

STUDENTS NAMED TO GO TO SWEDEN

They Will Be Exchanged With Swedish Students to Come Here

New York, July 7.—The names of ten American college students who will receive a thousand dollars each to enable them to go to Sweden to study in exchange with ten Swedish students to come to America, are announced today by the American-Scandinavian Foundation...

Samuel G. Frantz, of Princeton, N. J., Princeton University; Harry F. Tancey, of Urbana, Ill., University of Illinois; Chester C. Stewart, of Wilmington, Del., Massachusetts Institute of Technology; Harry W. Titus, of Laramie, Wyoming, University of Wyoming; Robert C. Sessions, of Worcester, Mass., Worcester Polytechnic Institute; Clarence N. Ostergren, of Hoboken, N. J., Sheffield Scientific School; William S. Moir, of Boston, Mass., Yale Forestry School; Henry M. Meloney, of Syracuse, N. Y., State School of Forestry at Syracuse; University; Rudolph E. Zerkstrand, of Munhall, Pa., Sheffield Scientific School; and Thomas Fraser, of Urbana, Ill., University of Illinois.

NEW RED CROSS STEAMER Samara, Russia, July 7.—The American Red Cross has established on the Volga river an hospital steamer of a hundred beds.

NATURE REMEDIES GAVE HIM A REAL LASTING RELIEF

Declares Natonex Nature Products Most Reliable of all Medicines

"Natonex is not like so many medicines that only give a little relief while you are taking them. I took Natonex and have found the good results lasting," stated James Shepherd, of 106 Washington Street, Edwardsville, Pa.

Lasting results are what counts with a medicine. There are many so-called "tonics" that lift you up for a time and then let you down harder than ever. The pure Nature remedies in Natonex that every one knows and understands work in Nature's way to cleanse, purify and invigorate the entire digestive system so that Nature can build so there will not be a let down.

"I am 76 years of age and of all the medicines I ever took I find Natonex is the most reliable," Mr. Shepherd explained. "For years my digestion was bad. I would have gas, bloating, a burning sensation in my stomach and heartburn. I would be constipated and my kidneys were not working right."

"I was laid up one time for a whole year and I spent lots of money then on medicines. When I read of the famous old Nature remedies in Natonex it appealed to me right away. I knew these Nature remedies were good. I found splendid results from the first and after the third box I had no dread of eating whatever I wanted, for my system was so cleansed my digestion was fine. No more gas, bloating, sourness or burning. Natonex regulated my kidneys, liver and bowels. My color is healthy and I have not lost a day's work since Natonex began to build me up."

"I have told all my friends what Natonex has done for me and I am only too willing to recommend such a medicine publicly."

As Mr. Shepherd says, Natonex is not like other medicines as the endorsements for it show. No alcohol, narcotics or other harmful drugs. No secrecy about Natonex. A chemist combined the best of Nature remedies and made a safe, sensible medicine for weak, ailing, run-down men and women. Natonex is especially recommended in Harrisburg by the Gorgas drug store, 18 N. Third street, and is sold by leading druggists everywhere. Insist on the genuine and don't be disappointed.

ALLIES FAVORING PLEAS OF DUTCH

Consider Territorial Feeling Between Holland and Belgium

Paris, July 7.—Holland has scored in the first heat of the diplomatic tourney with her neighbor Belgium over the clauses of the treaties of 1839, which have aroused a good deal of feeling on both sides of the Belgo-Dutch border.

It was these 80 years old treaties that gave Holland the Limburg "peninsula," the narrow elongated strip of land popularly known as the "Dutch appendix"; by crossing which, the Germans in their retreat last fall saved themselves a detour of some 40 miles and possible capture by the Allied soldiers.

The Belgians dug up ancient records showing that several towns and villages situated in Dutch Limburg had, in the thirteenth century, petitioned the first king of the Belgians to be joined to his new kingdom.

Although the Dutch Limburgers of the present day are said to have no such desires, an influential section of Belgian politicians clamored for the annexation of Limburg to Belgium.

Also, to safeguard the future position of Antwerp, the Belgian annexationists claimed the territory known as Dutch Flanders, situated on the southern bank of the Scheldt estuary, which the treaties named had also joined to Holland.

These territorial claims aroused a storm of patriotic indignation in Holland. Queen Wilhelmina visited the dispute parts of her dominion, and there was a good deal of flag-waving and shouting about "dying in the last ditch" before giving up national territory. The situation was becoming unpleasant. Cool-headed elements in Holland realized that an estrangement from the Belgium sister nation would be fraught with disastrous consequences.

A conference was called by the five powers to consider the treaties of 1839, a delegation of eminent Dutch jurists, came to Paris with the firm resolve to avoid anything in the nature of a breach with Belgium.

On the cessation of territory, however, their instructions were definite, and the Dutch standpoint has been upheld by the five great powers.

It was agreed to institute a commission of seven powers, including Belgium and Holland. This commission is to examine the proposed revision of the treaties of 1839 and submit proposals "implicating neither a transfer of sovereignty nor the creation of international servitudes."

The commission will invite Belgium and Holland to submit "joint formulas" in the matter of waterways, the general principles of the Peace Conference to be applied as bases for the same.

The bellicose feeling on both sides now has almost died down.

Detours Ordered Near Harrisburg

Owing to highway construction the State Highway Department has approved a number of detours on state roads near this city.

The official statement says: "Detours on the Lincoln Highway will be found at Ligonier, Westmoreland County; Fayetteville, Franklin County; east of Berwick, York County; and east of York, within a few days a detour will be found at Saluvia, Fulton County."

"On the William Penn Highway detours will be found at Duncansville, Huntingdon County; east of Mifflintown, east and west of Lebanon and east of Reading. Because of construction between Harrisburg and Clark's Ferry bridge, through travelers should use the Highway on the opposite side of the river which they will reach at Harrisburg by crossing the Market Street bridge and at Clark's Ferry bridge by crossing the Juniata River to Juniata Bridge and Duncannon."

"On the New York extension of this road, from Reading through Allentown and Easton, a detour exists ten miles southwest of Allentown."

Established Record For Mexican Air Flight

Mexico-City, July 7.—Carlos Santan, well-known in Mexico as an aviator recently established a record for the republic in sustained aerial flight, remaining in the air 15 hours and 15 minutes. The flight was designed as a test for a new 130 horse power motor which has been built in Mexico.

Germany Planning Trade in Russia

Coblenz, July 7.—According to information in the hands of intelligence officers of the Third United States Army, Germany recently received orders from Russia for farm implements the contract price of which was 75,000,000 marks. A German delegation is planning to leave Petrograd for the purpose of completing additional details for increase business between Germany and Russia.

SEVEN KILLED IN FLORENCE RIOTS

Seven Others Injured in Fight Over High Cost of Living

By Associated Press. Florence, Italy, Saturday, July 5.—One person was killed and seven were injured late today in a renewal of yesterday's rioting over the high cost of living. There has been much firing by the Carabinieri detailed to keep order. Mobs again have become violent and the ransacking of shops has been resumed. All workers are idle under a general strike order.

During the day goods of all kind have been distributed to people under the supervision of the mayor and the military command. The distribution was conducted at each store separately. Large crowds congregated at each place so as to be sure to receive the benefits of the new prices decreed at 10 o'clock this morning by the mayor. All commodities have been reduced from 50 to 70 per cent.

Lack of organization in opening the various shops where goods were requisitioned resulted in crowds gathering at many points in the city, where there seemed to be a chance to obtain food. The plan followed was to open the store, sell everything in it at the new prices, then close it and open another store. The crowds following from store to store caused great confusion.

During these municipally conducted sales, there was no violence. Scores of soldiers were needed to avoid too great a throng of the eager people. There were no hostile demonstrations during the early part of the day as there were yesterday.

The new scale of prices put into effect in Italy, at fifteen cents a quart and bread at six cents a pound. Butter, sugar, meat and oil prices were reduced one-half by the mayor's decree. Other commodities, considered as necessities, were ordered sold at 70 per cent. reduction beginning this afternoon.

The most active buying was in the historic Medici chapel quarter where the new market house is located.

Wood Urges Control of War Making Here

Crookston, Minn., July 7.—Major General Leonard Wood, in an address here in connection with the Ninth Congressional District homecoming celebration, said that American soldiers would not fight at the orders of a European nation or a group of nations, and that the red flag must be stamped out in the United States.

"Continuing," he said: "America has a strong national spirit and Americans will not go to war under a group of nations, but under the mandate of our own law."

"The spirit of the training camp has brought out very forcibly the desirability of having one language, and that language should be the language of the Declaration of Independence, of the Constitution, of Washington, Jefferson, Lincoln, Cleveland and Roosevelt."

"These are serious times. We should hold on to the Constitution of the United States and stand with our feet on the ground and our eyes on God. Do not listen with too much seriousness to dreams. We believe that arbitration and the council table will delay war, but we do not want it to affect the policies we stand for."

French General to Head Grave Committee

Paris, July 7.—General de Castelnau has accepted the position of President of the National Committee formed to look after all questions connected with the graves of French soldiers and Paul Doumer who, like the general has lost three sons in the war, is the vice-president.

When the mail is segregated, the remainder gets more careful consideration. The acknowledgments that go out for every letter received at the White House are along stereotyped lines, but the humblest writer is assured of attention, and the business man who has worked out a thought of his own get a hearing.—Forbes Magazine.

IGNORANCE OF A KING

Clock dials usually represent the hours by use of Roman numerals, but there is one curious variation. The number four in Roman numerals is commonly represented by IV, but on most clock dials it is four I's, as IIII. There is a reason for this. It traces back to the ignorance of a king of France who ruled 600 years ago.

Tradition among watch and clock-makers has it that the clock dial was first made by Henry VIII in the year 1570, and he made it for Charles V, or Charles the Wise, of France. Charles was not as wise as he looked or as his name would suggest. When the dial of the clock was submitted for his approval he studied it long and carefully. Finally he remarked, "The clock is all right with one exception. The figure for 4 o'clock should be four I's instead of IV."

"Your Majesty is wrong," answered Henry VIII. "IV is the proper symbol for four."

Charles bristled up with offended dignity, and thundered at the timid clockmaker. "I am never wrong. Take this dial away and correct your mistake."

There was nothing else to do. In all his subsequent clock dials Henry VIII was compelled to use the symbol ordered by his sovereign. Other dial-makers followed his example and the authority of stupid Charles V, whose bones have been dust for centuries, still rules the makers of most of our watch and clock dials.—Exchange.

LEGION MAKES PUBLICITY PLANS

Will Explain Purposes of National Organization of War Veterans

New York, July 7.—The American Legion, the national organization of American veterans of the great war, announces plans to organize a country-wide campaign of speakers to present the ideals and aims of the American Legion to the country, and to assist in the organization of the 4,000,000 service men into local posts.

For this purpose the country will be divided into fifteen zones, each in charge of an organizer who will develop his own speakers' bureau. It will be ready to send a spokesman to any city or town in his territory where veterans of the war meet, in order to present the legion to them.

The women were trained by the Y. W. C. A. in various parts of the United States and have been given a systematic course with a certificate for satisfactory work. They are known as the Polish Grey Samaritans and wear a picturesque uniform consisting of a gray cape and Polish cap.

Under Mme. Paderewski's direction a home has been taken over by the Polish government in Warsaw in charge of the newly begun Y. W. C. A. work there.

"No, Herbert," said she, in a low tone, "it is impossible. I fear to trust my future with you."

"I have watched your conduct closely. It lacks the mark of such devotion as my soul craves."

"Do I not come to see you four nights in the week?"

"Yes, but I have detected a calculating selfishness in your nature which I fear."

"What do you mean?"

"You have never yet failed to leave in time to catch the last bus."

"But that is only common sense."

"I know it is, Herbert, and therefore it is not love."—Chicago Journal.

FULL OF IT OR THEM?

A teacher of domestic science in an Ohio women's college was giving lectures on new ways to use staple foods. One occasion she devoted a morning to the subject of prunes.

"What did you think of her talk this morning?" said one of the students to another.

"I thought she seemed full of her subject," was the reply.—Ontario Post.

A WONDERFUL WORLD

"Don't talk to me about the wonders of past ages," said Uncle Joe Cannon. "The world today is far more wonderful than ever before. Just think. It took Columbus as many months as it now takes days to cross the ocean, and we talk about flying and traveling a mile a minute as though they were nothing."

"Why, the other day I dropped into a country school just in time to hear the teacher ask: 'Johnny, into what two great classes is the human race divided?' And Johnny answered promptly: 'Washington and pedestrians.'"

NURSES' AIDS GO INTO POLAND

Mme. Paderewski Has Made Request For Trained Social Workers

New York, July 7.—Twenty women of Polish birth or descent, who have been trained in this country as social and nurses' aids, are to be sent by the Y. W. C. A. to Poland within a few weeks as a result of a request from Mme. Paderewski, wife of the Polish president.

The women were trained by the Y. W. C. A. in various parts of the United States and have been given a systematic course with a certificate for satisfactory work. They are known as the Polish Grey Samaritans and wear a picturesque uniform consisting of a gray cape and Polish cap.

Under Mme. Paderewski's direction a home has been taken over by the Polish government in Warsaw in charge of the newly begun Y. W. C. A. work there.

"No, Herbert," said she, in a low tone, "it is impossible. I fear to trust my future with you."

"I have watched your conduct closely. It lacks the mark of such devotion as my soul craves."

"Do I not come to see you four nights in the week?"

"Yes, but I have detected a calculating selfishness in your nature which I fear."

"What do you mean?"

"You have never yet failed to leave in time to catch the last bus."

"But that is only common sense."

"I know it is, Herbert, and therefore it is not love."—Chicago Journal.

EXPERTS STUDY PLAGUE

Hazleton, Pa., July 7.—A. D. Dalton, of London, and George H. Pethybridge, of Dublin, agricultural experts, are here to investigate the methods followed by the State and Federal authorities in fighting the potato wart disease that broke out in this locality last fall.

Omsk Decree Withdraws Kerensky's Paper Money

Teles, July 7.—Decision by the Omsk government at Siberia, to withdraw from circulation the paper money issued by the Kerensky regime has created consternation among the Japanese of Valdivostok and Harbin who are large holders of the Kerensky notes. Banks conducted by Japanese have refused to accept Kerensky notes.

The Omsk decree affects chiefly the small 20 and 40 rubles notes. For one month, conversation of the notes was to be conducted at banks after June 16, the notes were not to be accepted for conversation.

Japanese manufacturers and business men in Siberia were panicked when the order was issued and sent a telegram to the Japanese foreign office, asking for help.

Denies Gompers's Charges Against Prohibition

Washington, July 7.—The statement by Samuel Gompers, president of the American Federation of Labor, that prohibition in the State of Michigan had advanced the cause of the I. W. W. and other radical groups to a point where the nation was menaced, was attacked by Wayne B. Wheeler, general counsel

of the Anti-Saloon League of America. "Mr. Gompers's statement," said Mr. Wheeler, "is a reflection upon the patriotism of loyal, sober working men. It does not represent them. If any group of men put loyalty to beer before country, the people ought to know it. When that issue is raised the champions of beer will be as lonesome as the Kaiser and his staff after their trial by the Allies. The overwhelming majority of this nation is loyal and law-abiding."

"If any answer was needed from Michigan it would be in the 207,000 majority against the wine and beer amendment at the last election. It would be interesting to know who made the investigation in Michigan and who co-operated with the investigator in Detroit."

How much "Turkish"? 4 What's the odds, how much "Turkish"? See Thursday's Papers -NOT AN ADVERTISEMENT FOR ANY PARTICULAR CIGARETTE -It may even make you like your present cigarette better

Get After That Backache THOSE agonizing twinges across the small of the back, that dull, throbbing ache, may be your warning of serious kidney weakness—serious, if neglected, for it might easily lead to gravel, stone in kidney, bladder inflammation, dropsy or fatal Bright's disease. So, if you are suffering with a bad back, look for other proof of kidney trouble, and if there are dizzy spells, headache, nervous, despondent attacks; a dull, tired condition and disordered kidney action, get after the cause. Take things easier for a while and use Doan's Kidney Pills, the remedy that has been tried out for you by thousands. What satisfied users say is the best proof of Doan's reliability. These Harrisburg Users Say: North Fourth Street, Chestnut Street, Peffer Street, Berryhill Street, North-Fifth Street, Penn Street, North. Doan's Kidney Pills. Every Druggist has Doan's, 60c a box. Foster-Milburn Co., Manufacturing Chemists, Buffalo, N. Y.

Lift off Corns! Doesn't hurt a bit and Freezezone costs only a few cents. With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin callouses from bottom of feet. A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callous. Instantly it stops hurting, then shortly you lift the bothersome corn or callous right off, root and all, without one bit of pain or soreness. Truly! No humbug!
