New York, June 25.—With a police guard thrown around Washington Market and a convoy of mounted patrolmen for every truck-load of vegetables leaving the warehouse, the first appreciable movement of produce since the strike of market teamsters, chauffeurs and porters on Monday was began here to-day.

The police precautions were taken to avoid threatened violence. Not withstanding these assurances of profection many commission merehants did not open their places of business this morning, Those who ventured to deliver produce did so in response to the clamor of hotels and restaurants, whose source of supply had been cut off. Army trucks gupplying government institutions were guarded by soldiers and marines and were allowed to pass picket. Hines ummolested.

The Governor's statement follows:

"In approving this bill I consider it desirable that I express my reasons for so doing, in view of the fact that similar measures have met executive disapproval heretofore, and that In another and a much smaller Commonwealth, where sessions of the Legislature are held annually, the Governor has recently vetoed a measure providing for an increase in the compensation of the members of the Legislature.

Reasons For Approval

"In Pennsylvania the salary provided by law for the members of the General Assembly has remained at \$1,500, the amount fixed in 1885. Previous to that time it was 1.000, with an allowance of \$10 for each day in excess of 100, making the compensation for an /ordinary session more than at present provided. annually, the Governor has recently vetoed a measure providing for an increase in the compensation of the members of the Legislature.

Reasons For Approval

"In Pennsylvania the salary provided by law for the members of the General Assembly has remained at \$1,500, the amount fixed in 1885. Previous to that time it was 1,000, with an allowance of \$10 for each day in excess of 100, making the compensation for an /ordinary session more than at present provided. Since that time the importance of the duties as measured by the increase in the general activities of the State government and the magnitude of the public business has multiplied several times, For instance, the total receipts of the Commonwealth in 1885 were only slightly in excess of \$8,000,000, while this year the ordinary receipts of the Treasury, exclusive of the funds derived from the road loan, will be between five and six times that figure.

"In 1885 the salary of \$1,500 was a generous allowance, based upon its purchasing power, and represented far more than the present equivalent of \$2,500, the amount established as the legislative salary by this act. Rallroad fares, living costs in Harrisburg and the general expense necessarily incumbent upon the office have been increased in such proportions that I am convinced that the present allowances for salaries are entirely inadequate to enable the citizens selected for places in the Senate and House of Representatives to maintain their positions and to perform the honorable and essential duties connected, therewith except at much personal sacrifice.

"Must Be Open to All

"Of course, it was never contemplated that a p place in our legislative bodies should be a post of profit—the honor and the opportunity for public service whigh is given here is a proper recommense." Edward Halbert was toastmaster and he gave a great welcome to the proportunity for public service whigh is given here is a proper recommense.

Must Be Open to All

"Of course, it was never contemplated that a place in our legislative bodies should be a post of profit—the honor and the opportunity for public service which is given here is a proper recompense for the time and trouble involved. But it surely was never intended that in a Commonwealth so great and so favored as Pennsylvania those called to vital public service must suffer such serious personal loss that only those with ample private means may afford to aspire to the positions. The doors of our lawmaking bodies must be open to all of our people and citizens of ambition and vision must not be deterred from trying for the election because the compensation is insufficient to at least reimburse them for the expense incurred in performing these public duties.
"It is my opinion that the increase in the salaries of our legislators as provided in this measure is thoroughly justified and is in accord with public policy, and I am glad to approve this bill."

Everybody Takes Hand in Deepening Swimming Pool Lykens, Pa., Jure 24.—Everybody here took a hand in advancing the completion of the swimming pool. The Deadwater Swimming Pool Association held Merchants' Volunteer Day and it was a memorable occasion. All merchants in Lykens closed their places of business at noon, and with their forces took up the pick and shovel.

From noon until 5 o'clock everybody worked hard in making the swimming pool wider, longer and deeper. Working with all the energy of veterans were Jacob M. Bogar, Charles Huf, Charles Stine, James Helt, William Duncan and others, each leading his particular force of workmen.

In attendance were the women of town who did their part furnishing seven tubs of lemonade and other refreshments and doing everything in their power to advance the light and the singing and he had everybody busy with popular songs, was the leader of the singing and he had everybody busy with popular songs, was relections. Slayer of Bank Employes
Found Guilty of Murder

New York, June 25.—Gordon F. Hamby, self-confessed slayer of two employes of the East Brooklyn Savings Bank last December, was found guilty of murder in the first degree by a jury in the Brooklyn Supreme court yesterday afternoon. Death by electrocution is the arbitrary punishment for this crime in New York State.

Hamby was brought here a few weeks ago from Tacoma, Wash, where is is also wanted for the murder of a man named Davis. The prisoner made no attempt to defend his actions but coolly admitted murdering the bank employes when they refused to comply with his demands and those of his confederates who planned to rob the institution.
