## Union Bartenders Selling 2 3-4 Per Cent.

By Associated Press.

Philadelphia, July 9.—Union bartenders in the 400 or more saloons that had remained open in this city selling 2 3-4 per cent. beer, went on strike yesterday and in most instances the places where they were employed closed.

The refusal of the bartenders to continue at work will have the effect, retailers and hotelkeepers say, of producing a "bone dry" period here which they think will arouse sufficient protest to cause the President to declare an end of war-time prohibition.

Pipes Cold Air in House

"Guided by this experience, I tried another experiment in my house. I put the refrigerator in the attic and led the cold air downward through a pipe covered with asbestos into one of the rooms of the house. The doors were kept shut and the windows were kept shut and the windows were expended at the top. The temperature in that room was perfectly comfortable, about 65 degrees. "Some time ago the newspapers were speaking of an ice plant that had been installed in the White House, and congratulated the President, then Mr. Taft, upon a temperature of only 80 degrees when the thermometer showed 100 degrees outside. Under similar conditions I enjoyed in my house a temperature of 65 degrees (the ideal temperature), with a delicious feeling of freshness in the air."
