rider of the generation. Fresh from the new triumphs achieved in Australia and the hippodromes of South America the famous equestrienne is now touring America as one of the superfeatures of the great new Ringling Brothers and Barnum & Balley shows combined to exhibit here Friday, July Fourth.

The list of Miss Wirth's accomplishments is a long one, but there are two things in which she excels. She is the only rider among either women or men who can do a "forward somensault" on a running steed, and she wears a smile that "won't come off." It has been said of her that though she "comes off her."

May Wirth is of a family of famous criders who compose what is known in the cities of the British Isles as the "royal riders of the ring." This family includes May Wirth, Mrs. re family includes May Wirth and Frank Wirth.

May Wirth will be seen in solo riding numbers in which she will persection.

Bagonghi, and scores of artists equally famous.

In consolidating America's two great circuses the thought has been to assemble on one mammoth arenic program the pick of the world's foremost artists. Not only has this been accomplished as regards equestrians but has been extended to include all of the most famius aerialists, gymnasts, acrobats, wire walkers, balancers and jugglers. And the host of dumb actors are equally remarkable both as to number and achievements. There is a single elephant act which introduces a "quarter of a million pounds of actors." The clowns exceed all past gatherings in number and drollery. The street parade is the longest and most costly ever offered in America. In addition to its remarkable array of arenic talent the main-tent program includes a gigantic introductory pageant that is said to surpass anything of the kind ever seen before.
