**"How Can We Helpfully  
Serve YOU Today?"**

That is the attitude of mind of the entire personnel of this store—every morning; in reference to every person in this community.

This store exists for Public SERVICE. It is filled with the things that people need or would enjoy having. It gathers them, displays them, sends them to your home—all at the fairest prices.

It also serves the industries of the Nation, because it is a national Distributor of manufactured products. So this store becomes the exposition, for this community, of the useful and desirable things made all over our country as well as things that come from abroad.

Thus we aid universal prosperity, by our broad service in selling what the workers create, and we cater to your comfort and happiness by making everything you desire easily available for you.

"How can we helpfully SERVE YOU today?"

**You Will Lose The Beautiful Lines  
Of Your Figure Unless Nature  
Is Helped To Maintain Them**

Nature does very little of her own accord unless wisely assisted. We see this illustrated every day in our fitting rooms in figures that have lost their lines through wearing the wrong corset.

Fortunately, the framework of your body does not change. It is merely the unresisting flesh that has assumed ugly contours.

We have found the Redfern wonderfully adapted to the gentle art of figure-moulding. They are so shaped that they will mould the figure into the most graceful and lovely lines!

Every model is designed on a perfectly proportioned figure—so there is a style designed for a figure of your type, one that will in time mould your figure into the perfectly proportioned lines on which the corset is designed.
