

VIEWS DIFFER AS TO FATE OF PROHIBITION

President's Statements on Demobilization Causes Much Discussion

Washington, July 11.—Because of its bearing on the fate of war-time prohibition, President Wilson's view that completion of demobilization of the Army would depend upon the speed with which Germany executed the military terms of the treaty and with which the pact was ratified by the various nations is being widely discussed today in Congressional and other circles.

Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin callouses from bottom of feet.

the opinion that demobilization probably would not be completed before the country became dry by constitutional amendment next January 16.

Those favoring the repeal of war-time prohibition insofar as it affects light wines and beer had not given up hope, however, as they believed demobilization might be declared completed when the Army had been reduced to the 325,000 men authorized in the new Army appropriation bill.

Consideration of legislation for the enforcement of both war-time and constitutional prohibition was resumed yesterday in the House when the Senate judiciary subcommittee agreed on the principal features of an enforcement measure to be laid later before the full committee.

In the House Representative Steele, Democrat of Pennsylvania, asserted that constitutional prohibition could not be enforced in any State that failed to act concurrently with Congress in defining intoxicating liquors.

Alleged "Reds" Are Arrested in Raid

Paterson, N. J., July 11.—Charged with "unlawful assembly," two alleged radical leaders were arrested here last night in a police raid on an assembly hall occupied by the Amalgamated Textile Workers' Union. A large quantity of alleged radical literature also was seized.

The chief recently forbade meetings of the Amalgamated Textile Workers following adoption by the organization at a meeting in New York of resolutions endorsing the Russian Soviet government.

Motorman Must Serve Prison Term For Wreck

Pittsburgh, July 11.—Herman Klingner, motorman of the street car which got beyond control and was wrecked at the north end of Washington tunnel here December 24, 1917, resulting in the killing of more than a score of passengers, was sentenced to serve not less than fifteen months nor more than two years in the Western Penitentiary. He was found guilty of involuntary manslaughter in connection with the accident.

R-34 OVER 1,000 MILES OUT SAY LAST REPORTS

British Dirigible Is Well on Her Way to East Fortune, Scotland

Washington, July 11.—Aided by a westerly wind that sometimes reached a velocity of nearly forty miles an hour, the British dirigible R-34 early today was well out over the Atlantic on the return trip to East Fortune, Scotland. The last message from the airship, received late yesterday by the Navy Department, gave her position at that time as 650 miles due east of Bar Harbor, Maine, and more than 1,000 miles from Mineola, Long Island, from which she started last midnight.

The dirigible, according to wireless reports received by the Navy Department throughout the day, averaged more than 60 miles an hour for the first 15 hours of the return flight and at times the speed reached between 75 and 80 miles an hour. If weather conditions remain favorable, naval officers here believe Major G. H. Scott, commander, and members of the R-34's crew will see British shores early Saturday.

A request was sent to the Weather Bureau late yesterday that weather reports be sent to the R-34 regularly during the trip. The last weather report sent to the R-34 from here last night said that a storm centered over Newfoundland was moving northeast and that another over Ontario was moving toward Newfoundland. The report compiled by Forecaster E. H. Bowie concluded: "You will have strong westerly winds the next 24 to 36 hours with some clouds and a barometer fall. My advice is to keep well south and take advantage of westerly winds attending rapid eastward movement of disturbances north of latitude 45. Good luck and a quick trip."

To Photograph Graves of American Sons

New York, July 11.—The thousands of mothers and fathers of heroic American soldiers and sailors who died in England, France, Belgium, Germany, and Italy, are being photographed at the graves where they boys lie.

Recently the "Casey" workers decorated all the mounds of the laurel wreaths, and so many letters were received from heart-broken parents and sweethearts and wives, asking for a description of the last resting place of their loved ones, that the Knights of Columbus decided to photograph all the graves and send them to the nearest kin of the fallen.

Above each mound, in serried rows, white crosses mark the graves and on each cross is plainly painted the name of the dead American, his company and the date he was killed.

NO NEED TO BE THIN, SCRAWNY OR SALLOW If you are thin and want to be plump; if you have wrinkles in your face; if you are nervous; if the skin is sallow or subject to pimples or blackheads, take Mi-o-na stomach tablets for two weeks and notice the change.

The majority of the thin people are thin because the stomach does not perform its duties properly. It is not secreting sufficient of the natural digestive juices. In consequence does not extract from the food enough nutritive matter to nourish every part of the body.

Uncle Ben's Watch Uncle Ben was a bachelor, but was full of enthusiasm for his married friends, and when his brother-in-law invited him to come and spend a few days and see his son and heir, he gladly accepted. It was an education to watch the old gentlemen's efforts to amuse the six-month-old child.

WAR HEROES BRING HIM OLD MEMORIES When the khaki-clad heroes of Pennsylvania marched in the recent Welcome Home parade, J. H. Clark, 1638 Vine street, Philadelphia, a Civil War veteran, and his niece, Mrs. Elizabeth Cope, helped to welcome the fighting men.

ELKS PARADE IN HEAVY RAINFALL

Governor Louden in Speech Denounces Bolshevism and Socialism

Atlantic City, N. J., July 11.—Governor Frank Louden, of Illinois, in a victory and peace oration here yesterday at the conclusion of the Elks parade denounced Bolshevism and socialism.

Declaring that Bolshevism was "as destructive of a government of law and order as militarism," he added: "Our most dangerous enemy is not some foreign land. He is now within our gates. He bears different names. Sometimes it is the industrial workers of the world, sometimes the Soviet, sometimes the 'one great union' and sometimes socialism."

The parade was held in a down-pour of rain, more than 5,000 Elks from many parts of the country taking part. The New York delegation took an active part in placing the order on record as endorsing the "Big Brother" movement. They cheered Bruce A. Campbell, Elks of East St. Louis, retiring Mayor of that city, when he said: "The entire question of community and social welfare work should be put in the hands of a social and community welfare committee, which shall take charge of the 'Big Brother' movement. Our 'Big Brother' committee should be replaced by this welfare committee."

The convention mourned for 1,037 Elks who were killed in the war. A report filed with the Grand Lodge showed there were 64,350 Elks in service.

Bathing Girl Is Speeding to This City From the West

Speeding eastward from California, on one of the fastest trains from Los Angeles, is a Mack-Sennett girl. There must be no delay. If this girl does not reach Harrisburg by noon Saturday, the management of the Victoria theater is likely to throw several fits. This is no press agent's story but the gospel truth.

The Mack-Sennett bathing girls are booked at the Victoria theater for a few performances. The result of their appearance is of popular excitement. The public had come to know this beauty of shapely, wholesome girls in dazzling surf raiment almost without the door. The picture was repeated in Los Angeles and Mr. Sennett could not find a better one to replace the picture of the bathing girls in the studio. Their appearance here is the result of his persistent efforts to bring to cover a few large eastern cities. So it will be "here they come; there they go."

Favors Six-Cent Piece as Necessary Under New Prices

Johnstown, Pa., July 11.—Before returning to Washington after the Fourth of July recess, Congressman John C. Rorer, of this district, will investigate the feasibility of coining six-cent pieces and, if there are no obstacles in the way, to introduce legislation to that end in the House of Representatives.

RHEUMATISM Physician Believes a Genuine Remedy for the Disease Has Been Found

Rheuma, the wonderful rheumatism remedy, now sold by all good druggists, gives quicker and more lasting relief than other remedies costing many times as much.

Uncle Ben's Watch Uncle Ben was a bachelor, but was full of enthusiasm for his married friends, and when his brother-in-law invited him to come and spend a few days and see his son and heir, he gladly accepted. It was an education to watch the old gentlemen's efforts to amuse the six-month-old child.
