

GOVERNOR USES HIS VETO AX

Disapproves of Bill to Allow Men to Register as Law Students

GOVERNOR Sproul has vetoed the House bill providing for registration of law students of men prevented from applying because of their military or naval service in the war on the ground that it would tend to lower the standard required for registration to study law and that, while he favors preference to honorably discharged soldiers, sailors and marines, he does not favor lowering of standards of the learned profession.

The Governor says when vetoing the House bill authorizing boroughs to own and operate public utilities, "Such associations should not be supported by public funds and our citizenship is not so lacking in diligence and intelligence in the work of self-government as to make necessary such a measure as this."

The House bill increasing magistrates in second class cities was vetoed on the ground that it is "wrong in principle," and the Senate bill relative to rights of wives in estates of bankrupts, for reason that if approved it would cause "additional confusion."

Next World's Press Congress Will Meet at Sydney, Nov. 11

Tokyo, June 17.—The next World's Press Congress has been called to take place at Sydney, New South Wales, Australia, on November 11, 1919, the first anniversary of the signing of the armistice which ended the hostilities in the world war.

The date was decided by Dr. Walter Williams, of Missouri, the president of the Congress, now in Tokyo, and was agreed upon after the receipt by him of a cablegram from William A. Holman, premier of New South Wales.

The Press Congress of the World, which was organized in San Francisco in 1915, has journalists of 44 countries in its membership. Owing to the war the 1918 session arranged for Sydney was postponed until the conclusion of the hostilities.

The secretary-treasurer of the congress is A. R. Ford, the president of the Dominion Press Gallery at Ottawa, Canada. Each nation has two vice-presidents.

In his cablegram to Dr. Williams, Premier Holman said: "The victorious end of the war reminds me of the great services the press has rendered in promoting and fostering that splendid international harmony of peoples and of principles that alone made victory possible. I look to the early meeting of our congress as an occasion for completing this great work by promoting better understanding throughout the world."

Want to Exhume Body of Merchant For Brass Casket

Havana, June 17.—Relatives of a Spanish merchant said to be of noble birth who died several years ago after having amassed a considerable fortune have asked the Cuban Sanitation Department for permission to exhume his body so as to obtain the brass casket in which it was buried.

They want to sell the casket for the metal it contains, as the family fortune has dwindled since this founder's death.

The department ruled that the only question involved was a moral one and that there was no law to prevent the relatives from reclaiming and selling the casket.
