER \$1 New York, June 14.—"Because my adopted daughter, May Grepper, was disobedient, I bequeath her \$1 and not any more," reads the will of Rudolph Katz, of No. 100 St. Nicholas Avenue, filed for probate yesterday in Surrogate's Court. He died May 3 last, leaving a \$2,000 estate. The bulk goes to his widow, Olga.

DUPLIX TRUCKS Cost Less Per Ton-Mile

The Duplex Always Saves

We can learn of no single instance wherein the Duplex 4-Wheel-Drive Truck has not reduced hauling costs. Its savings run from 20 per cent. to 60 per cent., in comparison with horses and mules and other trucks.

Duplex owners all report that the ton-mile cost is less, both on city streets and in roadless country.

Duplex savings are positive. They can be counted with the same certainty that Duplex four-fold pulling power can be counted on to take the load through.

We ask business men to request a comparative demonstration. We know the Duplex will win; that the figures are sure to show a lower ton-mile cost.

International MOTOR TRUCKS

A Rear Axle That Delivers Mileage at Low Cost

AFTER most thorough tests of every kind of final drive, the International Motor Truck is equipped with an internal gear drive rear axle, made complete in the International Motor Truck factory.

Our axle is a quiet, smooth running unit, with a strong solid steel drop forging for carrying the load, and a live axle for transmitting power. Our live axle is in front of the weight-carrying forging, requiring a shorter propeller shaft, and lightening the load in the wheel bearings.

This form of rear axle transmits a very large percentage of engine power, requires no massive housing, thereby reducing the unsprung weight on the tires, and saves the wheels and the axle from torsional strains. It is therefore economical from every point of view, needing less care, lasting longer, and using up less power and fuel than any other form of drive we could use.

You will want to see the arrangement of the bearings, the brakes, and the various devices that simplify repair work and adjustments. All these things, and many others, we shall be glad to show you if you will come in at your convenience and see us.

The Wonderful Stories of OZ

By L. Frank Baum

The Riches of Content

At once the Men cast off their Aprons

many things he could not do; whereas our new Queen does many things no one would ever expect her to accomplish.

Jack Pumpkinhead remained with Ozma to the end of his days; and he did not spoil as soon as he had feared, although he always remained as stupid as ever. The Woggle-Bug tried to teach him several arts and sciences; but Jack was so poor a student that any attempt to educate him was soon abandoned.

After Glinda's army had marched back home, and peace was restored to the Emerald City, the Tin Woodman announced his intention to return to his own Kingdom of the Winkles.

"It isn't a very big Kingdom," said he to Ozma, "but for that very reason it is easier to rule; and I have called myself an Emperor because I am an Absolute Monarch, and no one interferes in any way with my conduct of public or personal affairs. When I get home I shall have a new coat of nickel-plate; for I have become somewhat marred and scratched lately; and then I shall be glad to have you pay me a visit."

"Thank you," replied Ozma. "Some day I may accept the invitation. But what is to become of the Scarecrow?" "I shall return with my friend the

Tin Woodman," said the stuffed one, seriously. "We have decided never to be parted in the future."

"And I have made the Scarecrow my Royal Treasurer," explained the Tin Woodman. "For it has occurred to me that it is a good thing to have a Royal Treasurer who is made of money. What do you think of that?" "I think," said the little Queen, smiling, "that your friend must be the richest man in all the world."

"I am," returned the Scarecrow; "but not on account of my money. For I consider brains far superior to money, in every way. You may have noticed that if one has money without brains, he cannot use it to advantage; but if one has brains without money, they will enable him to live comfortably to the end of his days."

"At the same time," declared the Tin Woodman, "you must acknowledge that a good heart is a thing that brains cannot create, and that money cannot buy. Perhaps, after all, it is I who am the richest man in all the world."

"You are both rich, my friends," said Ozma gently; and your riches are the only riches worth having—

AMERICAN SIX

A car in which smoothness of operation and smartness in riding are happily combined. It has an ease of control that makes the owner keen about sitting in the driver's seat himself, and a freedom from vibration that is a source of genuine comfort to all who ride in it. The outstanding feature of the American is its perfect balance. Its every detail was designed to be practical, to answer real needs. Comfortable, instantly responsive to the driver's will, flexible in traffic and powerful—the American is truly the Balanced Car.

the riches of content!" THE END

Editor's Note—Our next story "Ozma of Oz" tells more about Dorothy and The Scarecrow and the Tin Woodman. It will also introduce wondrous new people—the "Hungry Tiger," the "Nome King," "Tiktok" and the Yellow Hen. Read of "The Girl in the Chicken Coop"—her adventure on the open sea, all alone.

Bigger Worth A Bear for Wear

Chilled Rubber Process

YOU'VE probably often thought that somebody some time would produce Tires and Tubes that would leave no complaint as to costs. You were right. That time has arrived. The discovery of how to produce greater Tire and Tube resistance and strength has been made. It is the Gillette Chilled Rubber Process—the perfected method. Toughens rubber as iron is toughened by changing to steel—building up endurance and bringing down costs to the lowest figures of economy.

Absolutely the biggest worth—in service—in mileage—ever offered Tire and Tube buyers. One Gillette is found to sell you a set.

Henry Hirsch Appleby Bros. & Whittaker C. E. Coppedge W. J. Morton N. C. Brandt and N. L. Kapp David F. Floyd, Lancaster Andrews Coal Co., Lancaster G. E. COOPER & SON, HARRISBURG LUMBER CO.

The Giant has won a reputation, not through talk, but by merit. In competitive demonstrations the performance of the Giant has outclassed other trucks of the same rating. It operates on mixtures of gasoline and kerosene and reduces operating costs by 50 per cent. It is the most economical truck on the market today. Made in 1, 2 and 3 1/2-ton sizes.
