

WHEAT SCAB IS CAUSING DAMAGE

Reported As Prevalent in Dauphin and Adjoining Counties This Summer

The Southern Pennsylvania wheat belt, including several of the counties which have been raising million bushel crops in recent years, has been badly affected by the disease known as the wheat scab, according to reports reaching the State Department of Agriculture.

Tells How Thin Folks Can Put on Flesh and Get Strong

People who have tried it—and hundreds of folks right here in Harrisburg, have done so—say that if you are weak, thin, nervous, rundown and can't sleep nights, the quickest, surest and best way to get strong, put on flesh, have nerves of steel and be able to sleep well, is to take a 5-grain tablet of Blood-Iron Phosphate with every meal.

These counties have been specializing in wheat this year. It is reported from several other counties, but not to such a severe extent.

Heavy losses are feared in some districts, notably Lebanon, where Prof. W. A. McCubbin, assistant director of the Bureau of Plant Industry, found fine looking wheat infected. A study of the disease is being made and tests of means to prevent it are being worked out.

To Eliminate Pests—A series of studies is under way in several cities of the State to demonstrate how mosquitoes can be controlled. These tests are being made with assistance of officers of the State Department of Health, some bad spots having been selected. It is the hope to extend the campaign for elimination of the pests extensively this summer and to organize it as much as possible next spring under the act just approved.

Mergers Go—The Public Service Commission has approved the applications for merger of several electric companies chartered for Beaver county into the Harmony Electric system. The formal papers will be issued in a few days.

General Bill the Largest Ever Known

Provision for more than \$3,000,000 on account of the bond issue for road improvement is contained in the general appropriation bill upon which Governor Sprout is now at work.

The general bill is the largest in size and in amount carried on record, containing over \$4,500,000 and having 105 pages. There are considerable changes due to reorganization of departments, creation of new places and increases of salaries.

Another change is that legislators are to be paid one-fifth of the total salary each month for the first four months instead of the old rate, the balance to be paid upon final adjournment. The sum of \$50,000 is carried to pension State employees who may be retired under State laws and an appropriation of \$25,000 is made to take votes of soldiers in actual military service and a like sum to pay substitutes for State officials or employees who may be in the army or navy on leave.

STEALS HEADSTONE Eugene, Ore.—For many years E. C. Lake, a Eugene marble worker, has had no door to his salesrooms, as he thought no one would steal tombstones. Recently he reported to the police that a headstone had been stolen. It was a stone without marking, and Lake said he believed the person who took it was preparing for a future decoration of his own grave.

WAR BRIDES ENTERTAINED AT "Y. W." HOSTESS HOUSE

Given Physical Inspection, Teeth Examined, and Taught to Sew Before Leaving For America With Husbands

St. Nazaire, France, July 15.—French brides of American soldiers on their way from France to their new homes in America are entertained in the Hostess House here until they and their husbands are ready to go on board a steamer. Thus far, eighty-one of these newly-made American wives have been taken care of in this temporary home for brides.

The work of caring for them is conducted by the Young Women's Christian Association with five workers under the charge of Miss Mary Fay. The house was opened May 1, and is located in a grove of trees outside the limits of the men's camp.

The wives many of whom had never been more than twenty miles from their homes before are met at the station with an automobile and taken to the Hostess House where they are given a thorough physical inspection, teeth examined and any necessary work to be done on them is here done. After this they are given the opportunity to bathe, change their clothing and are assigned a bed in one of the spick and span dormitories. Their life from the non until the time they board the boat is chiefly occupied in learning the English language, sewing and exercises and recreations of various kinds in the mornings and with their husbands in the afternoons.

Germany Increased Gold During War, But Lost This Year

Washington, July 15.—Germany increased her stock of gold during the war, but lost \$122,000,000 between January and May of this year, according to information obtained by the Federal Reserve Board. The loss was due to reparations made Belgium and Rumania for gold stolen from those countries, and by shipments to neutral countries to finance purchases of food.

Beginning with \$298,000,000 in gold at the outbreak of the war, the German Reichsbank increased its metal to \$539,000,000 at the end of 1918.

The Federal Reserve Banks of this country and the Bank of England increased their holdings of gold, but the Bank of France and the Bank of Italy showed decreases.

Inflation of paper money to meet war expenses was greatest in Austria-Hungary, where the increase in four years was from \$431,000,000 to \$8,712,000,000, the ratio of gold cover to combined deposit and note liabilities declining to one-half of 1 per cent. In Germany the increase in bank notes was from \$692,000,000 to \$5,285,000,000, with still further issues this year.

France increased her bank notes from \$1,290,000,000 to \$5,838,000,000, and the United States from \$10,000,000 to \$2,802,000,000.

Mag Rhu Relieved After 25 Years of Suffering With Stomach Trouble

Read One of the Thousands of Unsolicited Letters Received by the Mag Rhu Co.

Hastings, W. Va., June 4, 1919. Hope Natural Gas Company, MAG RHU CO., Pittsburgh, Pa. Gentlemen:—Please mail me 2 more boxes of Mag Rhu TABLETS. I have had stomach trouble for 25 years and it is the finest medicine that I have ever taken that did me any good. I have taken treatment from some of the best doctors in Ohio and West Virginia, but they did me no good. Mag Rhu took a hold the first dose. I have taken 3 boxes, but I did not expect a cure for some time, as it has been running so long. I was troubled with gas and sour stomach, but now I do not have any trouble with either but intend to continue treatment until I know that it will not return. Respectfully, C. W. ZARBAUGH, You May Publish This.
