BIG DETOURS IN IMPORTANT ROADS

Highway Department Makes Public Changes Due to Work

A series of important detours in State highway routes, temporarily ordered because of improvements and rebuilding of roads and involving the Lincoln and William Penn highways between Harrisburg and Pittsburgh as well as other parts of the State, was announced here to-day by the State Highway Department. This is the second list of official detours issued from the Capitol as the State authorities have required that every detour be first approved at the Department and that signs be posted for public information, thus overcoming a prolific source of complaint in years gone by.

The changes announced at the department include:

RADICALS HOPE TO SOFTEN VIEWS ON BOLSHEVISM

Small Element at Labor Convention Plans to Convert Delegates

By Associated Press.

Atlantic City, June 16. — Indications to-day were that the small radical element in organized labor intends to make strong efforts this week to convert delegates attending the convention here of the American Federation of Labor to less harsh views concerning "Bolshevism."

Copies of "Soviet Russia," published by the Russian Soviet government bureau in New York, raided last week by state authorities, made their appearance in places where labor leaders could see them. A lecturer on Soviet Russia, who announced he knew from personal observation that most of the things said about Russia in American newspapers were falsehoods, also arrived in town.

The lecturer is Wilfred Humphries, of Honolulu, who declared he had spent eleven month in Russia as a representative of the Young Men's Christian Association. He says he met and talked with Lenine and that he knows "the truth" about Russia.

Delegates with more or less radical ideas, among them delegates from Seattle, plan to have Humphries deliver a lecture on Bolshevism and Russia in a local hall, early in the week. Convention delegates probably will be invited to attend this lecture, although it is not planned to request the convention to give its unanimous consent to having Humphries address it in the convention hall on the steel pier, as it is realized such a request would prove futile.

Paris, June 16.—Germany's admission to the League of Nations is fixed for "the near future."

Army of 200,000

Germany is to be allowed an army of 200,000 men for three years. This is one of the changes in the Peace Terms which has been sedulously kept secret.

The reason given for this doubling of previous number of effectives, is the impossibility of adjusting the armies of Austria, Poland, Czecho-Slovakia and other new states proportionately to the previously arranged 100,000 men for Germany.

A general reduction of armaments is to be negotiated immediately.

A plebiscite for Upper Silesia will be taken within six to eighteen months.
