FOOD PRICES 29 YEARS AGO

Striking Comparisons Given in Perry Newspaper Showing Change in Conditions

Liverpool, Pa., July 14.—"Butter, eight cents per pound!" No, the farmers have not suddenly become exceedingly generous and combined to enormously reduce their prices for this product. That is merely the price of twenty-nine

years ago, in July 1890, according to market prices printed in the current issue of the Liverpool Sun, George Deckard, editor. In those days a housewife could go to market and purchase two pounds of ham, two pounds of butter and two dozen of eggs, and still have almost half of her dollar bill left. And now doubling the amount of money carried to market would not cover the bill, according to the present day prices printed in the Sun. The prices, carried under old-time news and those of to-day, follow: In July, 1890: Wheat, 50; rye, 50; corn, 35; oats, 20; eggs, 14; butter, 9; lard, 7; ham, 11; side, 8; shoulder, 8; railroad ties, 20-25. In July, 1919: Eggs, 38; butter, 45; corn, \$1.65; oats, 65; wheat, \$2.50; rye, \$1.45; potatoes, \$1.40.
