

WANT 100 SHIPS TO CARRY FRUIT

Growers of Porto Rico Ask Aid From the Fleet Corporation

San Juan, July 10.—Fruit growers of Porto Rico have asked the Emergency Fleet Corporation to equip 100 steamers as refrigerator ships to carry fruit not only between Porto Rico and the mainland, but between the United States, South America and European countries.

The fruit growers have submitted to the corporation a memorandum saying that each ship should have from 100,000 to 200,000 cubic feet of refrigerator space. They assert that last year they lost more than \$500,000 on their produce because of insufficient tonnage and because none of it was equipped with even partial refrigeration facilities. The statement declares that, aside from the lines engaged in the banana-carrying trade, the United States has not more than a dozen partly equipped insulated refrigerator ships.

These proposed refrigerator ships, it is urged by the fruit growers, should have a speed of from 12 to 14 knots. It is pointed out that few freighters of such speed now are afloat. The Porto Ricans argue that shipping from the United States to South America must pass through the tropics, and that in doing so perishable products carried in the holds of ordinary ships are delivered invariably in a partly damaged condition. They say, also that refrigerator ships

FORECASTS BIG CROPS THIS YEAR

Agriculture Department Bases Conditions Existing on First of Month

Washington, July 10.—Bountiful farm crops this year were indicated today in the Department of Agriculture's July forecasts based on conditions existing the first of the month. Winter wheat and rye, now being harvested, showed the largest production to date.

Record crops of sweet potatoes, tobacco and rice also were predicted and the production of spring wheat, corn, oats, barley, white potatoes and hay is expected to be larger than the average for the five years, 1913-17.

Values of wheat, corn and oats crops combined amounts to \$8,340,622,000 based on July 1 farm prices.

Plant diseases and other conditions, however, made heavy inroads during June on prospective wheat and oats production. The forecast shows a loss of 75,000,000 bushels of wheat since the June estimate, and a reduction of 43,000,000 bushels in the prospective oats crop.

Kidnaping Charges Against 64 Men For I. W. W. Deportations

By Associated Press.

Bisbee, Ariz., July 10.—Sixty-four men, many of them prominent locally and over the State, were named defendants in complaint filed yesterday charging kidnaping and assault in connection with the deportation of more than 1,100 alleged members of the I. W. W. and their sympathizers July 12, 1917. The complaints were filed before Judge W. C. Jacks, of Douglas, who came here for that purpose.

Several hundred more complaints will be filed in the next few days.

Goodbye "Shimmie," Hello Waltz, Says Mrs. Castle

Ithaca, N. Y., July 10.—The "shimmie" is dead; long live the waltz!

Irene Castle Treman, famous dancer, says this is so; hence it must be so.

"Without wishing to appear narrow minded," she said, "the 'shimmie' and the 'jazz' are both improper and awkward. I don't mean that people are improper, but the 'jazz' music appears to make them forget to really dance and they abandon themselves to the unmusical rhythm, and the unrefined-looking result is called the 'shimmie' and the 'jazz'.

"It is certain the passing of liquor won't hurt dancing. It probably will be a good thing for it. People dance as well sober as they do—well, when they're not.

"Personally, I believe we are due for a return to favor of the waltz, the dance that can never be killed. You seldom see it now, but it will not die. The urge of the waltz is irresistible."

Murderer Is Caught After Four Years' Hunt

Lebanon, Pa., July 10.—State Police ended an almost four years' search for a murderer in the arrest at Coatesville of Stefano Catero on the charge of killing his boarding house boss, John Rossi, during a drinking bout on the afternoon of September 19, 1915, at Minersville, this county.

Catero escaped after disemboweling Rossi with a sweep of a stiletto and eluded the net the State police quickly spread for him. He was identified at Coatesville by Richard Schock, timekeeper of the Cornwall Ore banks Company, for which he worked at Minersville, and on being brought here was recognized by the widow of his victim and several former associates at Minersville, village.

ASK YOUR NEIGHBOR

It has been said that there is now hardly a city, town or village in this country wherein some woman does not reside who has found health in that good, old-fashioned remedy, Lydia E. Pinkham's Vegetable Compound.

Therefore, if you are suffering from some ailment, and hardly know what to do for it, and have tried other remedies without help, ask your neighbor if she has ever used Lydia E. Pinkham's Vegetable Compound. If she herself has never had the need for it, undoubtedly she knows others who were just in your condition and who have been restored to health by its use.

Omsk Throws Open Vaults to Show It Has Plenty of Money

Omsk, July 10.—The Omsk government has turned out its pockets, speaking figuratively, to convince any skeptics there might be among Allied representatives present in the capital that it is not withholding gold reserve to back its currency issues.

Fifty members of Allied diplomatic and military missions filed through the vaults of the State bank on invitation by the Ministry of Foreign Relations and viewed the precious metal stacked ceiling high in boxes and sacks.

There was represented in coin and bullion a total of 651,532,117 rubles, computed at standard rates before the ruble became the uncertain measure it is to-day, according to figures furnished by the treasury controller.

An interesting feature of the exhibition was hundreds of gold and silver gift plates, trophies, dinner sets, statuettes, candlesticks, ikons, running into hundreds of thousands of dollars in value, representing loot which the Bolsheviks had assembled in Kazan and Samara and which was turned over for safekeeping when the Czechs captured those cities last year ago. A large part of this collection represents personal property of the bourgeoisie which can easily be identified by rightful owners when peace is restored.

Prince Henry Now Pleads For Brother, Ex-German Emperor

By Associated Press.

Berlin, July 10.—Prince Henry, of Prussia, brother of the former German Emperor, has now come to the aid of the deposed war lord, and adds his plea to that of the others for abandonment by the Allies of their project to bring the former Kaiser to trial for his crimes against mankind.

Prince Henry in a telegram to King George begging him to desist in the effort to extradite the former monarch, pledges himself to assist the King in bringing to light "the truth regarding the war and its consequences."

Shortage of Teachers in Perry Co. Public Schools

New Bloomfield, Pa., July 10.—Although prospects of higher salaries than ever before are held out and despite the fact that former teachers have returned from army service, the scarcity of public school instructors in Perry county is more acute this year than ever before.

Thus far this year, County Superintendent of Schools D. A. Kline, of New Bloomfield, has issued but fifty-one provisional teachers' certificates as compared with seventy-five certificates issued last year. The number issued last year was insufficient and some of the schools had to be closed and the pupils instructed at nearby schools. At a recent examination, instead of the several scores that formerly appeared for examinations, a bare thirteen appeared and twelve of these succeeded in meeting the requirements.

High school graduates have always been found in the rural schools in large numbers, but this year there are few of them seeking positions. Many of these students during the past several years have shown a preference for a course at a State Normal School and thus fitting themselves for higher salaries.

Philadelphia Put on Restricted Ice Ration

Philadelphia, July 10.—This city is to be placed upon a restricted ice ration by agreement reached at a meeting yesterday of manufacturers and dealers. This is said to be necessary in order to avert an ice famine. Dealers in meat, milk and food products are exempted and the agreement does not apply to any hospital, sanatorium or to any manufacture of ice cream.

Families or individuals whose daily needs have not exceeded 25 pounds of ice may have this weight served, if in the opinion of the ice men, such portion is necessary. All other consumers must submit to a reduction in their daily supply from 50 to 75 per cent.

With No Rum Police Ask Shorter Hours

Reading, Pa., July 10.—Reading policemen, numbering 111, exclusive of the heads of the force, have petitioned the mayor and chief of police for the eight-hour day instead of the present twelve-hour shifts.

Not as many officers are needed at one time at present as when the saloons were open and dispensing hard liquor as well as beer. There have been but five arrests for drunkenness since July 1. Five to fifteen a day was the pre-prohibition average.

Woman Dies From Bite of Mosquito

London, July 10.—Mosquitoes, or mites as they are called here, are proving a pest this summer in various parts of England. As a rule they are harmless insects in this country but Miss Mary Ashley, of Seven Kings, aged 21 was so severely poisoned after being stung on the nose by a mosquito that she died four days later.
