TO BE SEE

WHY YOU WANTED TO GO TO THE JONE

Tourie Just

Over 100 iron washers and about fifty pieces of cardboard carefully cut to the size of a cent have been discovered in the penny in the slot paper cup vending machines in the State Capitol at the end of the monthly roundup. In addition two persons contributed a nickel each and one person gave a dime for a cup. A large collection of pennies was found but indications are that Father Penn is out a certain amount of money and some one has more paper cups than the law allows. The washers were found all over the building, every machine having been "worked." The use of the paper "pennies" is a new one. The paper "pennies" is a new one. The paper cup machines are an accommodation more thar anything else. They realize a couple of hundreds of dol-lars a year, but they cost the State, including supplies and maintenance of the machines considerably more.

of the machines considerably more. "Roasting ears at fifty cents a dozen do not appeal to me," suid a Harrisburg man in the Chestnut street market yesterday, as he turn-ed away from a stall whereon sev-eral dozen ears that looked to be about the size of popcorn were dis-played at the price named. "Well," said the farmer, "if you had struggled the way I did to get that corn through the spring wet spell when the thermometer was near freezing and right afterward dry, I think may be you would want 'a a dollar a dozen for corn. Believe me it was some job." Corn, he forecasted, will fall in price very rapidly. Much has been planted and the victory gardens aro also full of it. The season for later corn has been generally favorable and the quantity will bring the fig-ures asked yesterday rapidly down to something like reasonable. The first home-grown corn is always high in price.

Conditions will right themselves soon, but there is no indication that a lower price level will be reached in the near future. The wise build-er will put in his orders now for de-liveries he desires for late summer. THE SECRET OF SUCCESS  $T^{HE}$  American Exchange Bank, in a pamphlet addressed to "The Young Men of America."

"The Young Men of America;" offers this bit of sage advice:

-The Philadelphia Press -The Philadelphia Press says regarding the mayoralty: "In trying to poll the city on a suitable candi-idate for next Mayor the City Club gets votes for some thirty more or less prominent citizens. This is en-couraging as an evidence that we have plenty of talent, and a good deal to spare. But what is going to be necessary is that the people get together; the political leaders won't scatter their choice." If the average young man de-sires to be successful he must submit to the conditions which success imposes. These primarily are honesty, industry and econ-omy, the practice of which is a cardinal necessity in the forma-tion of character. That is true. The young man who

begins early to practice honesty, industry and economy is bound to industry and economy is bound to get ahead. The man who neglects any or all of these is giving hostages to fortune. He who nails these watch-words to his masthead has an ever growing handicap over the chap get ahead. The man who neglects to fortune. He who nails these watch-

growing handicap over the chap -People at the Capitol are breathing more freely now that it is announced that Governor William C. visit Quarryville touched the suburbs Sproul will give immediate attention one day recently. Its arrival over who has neglected any or all of them. Add a kindly disposition, a willingness to serve and breadth of view Sp and you have a combination that is to and you have a combination that is to the general appropriation bill the town was not unexpected, an asset beyond price in the great which carries the payroll.
