MANY IN BELGIUM UNEMPLOYED

Only Two Blast Furnaces Out of 60 Before War Are Working

Brussels, July 1.—The number of unemployed in Belgium is \$00,000, according to the Minister for Food, but is diminishing from day to day. Only two blast furnaces are working out of sixty which before the war existed in Belgium. Of these sixty all but four have been completely, or to a very large extent destroyed by the Germans.

The steel and iron production, which, in 1913 attained 2,224,000 metal workers in 1913 only about two hundred are working.

It is hoped that by the end of this year, at least twenty-five blast furnaces will be producing and that 44 per cent of the pre-war production will be obtained.

Six thousand operatives have resumed work in the linen industry. The English week of 54 hours has been agreed to.

In the textile industry (carding) work may be resumed several weeks hence since a great part of the machinery which the Germans had taken away has been discovered it. Leipsic and repaired.

U.S. UNDERSELLS | BIG RALLY IN BRITISH STEEL

Quote Low Prices on **English Markets**

London, July 1. - Sir Auckland Reddes, president of the Board of Trade said in the House of Commons, the other day, that American steel manufacturers were quoting prices for steel in the United Kingdom lower than those quoted by British manufacturers. Nevertheless, he said, the government was not prepared to restrict the importation of iron and steel because of the demand for it in Great Britain.

Lieutenant-Colonel Sir F. Hall declared that the American steel manufacturers were underselling British steel in English markets by ninety shillings a ton and upward. He asked Sir Auckland if the government was going to do anything to protect British steel manufacturers from this American competition. This evoked the reply that the government intended to impose no restrictions at present.

"There is a very great demand for iron and steel in this country at present and our producers are not able to meet it," said Sir Auckland Geddes. "Our foreign trade demands a large amount of iron and steel to be worked into things to be exported.

Speakers Are Fighting "Reds" From Soap Box

"Reds" From Soap Box
New York, July 1.—"Fighting fire
with fire" is the best descriptive
phrase for the National Security
League's latest effort in its nationwide campaign of Americanization
to counteract the growing influence
in this country of Bolshevism, anarchy and radical socialism. According to an announcement by the
League to-day, it is rapidly completing the organization throughout the
country of squads of trained patriotic speakers who will operate from
the street-corner soap-box, the favorite and time-honored weapon of
disorganizers and destructionists.
These squads of speakers to combat
Bolshevism with Americanism will
be called "Flying Squadrons" and
will be modeled after the organization of that tname created by the
Security League in this city last
year.

The selection of a good material is an essential part of a building's construction or repair. A roofing is supposed to protect the interior of a building and the material contained in it.

Cheap roofing will crack, or rot and consequently leak. The leak may damage the contents of your building, and the cost to you may be many times the value of even the highest-priced roofing.

As a responsible distributor, with a reputation to maintain, we recommend

We know from knowledge and experience with roofing materials, that Ru-ber-oid is made of the highest grade felt, and the best saturating compound and the best coating compound. It costs a trifle more, but it lasts—some buildings covered 20 years ago are still in good condition.

Ru-ber-oid will not crack, rot, run rust or warp, and will not leak. Sparks "fall dead" on Ru-ber-oid because of its fire-resisting qualities.

Liquor Dealers Ask Return of Part of License Fees

Gettysburg, Pa., July 1.—Adams county liquor dealers have filed a petition with the court asking for the return of a part of the license fees paid by them for the time the selling or liquor was not allowed when the camps were located here. A recent act of the Legislature grants the return of this money and the dealers are taking advantage of the opportunity.

The court has set August 25 as the day on which cause shall be shown why the petition should not be granted.

coming to this town, was a resident
of Harrisburg and was a supercvisor on the playground for colored
children there, will direct the play. declared in a speech here that not one of the various alarmist reports concerning American activities in Siberia was well founded.

On the contrary, he said, the activities of Americans in Siberia are all unselfish and dedicated to the welfare and advancement of the people of Russia. He especially praised the work of the American Red Cross and the American Young Men's Christian Association. It was a striking thing, he said, to notice that the men who direct the American activities were those who had lived in Japan and were friendly to the Japanese people. the Japanese people.

Mr. Zumoto added that he had delivered a number of speeches to

the Japanese people concerning the results of his trip in an effort to cradicate any misunderstanding. He looked forward to active co-operation between Japan and the United States in the future development of Siberia.

Missed His Train Saying Good-Bye to His Girl Oversea

Brest, July, 1. — One American soldier who lingered too long saying good-bye to his girl on the railway platform as his train was leaving for Brest missed his train. Though he overtook it by getting a ride on the next faster train his commanding officer made him march up and down in the aisle of the car for five hours carrying his pack and rifle while the train was going 175 miles to Brest.

Constitution Day," Sept. 17, to Be Observed

New York, July. 1. — That Constitution Day, September 17, the anniversary of the Birthday of the Constitution of the United States, be made a permanent national day of patriotic celebration, is suggested in an announcement today by the National Security League.

The idea of creating a permanent popular recognition of the Constitution, by a national yearly patriotic celebration on September 17, is the result of the inauguration by the National Security League of a great national Security League

tional Security League of a great na-tion-wide simultaneous demon-stration on that day this year as a popular protest against the in-creasing spread in this country of un-American influences. So great has been the interest and co-operahas been the interest and co-operation aroused by this movement of
the Security League and the organizations associated with it, that
it is now hoped to eventually make
the yearly celebration of Constitution Day approximate the Fourth of
July. While the celebration of the
Declaration of Independence has
continued until the world is united
upon its principles, the Constitution
which has successfully embodied
these principles for 120 years and is
the more concrete thing to dwell
upon, has not been made the theme
for the eulogy it deserved.

Many Attractions for the American Trader

Rome, July 1.—Every attraction for the American trader,—market, sufficient domestic resources to warrant the extension of credit and a sympathetic clientele, — is to be found in Sardinia, according to Dr. Alfred P. Dennis, United States commercial attache after his recent exhaustive study of the economic situation in the larger insular possession of Italy.

"The Italian mainland, just at present," said Dr. Dennis for The Associated Press, "has very little that she can exchange with us. America wants here cheese and olive oil but the supply of both these commodities is below the margin of home consumption."

Pre-war Charges On Letters and Postals Are Restored Today

Well, at last, here is something to be had at pre-war prices, of full antebellum size and potency, and an article which we may all use.

Beginning to-day, all over the United States to its uttermost island acquisitions, the rate of letter postage is restored to two cents an ounce. The violet three-cent stamp will have no further place in the outfit of the letter-writer and the carmine two-cent sticker will resume its popular position.

Coupled with the restoration of the 2-cent rate for domestic first-class postage is the resumption of the one-cent charge for postal cards and picture cards.
