Value Of Property

PROPERTY value is largely determined by appearance.

A smart looking house is worth hundreds of dollars more than the same building sadly in need of repairs. A few nails driven into a board, a little patch of shingles, a fresh coat of paint makes a world of difference—and pays big.

You possibly have wondered why you cannot sell your building. Some neglected repairs and a coat of paint may be all that is needed to find an advantageous buyer.

Think this over. Figure up your lumber requirements, the total expense may be much less than you assume.
