

SOCIAL REVOLT STIRS PORTUGAL

Various Threatening Events Have Occurred Since First of May

Lisbon, June 20. — Portugal, especially Lisbon, is in the throes of an incipient "social revolution." Since the first of May, when the working classes made a strong and peaceful demonstration of their force by an immense procession through the streets and in front of the ministries, various threatening events have occurred.

Unsatisfied with the eight-hour day granted by the government, workers have destroyed two of the finest old edifices in Lisbon. The first fire occurred in the Postal Money Order department, which is attached to the Bourse, the government offices and the customhouse, part of the magnificent arched buildings of the principal square of Lisbon, on the northern bank of the Tagus river.

There have been various other small fires in public buildings for the past two days, one at the naval arsenal and certain persons have been arrested for bringing material in their possession. This has made the government very uneasy. Bolshevism is spreading very widely among the working classes and some of the arrested men turned out to be Russian Bolsheviks.

The Minister of Labor has resigned owing to differences of opinion with his colleagues as to the measures that have been taken to quell the agitation among the workers. The strikers have paralyzed business. No electric cars have been running since May 1 and all the municipal workmen are on strike, so that street cleaning, burying the dead, and all other municipal work is being done by soldiers and volunteers. It is said that a general strike is planned, but public opinion is so incensed at the fires that a reaction appears to be setting in, and several societies and associations have made public protests against such extremist acts.

New York, June 20. — The Food Administration Grain Corporation today issued its complete figures covering wheat and wheat flour movement throughout the United States for the week ending June 6. The figures shown were as follows: Receipts, 2,087,000 bushels against 2,467,000 bushels previous week and 1,440,000 bushels a year ago. Total stocks of wheat in country elevators, mills and terminal elevators, as of June 6, 55,273,000 bushels against 22,121,000 bushels a year ago, showing a decrease between May 30 and June 6 of this year of 10,600,000 bushels against a decrease for the similar week a year ago of only 4,216,000 bushels.

Flour produced, week ending June 6, 1,925,000 barrels against 2,071,000 barrels previous week and 1,404,000 barrels a year ago, making a total production of flour from July 1 to June 6 of 11,138,000 barrels against 11,426,000 barrels through May 30 and 11,390,000 barrels to June 6 a year ago.

MANAGER OF YANKEES SEES BASEBALL BOOM New York—Miller Huggins, manager of the Yankees, believes that the next few years will be the greatest in baseball. He is particularly pleased with the outlook in the minor leagues which young pitchers are being developed.

WANTS TO FIGHT ALL New York—Soldier, Bartfield wants to meet any fighter, from lightweight to light heavyweight, and he is willing to wager his own money on his chances. This is his desire.

FISHERMEN DO NOT SWIM London — Devices is boasting of official has revealed why British fishermen do not learn to swim. The disclosure was made during a recent inquiry conducted at Grimsby.

"Cool as a Polar Bear" and More Necessary in the Home Are These Highest Grade Seamless Refrigerators

A humidity test of the Bohn Syphon made recently, showed 57 degrees, 55 to 60 degrees being rated by experts as 100 per cent. efficient. Cheaply constructed refrigerators, poorly insulated, will show a humidity test of from 80 to 90 degrees.

The three "master-built" refrigerators shown in the Basement Housewares Section permit no moisture to accumulate on the provision chamber walls. This is because of their seamless construction, the term "seamless" being literally true when applied to the porcelain lining of Bohn products.

"Bohn Syphon," "Sanitor" & "Icyco" Refrigerators

Bohn Syphon refrigerators have strictly one-piece seamless porcelain linings with rounded corners. Ten thicknesses of material used in the construction of the "Bohn" will insure absolute insulation, resulting in low temperature and minimum consumption of ice.

The "Sanitor" and "Icyco" are two of the best medium price refrigerators produced by the makers of Bohn Syphon. Sanitor is porcelain lined with three door compartments— 75-lb. capacity, \$37.00 lined with lift top— 95-lb. capacity, \$45.00 100-lb. capacity, \$45.00 125-lb. capacity, \$50.00 Icyco is white enamel lined, with three door compartments— 95-lb. capacity, \$35.00 Dives, Pomeroy & Stewart, Basement.
