Too Much Human Butchery, Says Chairman of Ohio Board

By Associated Press. columbus, O., July 7 .- The Willard Dempsey fight motion pictures, taken at the ringside of the championship bout in Toledo Friday, was complete ly rejected by Maurice S. Hauge chairman of the Ohio Board of Mov-ing Picture Censors. Mr. Hague was he only member of the board of three to review the picture and it is possible that the other two members of the board will vote to permit it being shown in Ohio. However, this is in doubt as Mrs. Murray Miller, a member of the board, declared that it was entirely possible that she will reject the picture. The other member of the board, C. G. Williams, would not say how he would act. Mr. Hague declared that "such human butchery should not be shown where our boys and girls may see it." He stated that as the film had been rejected persons or firms showing the picture in Ohio would be prosecuted, liable to fines from \$100 to \$300 and t, year's imprisonment.

Though it appears almost certain that the Willard-Dempsey pictures will not be shown in Ohio, it is probable that they may be seen in other states, if passed by the respective state boards. This is possible because the Mayor of Toledo in grantthree to review the picture and it is

There is a heavy growth of the stalk, but the heads are not well filled and serious damage has been done by the Hessian fly and the rust. The opinion prevails that the crop has suffered from too early sowing and a lack of potash, which has been scarce since the outbreak of the war.

to appearance of the fungus disease known as brown rot in many peach orchards. Because of the weather conditions the rot is said to be more prevalent than usual and also to have seriously affected cherry crops in some sections. Owing to the big investments in peach orchards and the fact that thousands of young trees are just commencing to bear the Department is urging that the peaches be sprayed or dusted without delay.
