MAYOR PREFERS CHARGES More Streets to Be Paved During the Coming Summer Season

Charges of being absent without leave, an conduct unbecomg an officer preferred by Mayor Keister against Patrolman Charles J. Davis...

These important business questions kept city council in session for an hour and a-half this morning and after the business session adjourned the commissioners held an informal talk lasting until after noon.

Mr. Ledoux, water engineering expert, recommended in his report that the pipes to win the center of State street under the proposed foundations of the new memoria bridge should be moved to the north side of the street in view of the extensive plans of the State.

Cost of Mains He said that the total cost of relaying the line and installing a force and a return main, each 36 inches in diameter to replace the present 30-inch lines, will be \$148,479, but if new 20-inch mains are used it will cost \$119,766.

After reviewing the various plans which have been proposed Mr. Ledoux recommends that the 30-inch pipes crossing diagonally from the Pennsylvania railroad right-of-way to State street near Cameron street, and turning east in State street near Cameron street, should be replaced by pipes running parallel to the railroad to State street on the north side, then east in State street on the north side to Thirteenth where the 36-inch pipes could be joined with the 30-inch mains now in use.

Pipes Costly Details of connecting the new pipes with the present mains when they are laid and specifications for doing all the work are furnished also by Mr. Ledoux. Copies of his report have been furnished to the State and to the engineers making plans for the bridge.

Specifications for paving the following streets were approved: Brensinger, Emerald to Curtis; Oak, Seventh to Elizabeth; Oxford, Sixth to Jefferson; Sprague, Brensinger to Turner; Brensinger, Woodbine to Emerald; Jefferson to Seventh; Cameron, Herr to Calder; Bailey, Twelfth street to Messiah Home; Walnut, Cameron to Paxton creek; Home, Perry to Kensington; Kunkel, Sixteenth to Seventeenth; David, Park to Whitehall; Helen, Nineteenth to David; Ethel, Nineteenth to Prospect; York, Seventeenth to Eighteenth; Chester, Nineteenth to Twentieth. Bids for the work will be opened within the next two weeks.
