IMPOSING SHAFT TO BE ERECTED FOR MEMORIAL

Granite and Steel to Honor Men Who Served in Great War MINIMUM COST IS \$50,000 Chamber of Commerce and City Council Are Working Together

City Council yesterday afternoon unanimously approved a plan suggested by Arnold W. Brunner, the noted architect in charge of the Capitol Park developments, and recommended by a committee of the Harrisburg Chamber of Commerce for a memorial to Harrisburg and Dauphin county soldiers, sailors and marines to be erected at the eastern approach of the proposed memorial bridge at State and Thirteenth streets.

The memorial plaza and park treatment will extend from Thirteenth in State, almost to Fifteenth street, and will cost a minimum of \$50,000, which the Chamber proposes to finance by means of public subscriptions. The committee has been at work on suggestions for a memorial for many months and at last put the matter up to Mr. Brunner, who suggested the type which the committee and council have approved.

Of Enduring Granite The base of the memorial will be of granite, as being more lasting than marble, and will be circular in form with a seat running around the back to accommodate those who may desire to rest after a trip over the proposed bridge or to view the Capitol Park extension development, which will lie in panoramic form before the eye of the observer from that altitude. Around the rear of this seat will be carved the names of famous battles in the war with Germany in which Pennsylvania troops participated.

In the center will be a huge bronze base dignified ornamental design, on which will be the proper inscriptions. This base will be surmounted by a steel flagpole, sixty-eight feet in height, which will constantly fly a huge American flag. In the rear the present grassplot will be transformed into a beautiful garden, the formal stone benches, attractive shrubbery artistically arranged, ending in a stone pillar in the rear. This will be nearly two blocks in length.

Designed by Brunner The whole idea was developed by Mr. Brunner and is his suggestion as the most appropriate way in which the city and county should honor the State in adding a local memorial in conjunction with the great memorial bridge to be erected by the State. He pointed out that it would be particularly fitting in view of the fact that the granite shaft to the memory of Civil War veterans is erected at the western extremity of the Capitol development in State street, designating the Commonwealth's bridge and pylons the center and the city and county World War memorial the eastern end. The beauty of the design is also noted by the architect, who will add a finishing touch to the Capitol Park improvements and give the Allison Hill district a residential district developed there.

Governor Approves Governor Sproul and the members of the State Board of Public Grounds and Buildings were first shown the sketches and details of the plan and they most heartily approved. The governor intimated that he felt it only proper that the city and county memorial should be located near the State memorial and in conjunction with the wonderful Civic Center which the Commonwealth is spending so much to create for Harrisburg.

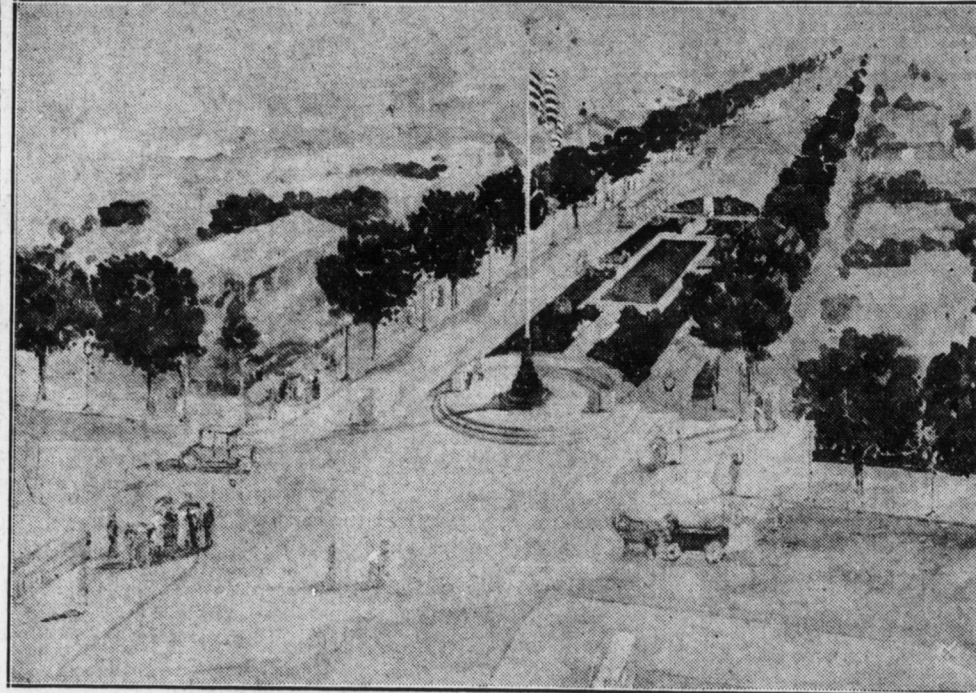

Members of the City Planning Commission to whom the plan was submitted to-day heartily approved it. The chamber's committee in making public the sketches and outlining the plan, desire to make clear that it has been acting merely as a clearing house for suggestions and makes no recommendation which it thought but the result of careful study by Mr. Brunner, who is one of the noted architects of the country. The committee feels that it has been fortunate in procuring his services in view of the importance of making anything the city may do along the line of beautification to harmonize with the State's Capitol Park plans. Paul Johnston, chairman; David E. Tracy, J. William Bowman and Spencer C. Gilbert, constituting the chamber's committee, have held many meetings and have considered many plans but believe by far the best is that here presented. The beauty of the design cannot be gathered from a small picture and in order that the people of the city may form a fair and unbiased opinion of what is proposed a large sketch of the design in water color and detailed drawings of the various parts will be placed on display in a downtown window within the next few days.

Overconfidence in human nature cost Louis Baum, tailor, of 5 North Fourth street, \$135 when Will Jervick, alias Will Harris, an employe of but several weeks, disappeared with that amount in cash. A Greek, who has been in Harrisburg two weeks and known only as "Mike," is missing and is believed to have gone with Jervick.

Jervick was known in Harrisburg as Will Harris, under which name he had been employed. Mr. Baum had discovered that Harris was an assumed name several days ago, but made no investigation.

Harrisburg and Vicinity: Partly cloudy to-night and to-morrow. High rising temperature. Lowest to-night about 66 degrees. Eastern Pennsylvania: Partly cloudy to-night and Thursday somewhat warmer. Moderate south and southwest winds. River: The Susquehanna river and all its branches are falling slowly or remain nearly stationary. A slight rise of about 3/4 feet is indicated for Harrisburg Thursday morning.

View of Splendid Memorial to Be Erected at 13th and State

THIEVES SECURE SILVER THROUGH OPEN WINDOW

Four Quarts of Unreplaceable Liquors Also Are Taken

Silverware, highly prized and of considerable value, as well as a number of other articles, were taken from the home of H. J. Williams, 1717 State street, by robbers last evening. It was reported to the Harrisburg police department to-day. The exact value of the articles taken from the Williams residence could not be stated.

Included among the silverware taken were one-half dozen knives and forks in a folder; two dozen tea spoons, one-half dozen large table spoons, one-half dozen soup spoons, four dozen bouillon spoons, one-half dozen forks, four dozen after-dinner spoons, two dozen odd spoons, bearing the names of different towns and dates together with one dozen fruit knives. Some of the spoons bear initials.

A large basket was taken from the pantry in which the silverware was stored, presumably to carry it and the other articles taken away. In addition were four quarts of various liquors, including sloe gin, port wine and blackberry brandy, and one dozen bananas were taken.

Entrance to the Williams residence was gained through an unlocked window on the first floor. The window is "never locked," it was reported to the police to-day.

In practically every robbery in the long string reported to police officials within the past several weeks, entrance has been gained through unlocked windows of the first floor. Little if any noise is made in this manner and the intruders are able to work entirely undisturbed, police authorities say. Articles of minor value have been taken by intruders in the other cases, and this is the first time that the booty has been of any considerable value.

Ten dollars in cash, two \$5 bills, were stolen from the rooms of Mrs. Ella Haupt, 430 South Thirteenth street, early this morning. Entrance to the rooms of Mrs. Haupt, located on the second floor, was gained through an unlocked window after climbing a pair of steps leading from the rear yard. The money was in a pocket of one of Mrs. Haupt's dresses in a clothes closet.

Jervick was known in Harrisburg as Will Harris, under which name he had been employed. Mr. Baum had discovered that Harris was an assumed name several days ago, but made no investigation.

U. S. WILL TEST BEER SALES

Pittsburgh, July 9.—The Government's drive against the sale of beer containing 2 1/2 per cent. alcohol was launched here to-day, when United States Attorney R. L. Crawford filed a suit against the Pittsburgh Brewing Company, one of the city's largest breweries, in the United States District Court this noon, charging violation of the wartime prohibition law. Twelve officials of the company were named in the information.

PACKARD MOTOR COMPANY PLANS BIG WAREROOM

Work on Plant to Go Up in South Cameron Street to Start Next Week

The Packard Motor Car Company of Philadelphia, announced to-day that the manager of their local branch, Robert Harrington, that work would be started in about a week on the big new building to be erected by them in Cameron street below Mulberry.

According to Mr. Harrington, who gave out the statement this morning, the new building will be the largest in Harrisburg given over exclusively to the sale and service of one car. The construction will be of stone, concrete and tapestry brick, with a front of 185 feet and a depth of 145 feet. This will allow approximately 30,000 feet of floor space. The interior of the show room, which will take up the entire front half of the structure, will be in white with dark finishes.

The show room itself will be one of the largest and most complete of its kind in Harrisburg. With a capacity of nine cars and trucks, it will include:

Charged Second Time With Selling Narcotics Charged with peddling habit-forming drugs, William Claybourne, colored, long suspected by the Harrisburg police authorities, was arrested last night by Patrolmen Rochnick and Keys in Court street. Claybourne is said to have a large amount of narcotics when taken into custody and still more of it was found in the yard of 40 South Court street.

Claybourne was arrested several weeks ago, charged with peddling narcotics, but at that time he was released for want of evidence. Several witnesses testified that they had bought what had been supposed to be narcotics from him, but one testified that what he had purchased did not produce the feeling ordinarily produced by narcotics.

Claybourne was arrested several weeks ago, charged with peddling narcotics, but at that time he was released for want of evidence. Several witnesses testified that they had bought what had been supposed to be narcotics from him, but one testified that what he had purchased did not produce the feeling ordinarily produced by narcotics.

GOVERNOR PUTS HIS SIGNATURE TO MANY BILLS

Regulation of Containers For Farm Products Approved by Sproul

Authority for the bureau of markets of the State Department of Agriculture to fix standards for containers of fruits and vegetables and other farm products and to prescribe rules for grading of produce is conferred by the bill reorganizing the bureau which was announced to-day as approved by Governor Sproul. The standards are to be set in conjunction with the bureau of standards of the Department of Internal Affairs and power to enforce the regulations is given. A number of the powers conferred by the act of 1917 are again conferred, including power to gather statistics, investigate market costs, delays, charges and practices and to assist in organization of public markets and co-operative associations. The new law also makes a number of definitions.

The Governor also announced the approval of the bill providing for the regulation of bakeries under direction of the Department of Labor and Industry, which will have a wide effect. One of the provisions is that at least 200 cubic feet of fresh air per minute will be admitted to the bakery, which is given authority for investigations and for revocation of certificates for violation of regulations or failure to comply with them.

The Governor has also approved the bill permitting fox hunting in Chester and Montgomery counties. This is done by an act which amends the Delaware county law of 1913 so as to extend it to the two counties.

Other bills announced as approved include: Enabling County Commissioners to abolish election districts in which less than 10 qualified electors reside, after giving notice and holding a hearing. Right of appeal to court is given.

Recreation Centers Three Senate bills affecting cities were approved by Governor Sproul to-day, becoming effective immediately. One empowers second and third class cities, boroughs and counties to acquire and operate playgrounds, gymnasiums, public bathhouses, swimming pools and indoor recreation centers, authority being given for school districts to join with them. Provision is made for bond issues for such purposes or to levy taxes not to exceed two mills. Cities or towns may unite in such enterprises and share the costs. Control may be vested in any existing body or in a new one.

Going to the Next World? Not Much! Only to Market And Woman Decides She Wants to Walk When Police Offer to Carry Her on Stretcher

"What you got me on heah for?" demanded a "dying" colored woman this morning when Captain Thompson and several members of the Harrisburg police force endeavored to place her on a stretcher in a Penbrook street car. "It's gon' to market an' I's gon' to walk," she argued with the Captain, as he vainly endeavored to persuade her that she was "dying" and that she ought to go to the hospital. Captain Thompson and several members of the police force had answered a hurry call in the ambulance, when a phone call came that a woman was dying in the Penbrook car, in Market Square. "I was just sleeping, but I thinks you all the same," she told the policeman as she clambered off the car and started for the Chestnut Street Market.

YOUNG KING OF FINANCE MAKES ENGLAND MARVEL

Buys \$20,000,000 Worth of Linen Over Heads of Belfast Manufacturers STARTED WITH ONLY \$500

His Deal Will Affect Markets of Entire World; Bought at Government Sale

London, July 9.—Leonard J. Martin, a young English business man who deals in agricultural machinery, has bought for \$20,000,000 from the British Government about 40,000,000 yards of linen which was intended for making airplanes. He knew nothing about linen, but bought it in speculation.

To-day his name and picture are featured in every British paper and editorial writers are pointing out that the enterprising young man doesn't have to go to new countries to find golden business opportunities. Martin is 37 years old and began his career, he says, with a capital of about \$500.

"I bought over the heads of everybody else," he said in discussing the big deal, "simply by offering a higher price than anybody else would pay. This is a one-man deal. I am fascinated by the possibilities of the thing. I have never seen a proposition with so much scope in the markets of the world."

Will Make a Million The stock of material Martin now controls represents three years' normal supply. He is reckoning on a profit of about \$5,000,000. Of that amount \$2,000,000 would go to the British Treasury in excess profits and another \$1,250,000 in super

profits. The linen has been for sale by the government since 1917, under an offer to sell to the general public in 80-yard lengths and 100-yard bales, but only \$1,000 worth of it had been purchased.

"Belfast people," said Martin, "imagined they had the stuff between their two fingers. A large part of this linen was actually manufactured after the armistice because the Belfast mill owners refused to allow their contracts to be canceled.

They went on making linen by millions of yards at 40 to 75 cents a yard. Then they offered the government seven cents a yard to take it back. Their price later went up to 25 cents a yard, and it was still heped in view of the monopoly to sell it to the public at three shillings. They could have re-equipped all the mills in Ulster out of the profits. The Belfast mill owners refused to allow their contracts to be canceled.

Tree Census to Be Taken Up Again by City After a Lapse of Several Years Work on the completion of the tree census in the city, started a few years ago and discontinued during the time that "no forester was to be had," will be started in a few days by City Forester Louis G. Baltimore. About half the work has been done. Districts which are to be surveyed include the Four-point section east of North Seventh street and the Allison Hill district.

Mr. Baltimore during the last few weeks has been busy directing the trimming and care of elm trees in North Front street from Calder to Division street. Together with V. Grant Forrer, Assistant Superintendent of Parks, he is working out a tree-planting plan for the entire city, according to streets.

Efforts will be made, it is understood, to have a tree-planting campaign in the fall. Many inquiries about the care of trees are being received, and some complaints have been investigated also. Upon inspecting a number of trees in the city, Mr. Baltimore said that he found them to be suffering from scale, but so far it has caused no great damage. Trees in the city park are being sprayed next spring to prevent any damage to them from scale.

WILSON FINDS MASS OF WORK AWAITING HIM IN WASHINGTON

Official Business Piled Up After an Absence of Four Months, and Speaking Tour Must Be Delayed For Week

GERMAN GOVERNMENT TO ACCEPT PEACE PACT

Washington, July 9.—President Wilson returned to his desk to-day after an absence of four months at the Peace Conference, to find such a mass of official business that it probably will be two weeks before he can start on his tour of the country, speaking for the Peace Treaty and the League of Nations.

Plans for the trip have not yet been completed, but it was said at the White House that the President would so time his schedule as to reach the Pacific coast at the time of the arrival there of the newly-created Fleet.

Three big Army trucks loaded with trunks and boxes arrived at the White House before the offices were opened. The boxes contained official papers and documents relating to the peace negotiations. A large staff of clerks immediately set to work to put the documents in order.

Ready to Speak President Wilson was represented as being ready to place himself at the disposal of the Senate Foreign Relations Committee or other committees of Congress to answer any questions concerning the Peace Treaty and the League of Nations, which he will present to the Senate to-morrow in person.

The President remained in bed to-day, resting after his trip home. Rear Admiral Cary T. Grayson, his personal physician, said the President is in splendid health. Going to his office shortly before 11 o'clock, the President summoned Secretary Tumulty and they spent some time mapping out a program of work. Most pressing of the many matters before him were the annual appropriation bills recently passed by Congress. In considering the agricultural bill, the Executive had before him many requests for the repeal of the measure because of the order repealing the daylight saving law.

The President remained steadily at work for several hours and was not interrupted. At noon it was said that none of the bills before him had been signed. It was expected, however, that he would sign a number of them before the end of the day.

Penrose Talks on the Legislation United States Senator Boies Penrose, who spent last evening discussing legislation with Governor Sproul at the Executive mansion looking for the prompt approval of the Daix-Brady bills and the naming of a new registration commission for Philadelphia within a day or so.

The Senator, who remained at the Executive mansion until very late last night, said that he had gone over legislative matters with the Governor and officials who were going to Washington later in the day to take up his senatorial duties.

While here Senator Penrose saw most of the heads of departments of the State government and spent considerable time talking with Auditor General Charles A. Snyder, who will have many appointments to make under the bill which it is expected the Governor will approve as part of the revenue raising program. The Senator also saw a number of visitors this morning and reiterated his satisfaction with the work of the Legislature.

INSPECT BRIDGE Commissioners from Dauphin county with Lancaster county officials inspected inter-county bridges between Conowingo and Londonderry townships, meeting this afternoon at Falmonth for the tour along the line between the two counties. The Dauphin county officials were going to work on building a bridge near Millersburg on the road to Berksburg, to C. M. Hershey, county engineer, for approval.

ENGLISH BEAUTY MURDERED AFTER STORMY CAREER

Member of Nobility Is Found in Her Home Dead From Effects of Bullet SHE CREATES SENSATION

Mixed Up in Several Breach of Promise and Slander Suits During Life

London, July 9.—Mrs. Arthur Eliot, better known as Mrs. Mabel Louise Atherton, divorced wife of Colonel Thomas Atherton, was found shot this morning in her home in London, according to the Evening Standard this afternoon.

Mrs. Eliot, who was a sister of Sir Aubrey Dean-Paul, some years ago sued Baron Churstone, then John Reginald Yarde-Buller, for breach of promise. The case created considerable sensation at the time. Last April she married Captain Arthur Eliot, a dramatic grandson of the late Earl of St. Germans.

Mrs. Eliot was Mabel Louise, the third daughter of Sir Edward Dean-Paul. She was married to Colonel Thomas Atherton in 1892. Her husband divorced her in 1907, naming John Reginald Yarde-Buller, now Baron Churstone as co-respondent. Mrs. Atherton then sued Mr. Yarde-Buller for breach of promise and won her case.

In 1909 Mrs. Atherton, who was a noted beauty in English society, was one of the four principals in the sensational Stirling divorce case in Edinburgh. John A. Stirling, later of Kippendare, sued his wife, formerly Miss Clara E. Taylor, an American actress and known in society in New Jersey and Washington. Mr. Stirling named Lord Northland as co-respondent. Mrs. Stirling filed a cross suit naming Mrs. Atherton. The case, which occupied the Scottish court for several months, was decided in favor of the husband.

Mrs. Atherton in 1911 brought suit for slander against her sister-in-law, Lady Aubrey Dean-Paul and was granted damages in the sum of one farthing.

THAW EXTRADITION HEARING Harrisburg—On the ground that they had information that Harry K. Thaw made trips to Pittsburgh, New Jersey and elsewhere and was frequently seen in theaters and cafes in Philadelphia, New York authorities asking for his extradition to that State to stand trial for assault upon Fred Gump, a Kansas City schoolboy, to-day asked Attorney General Schaffer for a hearing to prove that he is sane and ought to stand trial. James Gay Gordon appeared for Thaw and said he is confined in a Philadelphia institution from which he has been out twice and that only on court order.

GERMAN ASSEMBLY VOTES FOR PEACE Weimar—The resolution ratifying the Peace Treaty was adopted by the German National Assembly to-day by a vote of 208 to 115.

Hazleton—John Duguits was instantly killed by a fall of rock, at the Beaverbrook Mines of the C. M. Debuson Company to-day. He is survived by a wife and nine children.

R-34 TO SAIL TO-MORROW Mineola—The British dirigible R-34 will start on its return flight before daybreak to-morrow it was announced positively this afternoon by Major G. H. Scott, her commander. He expects to get away, he said, between 3 and 4 o'clock.

POLK TO SUCCEED LANSING Washington—Frank L. Polk, under Secretary of State, will succeed Secretary Lansing as head of the American-peace delegation at Paris, it was said to-day in official circles. Secretary Lansing will sail for home Friday.

PEACE TERMS ARE ACCEPTED

Paris, July 9.—The German National Assembly in Weimar has passed the resolution ratifying the Peace Treaty, according to advices received here to-day.

The resolution reads: "The Peace Treaty signed on June 28, 1919, as well as the protocol annexed and special agreements on military occupation of the Rhineland are hereby ratified. This law becomes effective from the date of its promulgation."

Patriot Company Departs From Combination Rate Policy For Advertising City commissioners and merchants throughout the city were somewhat surprised at the bids submitted yesterday by the Patriot Company for city advertising at the councilmanic meeting. Separate bids were submitted for the morning and evening publications permitting the choice of either paper at half the combination rate charged for publication in both papers.

This is a radical departure from the Patriot Company's generally understood rule of requiring advertisers to pay a combination rate covering publication in both morning and evening editions, and refusing to give them the option of using either one or the other edition at a single rate.

THAW EXTRADITION HEARING Harrisburg—On the ground that they had information that Harry K. Thaw made trips to Pittsburgh, New Jersey and elsewhere and was frequently seen in theaters and cafes in Philadelphia, New York authorities asking for his extradition to that State to stand trial for assault upon Fred Gump, a Kansas City schoolboy, to-day asked Attorney General Schaffer for a hearing to prove that he is sane and ought to stand trial. James Gay Gordon appeared for Thaw and said he is confined in a Philadelphia institution from which he has been out twice and that only on court order.
