

Farmer Nets \$13,714 From 33 Acres of Asparagus

Bridgeton, N. J., July 3.—Farmers in this section of Cumberland county are obtaining remarkable prices for their products. Minich Brothers, one of whom, L. Willard Minich, is the president of the State Horticultural Society, had a net profit of \$13,714 from thirty-three acres of asparagus. John E. Minich, not connected with the firm of brothers, received \$10,000 from eight acres of strawberries, after deducting hauling, freight and commissions. Another farmer got \$5,000 for his strawberry crop from only two acres. Still another who had offered his farm last winter for \$4,000 received \$5,000 from the sale of his berries. The erstwhile humble onion is coming into its own, too. One grower sold over \$1,100 worth from half an acre. A. H. Westcott, of near Fairton, sold \$700 worth from one acre, and J. B. Husted, of the same locality, received \$480 from three-quarters of an acre.

TO DISTRIBUTE SIGNS Boy Scouts have been enlisted to aid in the distribution of the new Chamber of Commerce membership signs, which will be distributed among the almost 1,000 members within the next several days, it has been announced. The work of distribution will start to-day.

State Points Out Breeding Places For Mosquitoes

Breeding places for mosquitoes were pointed out by W. B. Becker, of the mosquito eradication division of the State Department of Health, in a report to City Health Officer J. M. J. Raunick. It is estimated in the report that it would cost about \$1,000 a month to treat the places mentioned to rid them of larvae, half of the amount to be used to pay for oiling and draining the places, and the other half to fill them and provide permanent drainage. The spots which are given as mosquito-breeding places in the report follow: Cameron street south of Paxton; Bellevue Park above Ninth and Holly streets; south of the State Arsenal and east of Eighth street (outside of the city limits); foot of bank, Harrisburg Cemetery, Eleventh and State streets; Sunshine Park, Cameron and Forster streets; Paxton Creek, north of Maclay streets; the marsh south of Maclay street, between the Pennsylvania Railroad and Paxton street; marsh and creek in Italian Park; marsh south of Division street, Sixth street and Hoffman's Woods; Third and Seneca streets; ditches between Sixth street and Pennsylvania Railroad at Division street; Wildwood Park drive (outside city limits).

CLEARING TRACKS FOR CIRCUS DUE HERE AT DAWN

Railroad Workers Make Way For Ringling and Barnum and Bailey

Well, youngsters, it's almost here. Sometime between midnight and dawn the big circus bearing the strange, yet familiar title of "Ringling Brothers and Barnum & Bailey Combined," is coming to town. The advance guard of the show states that all is in readiness for the invasion, while the juveniles have, in

FRECKLE-FACE Sun and Wind Bring Out Ugly Spots How to Remove Easily

Here's a chance, Miss Freckle-face to try a remedy for freckles with the guarantee of a reliable concern that will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling. Simply get an ounce of Othine—a double strength—from any drugstore and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst cases. Be sure to ask the druggist for the double strength Othine as this strength is sold under guarantee of money back if it fails to remove freckles.

many instances, already set their alarm clocks for an unearthly hour. At the railroad yards switching crews are busy clearing tracks for the many show trains that must be taken care of when they arrive from Reading. Railway officials state that the circus is far and away the biggest that has ever been transported over their lines. The trains will be met by the show agents who are in the city today making final arrangements for the coming of the "white tops." One of the "white tops" is the "24-hour man." He will arouse the various superintendents and their men. Then will begin the tremendous task of moving the contents of the trains to the circus grounds. It is said that those who rise in time to watch this operation will witness the unloading of the greatest amount of paraphernalia and the largest number of wagons, horses and animals that have ever visited this city. In consolidating the two famous shows, Ringling and Barnum have selected the finest and biggest features of both. The elephants number practically all the trained pachyderms in the circus world. A gigantic "super-herd" of these is used on the arctic program. There are a total of eight giraffes. Herds rather than mere "families" of animals are now introduced in the menagerie.

Some Fine Horses The most beautiful ring horses and the heaviest and finest of the draught stock of the two circuses have been merged. The Percherons and Normans promise to be much in evidence in the street parade scheduled to depart from the show grounds at 10 o'clock to-morrow morning. This procession, like all of the other shows, is of the highest quality and of greater length and brilliancy than any presented in former years. In addition to the scores of open cases, the bands, the calliope and frequent tableau displays—without which a circus parade wouldn't be a parade at all—are many distinct novelties entirely new to the sidewalk crowds. "Bigness" is the keynote of the parade and it is said that the elephant division is alone one of the most remarkable spectacles ever presented. At the showgrounds will be erected the biggest main tent ever built. The increased size has been made necessary because of the additional number of performers and the massiveness of the acts exhibited. One of the latter introduces five times as many elephants as have ever before been presented at one time. The menagerie tent is said to be almost as large as the "big top" of former seasons. This will be open to the public at 7 and 7 p. m. to-morrow. The main ten program will begin at 2 and 3 o'clock. A gorgeous pageant will precede the arctic displays. This enlists hundreds of characters and horses. There are many handsome vehicles. The pageant introduces many of the best-loved stories from fable and nursery rhyme so dear to the hearts of the children. Following will come a host of arctic features. The program of the big combined circus is made up of the best, finest and most sensational acts from the two famous shows supplemented by many foreign importations. Virtually every arctic number of the hundreds presented in a stellar attraction in itself. The riding acts include that famous girl somersault rider from Australia, Miss May Wirth and the entire Wirth family; also the wonderful "Hannford" family, including "Poodles" Hennford, the greatest rider in the world. Other riding novelties number the MacPherson Clan of Highland horsemen, featuring Signor Ragougli, the wonderful Italian midgest equestrian. The great Davenport troupe of equestrians is another of the riding features. Two famous girl performers, who are both veritable "leading ladies" of the circus, are Miss Leitel, greatest of all aerial gymnasts, and Miss Bird Millman, the dainty little "Queen of the Wire." Both are the greatest performers in the world in their particular line, and both will be seen on the same program here with the great circus combination.

Three Hours of Arenic In all, almost three hours of arenic surprises will be presented in the great circus "big top," which is the largest tent ever constructed. All the famous aerialists, riders, acrobats and clowns of the world will be seen on one program for the first time, and here will be an unprecedented number of animal features, including five great elephant troupes, coming to what is known as a "quarter of a million pound elephant act." Five troupes of trained seals, wonderful dog and pony acts, and scores of other interesting clowns on earth will be on hand to amuse the children. For the convenience of patrons

Jilted For the Best Man, He Weds the Bridesmaid

Seranton, Pa., July 3.—Jilted by his fiancée an hour before the time set for his wedding ceremony, John Parterko, of Simpson, turned his affections to Anna Smith, who was to act as bridesmaid, and they were married to-day at Simpson. Parterko was to marry Mary Sulko last night, but he received a note from his sweetheart saying that she had fallen in love with Frank Seuko, who was to be best man, and had eloped with him. The comely little bridesmaid, Anna Smith, wept when she heard the news. She comforted the deserted Parterko, and then they decided to be married.

will be a day of picnics. Every man, woman and child will patriotically observe The Fourth as he or she thinks best. Family picnics, groups of friends here and there, and cosmopolitan gatherings at the public amusement resorts and recreation places.

The war is over, everybody is happy. Patriotic demonstrations are always inspiring, instructive to old and young. But this Fourth our soldier boys are home with us and Harrisburg will celebrate as each individual chooses — informally without parades or prescribed orations.

For months we have been impressed with the fact that Old Glory is respected today in every corner of the globe, as never before. Tomorrow we will put the Stars and Stripes over the top of every home and then celebrate the day in the most enjoyable picnic style, excursion trip or homelike relaxation, with due regard for the Spirit of '76 that made possible this glorious holiday.
