WHEN BRAIN WEARY

Some folks prefer coffee served with dinner—others like it later. And so making and serving coffee becomes a nuisance—unless, of course, you use Hires Instant Soluble Coffee.

Hires Instant Soluble Coffee was originally made for our boys in France. They had to have good coffee—but they had no way to make it. And so completely did Hires Instant Soluble Coffee meet this need, that we were given the government contract to supply 66 2-3 per cent. of the coffee used in the trenches. We could not supply more because our facilities would not permit.

Hires Instant Soluble Coffee is not a substitute for coffee; it is the dried juice of the most carefully selected Java and Mocha coffee beans. In converting the coffee into soluble form all of the original properties of the juice have been retained. It is much more convenient—that's all.

stantly: Or if you like iced coffee, irres Instant Soluble Coffee dissolves nstantly in ice water.
Think of the saving in time and effort: Think of the waste eliminated! Fou don't throw away two or three cups of coffee left in the pot.
And because Hires Instant Soluble Coffee is so easy, so convenient to make, you can have a clear, fragrant cup any hour of the day or night.
A 30c can of Hires Instant Soluble Coffee is equivalent to a pound of the best Mocha and Java coffee. The low price is due to the fact that with our sxclusive process we extract 100 per cent. more juice from the bean than rou can in making coffee in the old way. Get it at all stores.
