

# WYOMING GOES DRY ON JULY 1

Law of Legislature Puts State in Dry Column with a Commissioner

Cheyenne, Wyo., June 20—Wyoming, long the oasis of this section of the west, will enter the ranks of prohibition states on July 1. Sale and manufacture of liquor within the state will cease on that date regardless of whether national prohibition is effective in the nation.

Under terms of the constitutional amendment adopted by the voters at last November's election, Wyoming would have gone dry January 1, 1920. When the Legislature met last January, however, it was deemed advisable to put the state law into effect July 1, this year, at the same time that it appeared national prohibition would be effective.

A law was passed by the Legislature authorizing this. In addition to the power placed by state law in the hands of a state prohibition commissioner, there will be a Law Enforcement League, privately financed and privately operated to enforce the new law. This league already has begun the work of keeping Wyoming free of illegal manufacture and sale of liquor after July 1.

State house gossip is that Fred L. Crabbe, now superintendent of the Wyoming Anti-Saloon League, will be chosen Prohibition Commissioner.

**METHODS OF RECKONING TIME AND DISTANCE**  
To ascertain the time at night the Apache Indians employed a gourd on which the stars of the heavens were marked. As the constellation rose in the sky the Indian referred to his gourd and found out the hour. By turning the gourd round he could tell the order in which the constellation might be expected to appear.

The hill people of Assam reckon time and distance by the number of quids of betel nuts chewed. It will be remembered how, according to Washington Irving, the Dutch colonial assembly was invariably dismantled at the last puff of the third pipe of tobacco of Governor Wouter Van Twiller. A Montagna Indian of Canada will set up a tall stick in the snow when traveling ahead of friends who are to follow. He marks with his foot the line of shadow cast, and by the change in the angle of the shadow the oncoming party can tell, on arriving at the spot, about how far ahead the leader is.—Family Herald.
