LOS ANGELES, June 20.—California cotton growers will receive approximately \$20,000,000 for this season's crop, according to statements made here by cottonseed oil brokers.

The crop is expected to yield about 125,000 bales of lint cotton with a market value of more than \$15,000,000.

Oil pressed from this season's run of cottonseed will total approximately 18,000,000 pounds and will be utilized in substitutes for lard and butter, as well as in salad oils.

The profit on these products has not been estimated as yet, nor has that on the 35,000 tons of cottonseed cake and meal expected to result from the coming crop.

KING RESERVES DECISION AS TO ITALIAN CABINET

Orlando Announces Resignation After Confidence Vote Is Refused

Rome, June 20.—Early to-day it was not known what action King Victor Emanuel would take on the resignation last night of the Italian cabinet following an adverse vote against it in the Chamber of Deputies.

The Chamber of Deputies had, by a vote of 259 to 78, rejected Premier Orlando's motion in favor of discussing the question of confidence which related to the foreign policy of the government, in secret session.

Prior to the vote Premier Orlando in addressing the chamber, said: "Italy's peace with Germany and Austria has been solved in a manner with which, on the whole, I feel satisfied."

Insisting on the necessity of a secret session, the premier declared the government needed greater confidence and would treat his motion for a secret session as a question of confidence.

The Socialists immediately opposed this.

Signor Orlando in his address said Italy's position had been considerably aggravated by international events during the second fortnight of April. He referred to President Wilson's message regarding the Adriatic question.

The Italian delegation at the Peace Conference, the premier added, had followed this policy:

"First. Maintain with firmness all the essential points of the Italian claims, without which Italy is convinced peace will be neither just nor adequate to the immense sacrifices suffered."

"Second. Remain faithful in your duties toward the Allies."

"Third. Avoid any blind form of obstinate intransigence. Indeed, capable of producing accord in the conference over the problems concerning Italian frontiers."

Signor Orlando urged parliament to separate the discussion of foreign affairs from the internal policy of the country, the latter being virtually absorbed in the grave question of the high cost of living. Past history showed, he said, that internal perturbations were transitory and that equilibrium soon would be gained.

The government, the premier continued, was determined to strengthen the confidence of consumers against the cupidity of speculation, which had assumed almost the form of folly. The government intended to suppress to the utmost possible the machinations of the middleman and aid in bringing about co-operation among consumers.

Wilson Gets Degree in the Ruins of the Library of Louvain

Brussels, June 20.—In the ruins of the library of Louvain, destroyed by the Germans in 1914, the degree of doctor of laws was conferred yesterday on President Wilson by the University of Louvain.

The President made three speeches and an extended tour of the battlefields, and attended a luncheon and a formal dinner by the King.

He said he had in mind to suggest to Congress to elevate the legation at Brussels to an embassy and the post of minister to ambassador.

The appearance of President Wilson before the chamber was the most important feature of the day's program.
