

THREE AMERICAN DIVISIONS AWAIT SIGNING OF PEACE

As Soon as Completed They Will Return to Former Posts

Coblenz, June 26. — The three American divisions which were concentrated east of the Rhine in the American bridgehead area will remain there until the Peace Treaty is actually signed, according to an announcement made here.

As soon as peace is signed the Americans will begin to return to the quarters they occupied before the concentration a week ago. It is expected the troops will remain there until ordered home.

The third army consists of five divisions and the auxiliary units of the third corps, approximately 160,000 men. Transportation officers said the divisions and the various units could be out of Germany by August 1 if general headquarters gave orders to that effect.

According to present plans, the Fifth division, which occupies part of Luxembourg, will start for France probably within a day or two after peace is signed. The Third and Fourth divisions will be the next to move westward. The First and Second divisions, which hold the east bank of the Rhine, will be the last to depart in the event that no complete American division is to remain in Germany as part of the permanent army of occupation.
