Rebel Foes, Seems to Be Nearer Capture

London, June 17.—The North Russian general staff directing operations against Petrograd reports the fortress of Kronstadt,

on the Gulf of Kronstadt, northwest of Petrograd, to be on fire,

according to a Helsingfors dispatch to the Daily Mail which was

filed on Sunday.

Seven Bolshevik warships have hoisted the white flag, the dis-

during the present campaign 22,00 prisoners and 87 cannon.

the army to 14,000 officers and 243,000 men.

HOW TO ACQUIRE HAIR BEAUTY

HUBBY TELLS MINNIE

Tou can enjoy a delightful shampoo with very little effort and for a very trifling cost if you get from your druggist's a package of canthrox and dissolve a tenspoonful in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the head. Your shampoo liquid, enough so it is easy to apply it to all the head. Your shampoo is now ready. Just pour a little at a time on the scalp and hair until both are entirely covered by the daintily perfumed preparation that thoroughly dissolves and removes every bit of dandruff, excess oil and dirt. After the letters were read Judge Kunkel asked the attorneys whether affunctions, the hair dies quickly with a fluffiness that makes it seem heavler than it is and takes on a rich luster and a softness that makes arranging it a pleasure.

\$10,000 For Wagons

Commissioner Hassier announced to the other Councilmen that it would cost about \$10,000 to buy fifteen wagons, thirty horses and other equipment so that the city could own and operate its own ash collection teams. Action may be taken next week by Council. Commissioner Hassier also told the members of the discussions at the annual meeting of the American Water Works Association in Buffalo last week. Dr. Hassier attended the sessions for two days.

It was agreed by the Councilmen that next week a resolution will be introduced accepting from the executor of the late Emma C. Funston, \$950 which she provided in her will to be used to erect a drinking fountain at Cameron and Paxton streets in the small grass plot there. "Em" Funston, as she was known in the city, was for years conducting a notorious house, it is a sure and get a 50 cent box to-day and set of guarantee them.

COUNCIL TO GIVE \$500 FOR FREE BAND CONCERTS

Chamber of Commerce Committee Presents Request For Funds

Council will provide \$500 for municipal concerts this summer it was decided informally after the regular

nicipal concerts this summer it was decided informally after the regular session of the Commissioners to-day. To do so Mayor Daniel L. Keister, Commissioners E. Z. Gross, W. H. Lynch and S. F. Hassler will agree to have \$100 reappropriated from the funds of their departments, and as the contingent fund of the finance department is small, Commissioner C. W. Burtnett said that the additional \$100 could be taken from the general contingent fund.

Before the business session John Fox Weiss, chairman, and members of the committee from the Chamber of Commerce on community music, appealed to Council to appropriate funds for the concerts now that the law has been signed permitting third class cities to provide for such an expense from general revenue.

The councilmen said they would provide funds if possible, as they were heartily in favor of having the concerts. When Commissioner Burtnett was asked about funds for the appropriation he susgested that as the budget for the present year was approved in January money should be reappropriated from each of the various departments. The other Commissioners at once agreed to the plan and said that an ordinance will be passed on first reading next Tuesday providing the money.

RUSSIAN REDS FIRE ON TRAIN YANKS ESCAPE

By Associated Press. Viadivostok, June 17.—Seventy Bolsheviki attacked a train, including American hospital and mail cars, near Spassk, north of Vladivostok. They compelled the train to stop by loosening the rails. Shots were fired into all the cars and one Russian was killed. None of the Americans was injured.

Jired.

The attack occurred on the section of the railroad guarded by the Japanese. Japanese reinforcements have been sent to the

day.

The approach of the close of the session was shown to-day by the ract that only four House committees announced meetings when the session recess took place. tees announced meetings when the early afternoon recess took place.

The Salus Senate bill providing that the labels of soft drinks shall be placed on the caps of the bottle instead of being printed on paper and pasted on the sides was all proved by Governor Sproul to-day. Action on the compensation amendments will be taken late to day by the committee in charge if the House. Efforts to amend the bill will be made, but it is state that the Administration desires the measure reported out with as feat amendments as possible.

WOMEN AT WORK

charge of erection of new buildings and park improvements and additional employes to care for them.

Arnold W. Brunner, architect for the new Capitol buildings, and J. E. Greiner, engineer for the Memorial Bridge, were here to discuss details of the plans with the Board of Public Grounds and Buildings. It is the idea to ask for bids this summer.

During the war, millions of wom in have been at work in vocation into which they have never before the new called—in Munition Factories Chemical Works, Metal Works Street Railways, and as Ambulanous Orivers Barbers, and Elevator Girls Undoubtedly thousands of other have longed to serve in this way but because of female ailments which had fastened upon them were not able to do so. which had fastened upon mer.

The 300,000 Maxwells All Tell the Same Story

AXWELL first caught on in those sections of America where grades are long and severe, where roads are none too good, where distances are great, and where few cars before had made good.

Today if you could visit those places, those zones-some of them hundreds and hundreds of miles in area-you would see the Maxwell the prevailing car there.

These "Maxwell areas," so to speak, have since spread into nation-wide-even world-wide areas—for like all things good, news travels fast.

Today there's no spot of consequence where Maxwell cannot be found in ever-increasing numbers.

Because Maxwell expresses to a marked degree that one quality that every one seeks in a motor car-everlasting reliability.

This dominating trait of the Maxwell was built to be its dominating trait.

Instead of a brand new model every year with frequent, expensive changes in design (changes costly to the purchaser) a very simple Maxwell was designed five years ago.

And since that time no radical changes have been made, no new models built, but instead a constant, almost daily improving process has gone on until today the 300,000th Maxwell tells the same story as No. 1.

It's a better car, to be sure, more refined, better looking—even more reliable, but it would not be half the car it is today were it merely a 1919 model with but one year behind it.
